3. SETUP GUIDE

3.1 Unpacking and Placement

Remove all protective materials and tape from the printer. Place the printer on a stable, flat surface with adequate space for paper trays and ventilation.

3.2 Power Connection

Connect the power cord to the printer and then to a power outlet. Do not turn on the printer yet.

3.3 Ink Filling

The EcoTank system uses refillable ink tanks. Follow these steps to fill the ink tanks:

1. Open the ink tank unit cover on the side of the printer.
2. Open the cap for the black ink tank.
3. Uncap the black ink bottle. The EcoFit bottles are uniquely keyed to fit only the correct color tank, preventing mix-ups.
4. Insert the ink bottle into the tank's filling port. The ink will automatically start to fill the tank. Do not

squeeze the bottle.

5. Once the tank is full, remove the bottle and recap the ink tank securely.
6. Repeat this process for the Cyan, Magenta, and Yellow ink tanks.
7. Close the ink tank unit cover.

Stress-Free, Cartridge-Free Printing

Use Epson's exclusive **EcoFit® bottles** to easily refill the high-capacity ink tanks, with up to **3 years of ink included** in the box—and with every replacement ink set¹

5.2 Cleaning

Regular cleaning helps maintain print quality and printer longevity.

- **Exterior:** Wipe the exterior of the printer with a soft, damp cloth.
- **Scanner Glass:** Clean the scanner glass with a soft, lint-free cloth and a mild glass cleaner.
- **Print Head Cleaning:** If print quality declines (e.g., missing lines, streaking), perform a print head cleaning cycle through the printer's control panel or printer software.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your ET-4950 printer.

6.1 Paper Jams

If a paper jam occurs:

- Turn off the printer.
- Carefully remove any jammed paper from the input tray, output tray, or inside the printer. Avoid tearing

the paper.

- **Important Note:** If the printer is turned off, remove all paper from the paper tray before turning it back on. Once the printer has completed its startup sequence, then reload the paper. This can prevent paper feeding issues.
- Close all covers and turn the printer back on.

6.2 Print Quality Issues

If prints are faded, streaky, or have incorrect colors:

- Check ink levels and refill any low tanks.
- Perform a nozzle check to identify clogged nozzles.
- Run a print head cleaning cycle from the printer's maintenance menu.
- If issues persist, perform a print head alignment.

6.3 Connectivity Problems

If the printer cannot connect to your network or computer:

- Ensure the printer is within range of your Wi-Fi router.
- Restart your router, computer, and printer.
- Verify Wi-Fi settings on the printer's control panel.
- For Ethernet connections, check the cable and router connection.
- For USB connections, ensure the cable is securely connected and try a different USB port.
- Update printer drivers on your computer.
