MuliVid LX20250312-60M

MuliVid 200Ft Permanent Outdoor Lights User Manual

Model: LX20250312-60M | Brand: MuliVid

1. INTRODUCTION

This manual provides essential instructions for the safe and effective installation, operation, and maintenance of your MuliVid 200Ft Permanent Outdoor Lights. These lights are designed for year-round outdoor use, offering versatile lighting options for various occasions.

2. PACKAGE CONTENTS

Verify that all components are present in your package:

- 200ft Permanent Outdoor Lights (4 x 50ft strips)
- 1 Power Adapter (3.28ft cord)
- 4.92ft Extension Cable
- 1 Control Box
- 1 Remote Control
- 1 Screw Mounting Kit
- 1 User Manual (this document)

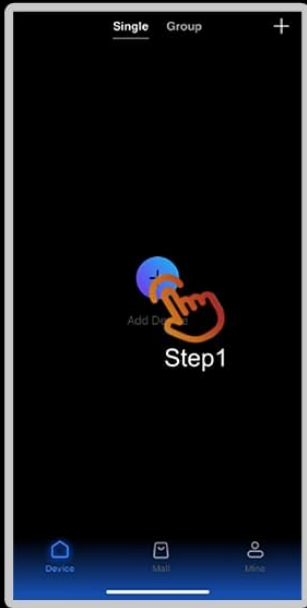

Image: All components included in the MultiVid Permanent Lights package, laid out for inspection.

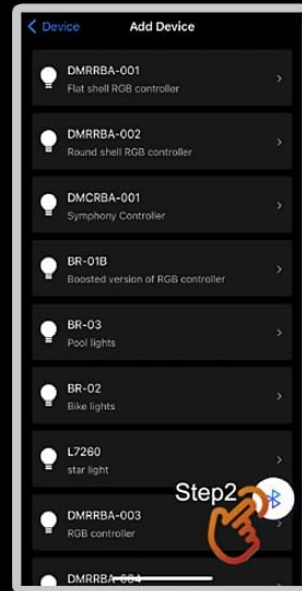

3. INSTALLATION GUIDE

Follow these steps for proper installation:

1. **Pre-Installation Test:** Before mounting, connect all light strips to the power adapter and control box. Test the lights to ensure they function correctly. If any issues arise, contact customer support.
2. **Surface Preparation:** Clean the installation surface thoroughly. For optimal adhesion, especially in humid environments, clean the area with rubbing alcohol.
3. **Dual Fixing Method:** The lights are designed for dual fixing using both adhesive and screws for long-term durability. Relying solely on adhesive may lead to failure, particularly in challenging weather conditions.
4. **Mounting:** Secure the light strips along the desired eaves or other outdoor structures using the provided screws and adhesive. The distance between individual lights is 2ft.
5. **Power Connection:** Ensure the total length from the power source to the control box (power adapter + extension cable = 8.2ft) is sufficient for your installation location to avoid connection problems.

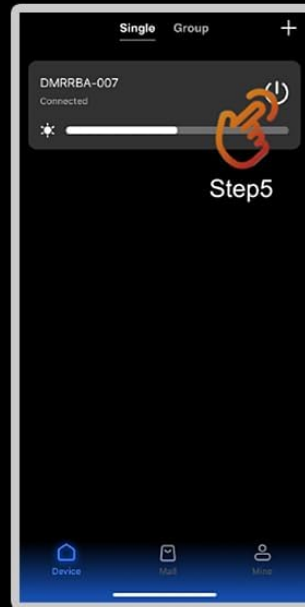

Step 1:Connecting the light to the power source.

Step 2:Scan the QR code in the user manual or the white control box, or download it from APP Store.

Step 3:After downloading the APP, open it and enter the operation interface. The operation interface is shown in the figure below

Step 4:Finished, you can use your light strip

4. OPERATING INSTRUCTIONS

4.1 Smart Dual Control (App & Remote)

Your MultiVid Permanent Outdoor Lights can be controlled via a smartphone application or the included remote control.

- **Smartphone App:** Download the dedicated app (refer to the QR code in the user manual or on the control box, or search in your app store). The app allows for customization of colors (16 million combinations), brightness, modes, and scheduling.
- **Remote Control:** The remote provides instant, one-touch access to various functions. Ensure the insulation tab is removed before first use. The remote requires a direct line of sight to the control box and operates within a 3-meter range.

5. MAINTENANCE

The MultiVid Permanent Outdoor Lights are designed for durability and minimal maintenance. They feature an IP67 waterproof rating, making them resistant to heavy rain and snow. The internal waterproof sealing strip provides additional protection against moisture. The lights are built to withstand temperatures from -40°C to 60°C and have a lifespan of 50,000 hours.

- **Cleaning:** Periodically clean the light surfaces with a soft, damp cloth to remove dirt and debris. Avoid abrasive

cleaners.

- **Inspection:** Regularly inspect the wiring and connections for any signs of wear or damage. Ensure all mounting screws remain secure.

6. TROUBLESHOOTING

If you encounter issues with your MultiVid Permanent Outdoor Lights, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights do not turn on.	No power, loose connection, faulty adapter/control box.	<ul style="list-style-type: none">◦ Check power outlet and connections.◦ Ensure the power adapter and extension cable are securely connected.◦ Verify the control box is properly connected.◦ Perform the pre-installation test again.
Remote control not working.	Insulation tab not removed, battery drained, no direct line of sight.	<ul style="list-style-type: none">◦ Remove the clear insulation tab from the remote's battery compartment.◦ Replace the remote control battery if necessary.◦ Ensure the remote has a clear line of sight to the control box (within 3 meters).
App control not connecting or unresponsive.	Incorrect app setup, Bluetooth/Wi-Fi issues, app malfunction.	<ul style="list-style-type: none">◦ Ensure Bluetooth/Wi-Fi is enabled on your device and the lights are within range.◦ Restart the app and/or your smartphone.◦ Refer to the app's specific troubleshooting guide or contact support.
Lights falling or adhesive failing.	Improper surface preparation, adhesive-only installation in humid conditions.	<ul style="list-style-type: none">◦ Re-clean the surface and reapply adhesive.◦ Ensure both adhesive and screws are used for secure, long-term installation.
