VEEKTOMX WF103C

VEEKTOMX WF103C Portable Charger with Built-in Cables

Instruction Manual

INTRODUCTION

Thank you for choosing the VEEKTOMX WF103C Portable Charger. This compact and versatile power bank is designed to keep your devices charged on the go, eliminating the need for multiple cables. With its built-in charging cables and fast-charging capabilities, it's an ideal companion for travel and daily use.

KEY FEATURES

- **Built-In Charging Cables:** Equipped with integrated Lightning, USB-C, and Micro-USB cables for universal compatibility with 99% of devices, including iPhone 17/16/15/14, Samsung Galaxy S25/S24/Z Fold, Google Pixel 9/8/7, iPad, and AirPods.
- **Slim & Compact Design:** Weighing only 0.363lb (165g) and ultra-thin at 0.62 inches, it easily fits into pockets, purses, or backpacks for unparalleled portability.
- **Fast Charging & Efficient Recharging:** Supports Dual PD 3.0 and QC 3.0 for rapid device charging with a maximum output power of 22.5W. The power bank itself recharges quickly in approximately 3 hours.
- **Universal Compatibility:** A single solution for various smart devices, including smartphones, tablets, headphones, smartwatches, and small drones.
- **Multi-Layer Safety Protection:** Features exclusive technology with built-in safeguards against excessive current, overheating, and overcharging, ensuring complete protection for both the device and the user.

PRODUCT OVERVIEW

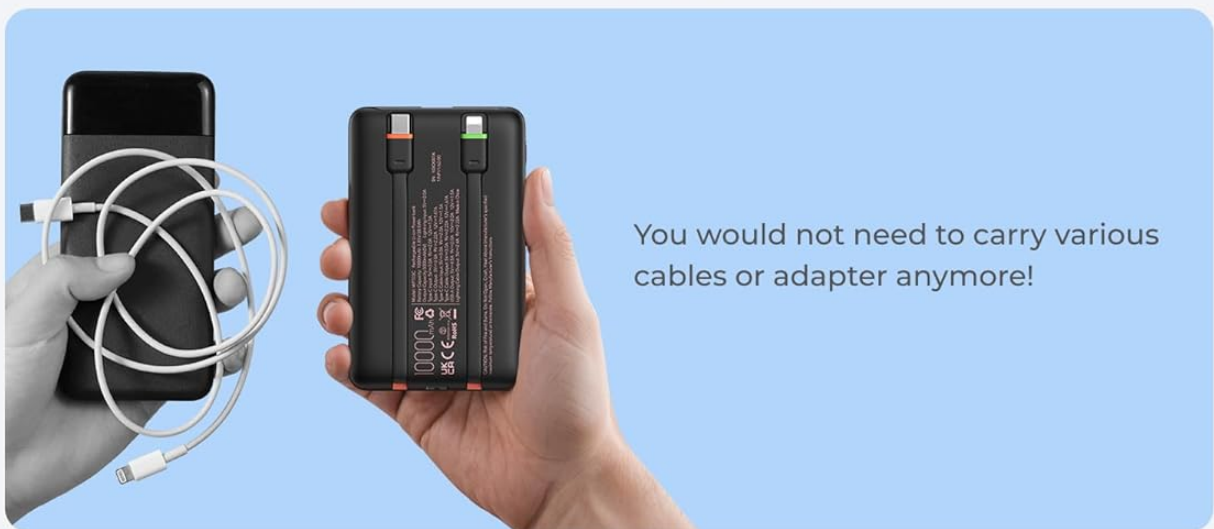

The VEEKTOMX WF103C Portable Charger is designed for convenience and efficiency. Familiarize yourself with its components:

- **Built-in Cables:** Includes one Lightning cable and one USB-C cable, neatly integrated into the power bank's design.

- **USB-A Output Port:** For charging devices using your own USB-A compatible cables.
- **USB-C Input/Output Port:** For recharging the power bank or charging devices with a USB-C cable.
- **LED Digital Display:** Shows the remaining battery percentage of the power bank.
- **Power Button:** Activates the LED display and initiates charging.

Built in Cables

3-in-1 Power Bank, No Extra Cables

You would not need to carry various cables or adapter anymore!

Image: Overview of the VEEKTOMX Portable Charger, highlighting its built-in cables and various charging ports.

Ultra Thin & Compact

More compact, easy to carry

More compact size than the iPhone 16, making it easy to carry anywhere

Ultra-thin design

At 0.41 inches thinner than a \$1 coin, it can fit into the small pocket of your backpacks or purses.

SETUP

Charging the Power Bank

Before first use, fully charge your VEEKTOMX Portable Charger. The LED digital display will show the charging progress.

1. Connect the power bank to a power source using its built-in USB-C cable or a separate Lightning cable.

2. The LED display will show the battery percentage increasing as it charges.
3. Once the display shows 100%, the power bank is fully charged and ready for use.

OPERATING INSTRUCTIONS

Charging Your Devices

The VEEKTOMX Portable Charger offers multiple ways to charge your electronic devices.

1. **Using Built-in Cables:** Gently pull out the appropriate built-in Lightning or USB-C cable from its slot. Connect it directly to your compatible device.
2. **Using External Cables:** For devices requiring other cable types or if you prefer to use your own, connect your device's charging cable to the USB-A output port or the USB-C input/output port on the power bank.
3. Press the power button once to activate charging. The LED display will show the power bank's remaining charge.
4. Your device should begin charging automatically.

22.5W Fast Charging

Charge your devices quickly and efficiently
saving you valuable time

Pass-Through Charging

The power bank supports pass-through charging, allowing you to recharge the power bank while simultaneously charging your devices.

MAINTENANCE

- Keep the power bank dry and away from moisture.

- Avoid exposing the device to extreme temperatures (hot or cold).
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store in a cool, dry place when not in use.

TROUBLESHOOTING

- **Device not charging:** Ensure the power bank is sufficiently charged. Check that the cables are securely connected to both the power bank and your device. Try a different cable or port.
- **Slow charging:** Verify that your device and cable support fast charging. Some devices may charge slower if multiple devices are connected simultaneously.
- **Power bank not recharging:** Ensure the charging cable is properly connected to a working power source. Check the power adapter for functionality.

SPECIFICATIONS

Feature	Detail
Model Name	WF103C
Battery Capacity	10000 Milliamp Hours
Connector Type	Lightning, USB Type C
Color	Black
Special Feature	Built In Cable
Reusability	Rechargeable
Voltage	12 Volts
Amperage	1.67 Amps
