# TW-1102B Stun Gun User Manual

Ultrapowerful Rechargeable Tactical Flashlight for Personal Safety

## 1. INTRODUCTION AND PRODUCT OVERVIEW

The TW-1102B Stun Gun is a compact and powerful personal safety device designed for self-defense. It integrates a high-voltage stun function with a bright LED tactical flashlight, offering a dual-purpose tool for personal protection and illumination. This manual provides essential information on the safe operation, maintenance, and specifications of your device.

## 2. SAFETY INFORMATION AND WARNINGS

**WARNING:** This device is intended for self-defense purposes only. Misuse can result in serious injury or death. Keep out of reach of children. Always check local laws and regulations regarding the possession and use of stun guns.

- Do not use on individuals with heart conditions, pacemakers, or pregnant women.
- Avoid contact with the head, neck, or chest area. Target large muscle groups for maximum effectiveness.
- Do not operate the stun function for more than 5 seconds continuously.
- Ensure the safety switch is engaged when not in use to prevent accidental discharge.
- Do not immerse the device in water or expose it to extreme temperatures.
- Store in a cool, dry place away from direct sunlight.

## 3. SETUP AND INITIAL CHARGING

---

Before first use, fully charge your TW-1102B Stun Gun. The device comes with a built-in rechargeable battery.

1. Locate the charging port on the device.
2. Connect the provided charging cable to the stun gun and a compatible USB power source (e.g., wall adapter, computer USB port).
3. The charging indicator light will illuminate (if present) to show that the device is charging.
4. Allow approximately 4-6 hours for a full charge. Do not overcharge.
5. Once fully charged, disconnect the charging cable.

It is recommended to fully charge the device every 30-60 days, even if not in use, to maintain battery health.

## 4. OPERATING INSTRUCTIONS

---

### 4.1. Using the LED Flashlight

The TW-1102B features a bright LED flashlight for illumination.

- Locate the flashlight switch, typically a sliding button or a dedicated button.
- Slide or press the switch to turn the flashlight ON.
- Slide or press the switch again to turn the flashlight OFF.

## 4.2. Using the Stun Function

The stun function is designed for self-defense. Use with caution and only when necessary.

1. Ensure the device is fully charged.
2. Locate the safety switch. Slide it to the "ON" or "ARMED" position. This will typically be a separate switch from the flashlight.
3. Locate the stun activation button. This button is usually distinct and requires a firm press.
4. When confronted, firmly press the stun activation button while making direct contact with the assailant's body. Target large muscle groups (e.g., shoulder, hip, thigh).
5. Maintain contact for 1-3 seconds for effective incapacitation. Do not exceed 5 seconds.
6. After use, immediately slide the safety switch back to the "OFF" or "SAFE" position.

## 5. MAINTENANCE

---

Proper maintenance ensures the longevity and reliability of your TW-1102B Stun Gun.

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Charging:** As mentioned, recharge the battery every 30-60 days to prevent deep discharge and extend battery life.
- **Storage:** Store the stun gun in a cool, dry place, away from direct sunlight and extreme temperatures. Keep it in its holster or a secure location to prevent accidental activation.
- **Testing:** Periodically test the stun function (in a safe environment, away from people and flammable materials) to ensure it is working correctly. A visible arc and audible crackle indicate proper function.

## 6. TROUBLESHOOTING

---

If you encounter issues with your TW-1102B Stun Gun, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Stun function not working	Battery is low or dead	Fully charge the device.
Stun function not working	Safety switch is in "OFF" position	Move the safety switch to the "ON" or "ARMED" position.
Flashlight not turning on	Battery is low or dead	Fully charge the device.
Device not charging	Charging cable or adapter is faulty	Try a different charging cable or USB power source. Ensure connections are secure.

If problems persist after attempting these solutions, please contact customer support.

## 7. SPECIFICATIONS

---

Feature	Detail
Model Name	TW-1102B (NBQWQFBAZ)
Brand	Generic
Item Package Dimensions	6.69 x 2.36 x 1.97 inches
Item Weight	200 Grams
