TENGA Spinner DX Bumps

TENGA Spinner DX Bumps Instruction Manual

Model: Spinner DX Bumps

PRODUCT OVERVIEW

The TENGA Spinner DX Bumps set includes two distinct Spiral Motion Strokers: the Spinner DX 02 (Bumps) and the Spinner DX 03 (Steps). These devices are designed to provide dynamic stimulation through their unique internal textures and spiraling motion technology. They are reusable, waterproof, and easy to clean, ensuring convenient and satisfying use.

FEATURES AND USAGE

The TENGA Spinner DX series incorporates Spiral Motion Technology, where the internal structure twists during use to create dynamic sensations. The DX 02 (Bumps) model offers bouncy, rolling sensations with soft, bumping textures, while the DX 03 (Steps) provides edgy, repeating sensations.

- **Spiral Motion Technology:** Each reusable stroker twists during use for dynamic stimulation and unique textures.
- **Enhanced Size and Detail:** The DX models feature 40% larger size and bigger internal details compared to standard Spinner models, intensifying the experience.

Reusable, Washable! Includes Drying Stand

MAINTENANCE AND CLEANING

The TENGA Spinner DX Bumps are designed for easy maintenance. They are waterproof and reusable, allowing for convenient cleaning after each use.

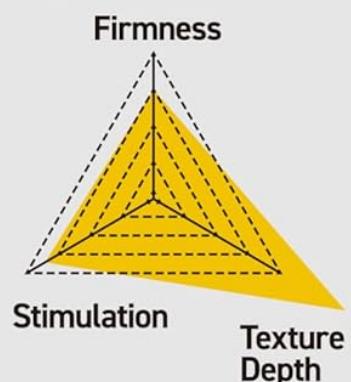

1. After use, rinse the product thoroughly with lukewarm water.
2. Apply a small amount of mild soap to clean the internal and external surfaces.
3. Rinse completely to remove all soap residue.
4. Gently squeeze out excess water.
5. Utilize the included drying stand by placing the product with the opening facing downwards to allow for proper air drying. Ensure it is completely dry before storage to prevent moisture buildup.
