KEYQEEN 22029673

User Manual for Gold Crystal Wall Lamps

Model: 22029673 | Brand: KEYQEEN

1. INTRODUCTION

Thank you for choosing the KEYQEEN Gold Crystal Wall Lamp. This manual provides essential information for the safe installation, operation, and maintenance of your new lighting fixture. Please read this manual thoroughly before installation and retain it for future reference.

2. SAFETY INSTRUCTIONS

WARNING: Risk of electric shock. Disconnect power before installation or servicing.

- Always turn off the main power supply at the circuit breaker or fuse box before beginning any electrical work.
- Installation must be performed by a qualified electrician or a person with adequate knowledge of electrical wiring.
- Ensure all electrical connections are secure and comply with local electrical codes.
- Do not install this fixture in wet locations. It is designed for indoor use only.
- Handle crystal components with care to prevent breakage.
- Do not exceed the specified wattage for the light source.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

- Gold Crystal Wall Lamp Fixture (1 unit)
- Mounting Hardware (screws, wall anchors, wire nuts)
- Instruction Manual

Note: Light bulbs are typically not included and must be purchased separately. This fixture uses LED light sources.
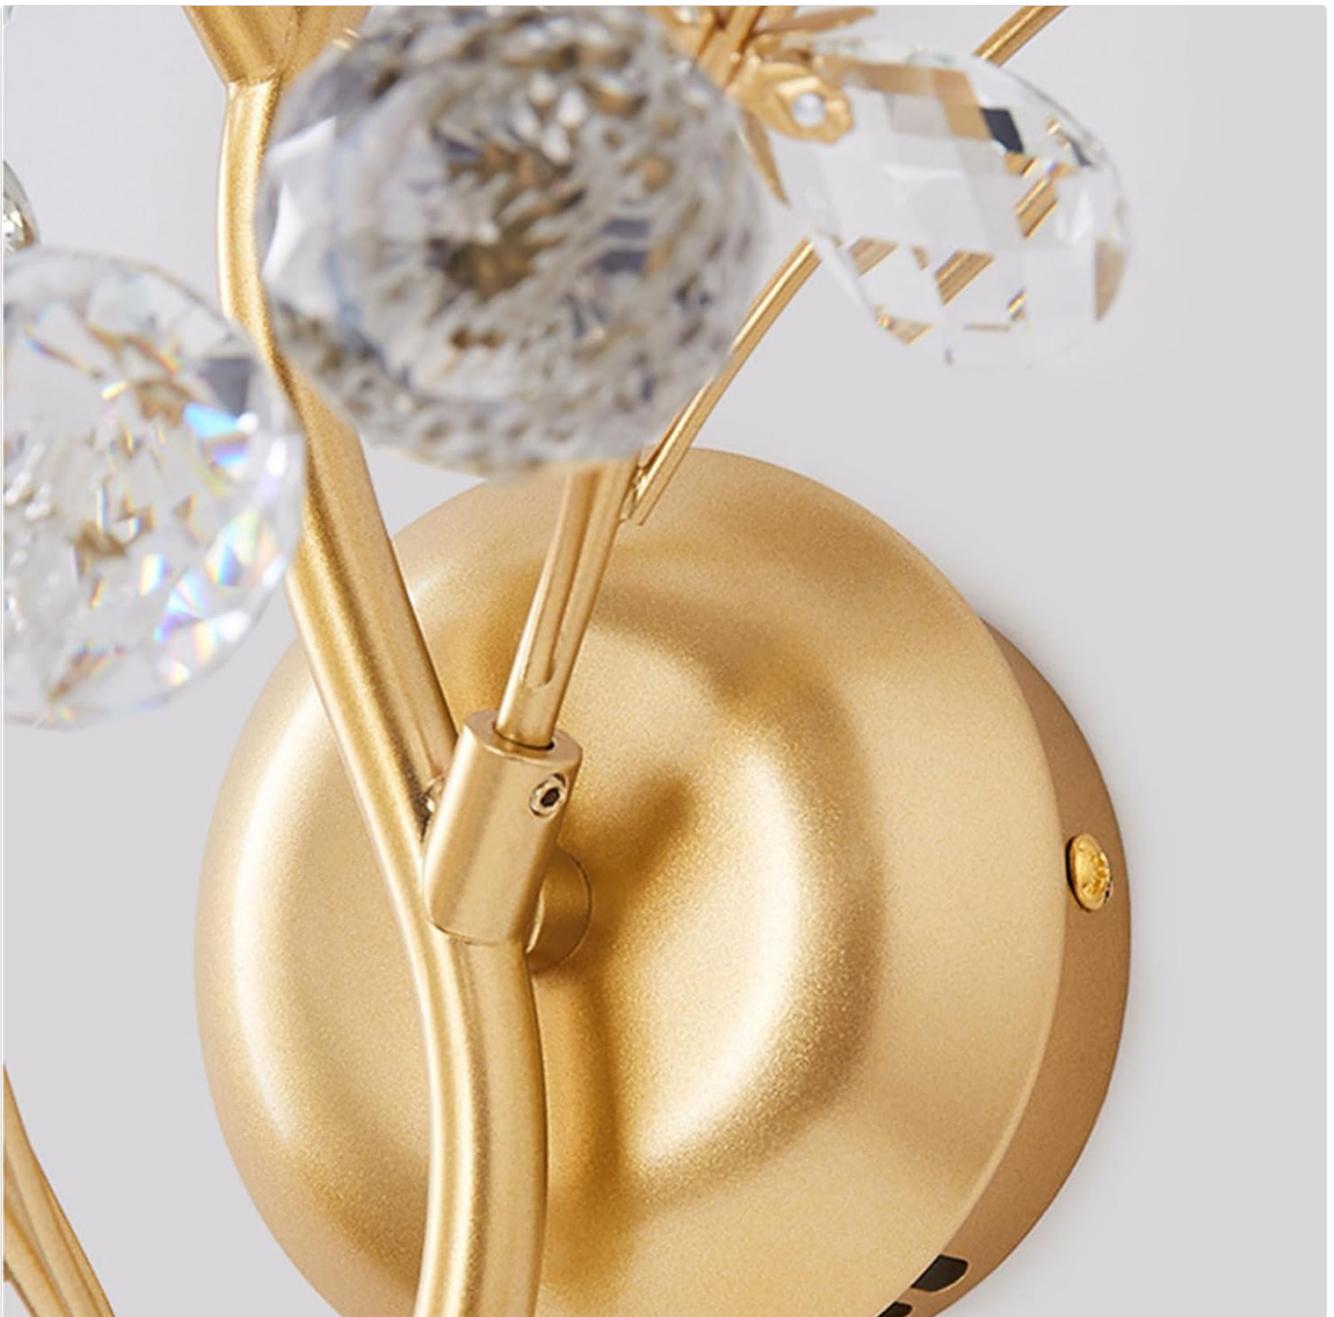

