SUNVIVI 8-in-1 Nut Milk Maker Machine

SUNVIVI 8-in-1 Nut Milk Maker Machine User Manual

Model: 8-in-1 Nut Milk Maker Machine

Brand: SUNVIVI

1. INTRODUCTION

Thank you for choosing the SUNVIVI 8-in-1 Nut Milk Maker Machine. This appliance is designed to simplify the preparation of various plant-based milks, juices, and other beverages. With its versatile functions, you can create fresh soy milk, nut milk, oat milk, rice paste, juices, and milkshakes, as well as boil water and utilize a self-cleaning feature. Please read this manual thoroughly before operation to ensure safe and efficient use.

DIVERSE USE

You can make all kinds of nutritious Drinks according to your favorite taste

2. IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before using the appliance.
- Do not immerse the main unit, cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.

- Exercise extreme caution when moving an appliance containing hot liquid.
- The appliance operates at approximately 70-80 decibels during blending cycles. This is normal for powerful blending.

3. PRODUCT OVERVIEW

Key Features:

- **8-in-1 Versatility:** Functions include Juice, Soy Milk, Nut Milk, Milk Shake, Boil Water, Rice Paste, and Clean.
- **60oz (1.75L) Capacity:** Ideal for family-sized servings.
- **10-Blade Stainless Steel System:** Ensures ultra-smooth results without the need for straining.
- **24-Hour Delay Start:** Prepare ingredients in advance and set a delayed start time.
- **12-Hour Keep Warm Function:** Maintains optimal temperature after preparation.
- **One-Touch Operation & Self-Clean:** User-friendly interface and automatic cleaning for convenience.
- **Durable Construction:** Features a SUS 304 stainless steel interior for safety and longevity.

4. SETUP

1. **Unpack:** Carefully remove all components from the packaging. Retain packaging for future storage or

transport.

2. **Clean:** Before first use, wash the interior of the pitcher and the lid with warm, soapy water. Rinse thoroughly and dry. Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water.
3. **Placement:** Place the appliance on a stable, flat, heat-resistant surface away from the edge of the counter. Ensure adequate ventilation around the unit.
4. **Power Connection:** Connect the power cord to the appliance and then to a grounded electrical outlet.

5. OPERATION

General Steps:

1. **Add Ingredients:** Place your desired ingredients into the stainless steel pitcher.
2. **Add Water:** Fill with water up to the indicated maximum fill line (1.75L for Boil Water Max, 1.4L for Max for other functions).
3. **Secure Lid:** Ensure the lid is properly closed and locked into place. An error code (E1) may appear if the lid is not correctly positioned.
4. **Select Program:** Press the "Menu" button repeatedly to cycle through the available programs (Juice, Soy Milk, Nut Milk, Milk Shake, Boil Water, Oat Milk, Rice Paste, Clean). The selected program icon will illuminate.
5. **Start:** Press the "Start/Cancel" button to begin the selected program.

Figure 4: Basic operation steps for the Nut Milk Maker.

Specific Programs:

- **Soy Milk / Nut Milk / Oat Milk:** These programs are designed to process soaked or unsoaked beans/nuts into smooth, creamy milk. Follow specific recipes for ingredient ratios.
- **Juice:** For blending fruits and vegetables into fresh juices.
- **Milk Shake:** Creates thick and smooth milkshakes.
- **Rice Paste:** Prepares smooth rice paste, suitable for various culinary uses.
- **Boil Water:** Heats water to boiling temperature.

Delay Start & Keep Warm Functions:

- **Delay Start (24-Hour):** After adding ingredients and selecting a program, press the "Preset" button. Use the "Menu" button to adjust the delay time (up to 24 hours). Press "Start/Cancel" to confirm. The machine

will begin operation after the set delay.

- **Keep Warm (12-Hour):** After a program finishes, the machine automatically enters a 12-hour "Keep Warm" mode, maintaining the beverage at an optimal serving temperature.

6. MAINTENANCE AND CLEANING

- **Self-Clean Function:** After use, add water to the pitcher up to the "Clean" line. Select the "Clean" program from the menu and press "Start/Cancel". The machine will automatically clean its interior.
- **Manual Cleaning:** For thorough cleaning, unplug the appliance and allow it to cool. Carefully remove the lid. Wash the interior of the pitcher and the lid with warm, soapy water and a non-abrasive sponge. Use the provided cleaning brush for hard-to-reach areas around the blades. Rinse thoroughly and dry.
- **Exterior Cleaning:** Wipe the exterior of the main unit with a damp cloth. Do not use abrasive cleaners or immerse the main unit in water.

- **Storage:** Store the clean and dry appliance in a cool, dry place.

Figure 6: The one-touch self-cleaning function simplifies maintenance.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; power outage; lid not properly closed.	Ensure power cord is securely plugged in. Check power supply. Close the lid correctly until it clicks into place.
Error code E1 displayed.	Lid is not properly secured.	Ensure the lid is correctly aligned and fully closed.
Overflow during operation.	Overfilling the pitcher; ingredients expand during heating/blending.	Do not exceed the maximum fill line (1.4L for most functions, 1.75L for Boil Water). Reduce the amount of ingredients, especially those that expand significantly.
Loud noise during blending.	Normal operation for powerful blending.	The appliance operates at 70-80 decibels during blending, which is typical for this type of machine. This indicates the motor is working effectively.
Ingredients sticking to the bottom.	Insufficient liquid; certain ingredients are prone to sticking.	Ensure adequate liquid is used. For ingredients prone to sticking (e.g., dried beans), consider pre-soaking or adding more liquid. Use the self-clean function immediately after use.

8. SPECIFICATIONS