4. SETUP AND INSTALLATION

This wall lamp is designed for wall-mounted, hardwired installation. Wires need to be reserved at the installation point.

1. **Turn Off Power:** Locate the circuit breaker or fuse box that controls the power to the desired installation location. Turn off the power completely. Verify power is off using a voltage tester.

2. **Prepare Mounting Area:** Remove any existing fixture and its mounting hardware. Ensure the electrical box is securely mounted in the wall.

3. **Attach Mounting Bracket:** Secure the fixture's mounting bracket to the electrical box using the provided screws. Ensure it is firm and level.

4. **Connect Wiring:** Carefully connect the electrical wires. Connect the live (black) wire from the fixture to the live (black) wire from the wall using a wire nut. Connect the neutral (white) wire from the fixture to the neutral (white) wire from the wall. Connect the ground (green or bare copper) wire from the fixture to the ground wire from the wall or the electrical box. Ensure all connections are tight and secure.

5. **Secure Fixture:** Carefully push the connected wires into the electrical box. Align the fixture base with the mounting bracket and secure it with the provided screws.

6. **Install Light Sources and Crystals:** Insert the appropriate LED light sources into the sockets. Carefully attach the crystal components to the branches of the lamp as designed.

7. **Restore Power:** Once installation is complete and all components are secure, restore power at the circuit breaker or fuse box. Test the lamp to ensure it functions correctly.

Turn off the lights

5. OPERATING INSTRUCTIONS

The KEYQEEN Gold Crystal Wall Lamp operates as a standard hardwired lighting fixture. Once properly installed and connected to your home's electrical system, it can be controlled via a standard wall switch.

- **Turning On/Off:** Use the wall switch connected to the fixture to turn the lamp on or off.
- **Light Characteristics:** The lamp provides a warm white light (2700-3500K) from its LED light sources, creating a comfortable and inviting ambiance. The LED design ensures uniform light distribution without dark

areas or flickering, promoting eye comfort and energy efficiency.

6. MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your wall lamp.

- **Cleaning:** To clean the fixture, first ensure the power is turned off. Use a soft, dry, or slightly damp cloth to wipe down the metal and crystal surfaces. Avoid using abrasive cleaners, solvents, or polishes, as these can damage the finish.
- **Bulb Replacement:** If an LED light source needs replacement, ensure the power is off. Allow the bulb to cool before carefully unscrewing it. Replace with an LED bulb of the same type and wattage to maintain optimal performance and safety.
- **Crystal Care:** The crystal components can be gently wiped with a soft, lint-free cloth. For deeper cleaning, a mild glass cleaner can be applied to the cloth (not directly to the crystals or metal) and then wiped clean.

7. TROUBLESHOOTING

If you encounter issues with your wall lamp, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Lamp does not light up	No power to the fixture Loose wire connection Faulty light source	Check circuit breaker/fuse. Ensure all wire connections are secure (with power off). Replace light source.
Light flickers	Loose wire connection Incompatible dimmer switch Faulty light source	Check wire connections (with power off). Ensure dimmer switch is compatible with LED lights. Replace light source.
Lamp makes buzzing noise	Loose wire connection Incompatible dimmer switch	Check wire connections (with power off). Ensure dimmer switch is compatible with LED lights.

If the problem persists after attempting these solutions, please contact customer support.

8. SPECIFICATIONS

Feature	Detail
Item Type	Indoor Wall Lamp / Wall Sconce
Model Number	22029673
Installation Type	Wall Mounted, Hardwired
Power Source	AC
Material	Iron + Crystal
Color	Gold
Light Source	LED
Color Temperature	Warm White (2700-3500K)
Process	Painted
Dimensions (approx.)	35cm (Width) x 45cm (Height)
Lighting Area	5-10 square meters
Certifications	EMC, CFL, CCC, CE, UL
Batteries Required	No
