## IMALENT GR35

# IMALENT GR35 EDC Flat Flashlight Instruction Manual

Model: GR35

## PRODUCT OVERVIEW

---

The IMALENT GR35 is a compact, multi-functional EDC (Everyday Carry) flat flashlight designed for versatile use in various situations, from daily tasks to emergency and outdoor activities. It features multiple light sources and brightness levels, along with a durable, rechargeable design.

- **Multi-Function LED Lighting:** Equipped with white LED, red LED, and UV LED for versatile everyday and outdoor use. All light sources are LED-based and safe for general applications.
- **Emergency & Outdoor Ready:** Ideal for home backup, car emergency kits, camping trips, and general-purpose lighting.
- **Compact & Portable Design:** Lightweight and pocket-sized, easy to carry for EDC, travel, and emergency situations.
- **Rechargeable & Long Runtime:** Features an integrated rechargeable battery for reliable performance and extended use.
- **Durable & Reliable:** Constructed with a sturdy aluminum body suitable for camping, hiking, and daily utility needs.

## PACKAGE CONTENTS

---

Ensure all items are present upon unboxing:

- IMALENT GR35 EDC Flat Flashlight
- USB-C Charging Cable
- User Manual

## SETUP

---

### Initial Charge

Before first use, fully charge the IMALENT GR35 flashlight. Connect the provided USB-C charging cable to the flashlight's USB-C port and to a compatible USB power source. The battery indicator lights will show charging progress.

Figure 1: IMALENT GR35 flashlight connected via USB-C for fast charging.

## OPERATING INSTRUCTIONS

---

### Power On/Off

To turn the flashlight ON or OFF, double-press the side button. The device will remember the last used white light brightness setting.

### Switching Light Modes

The IMALENT GR35 features a rotary dial to select different light functions:

- **White LED:** Provides general illumination with multiple brightness levels.
- **UV LED:** Emits ultraviolet light for inspection purposes (e.g., detecting stains, verifying currency).
- **Red LED:** Offers a red light for preserving night vision or signaling.
- **Green Laser:** A green laser pointer for pointing at distant objects.

### Adjusting Brightness (White Light)

When the white LED is active, press and hold the power switch button to cycle through the six brightness levels: Moonlight, Low, Middle Low, Middle, High, and Turbo. Release the button to select the desired output level. Double-tapping the power button will activate the Turbo mode directly.

## 6 Brightness Levels + Strobe

When the flashlight is on, press and hold the power switch button, the brightness levels will cycle automatically, release the switch button will save the needed output level

### Strobe Function

From any white light mode, quickly triple-press the power switch button to activate the Strobe function for emergency signaling or disorientation.

### Emergency Red-Blue Flashing Light

The GR35 includes a red-blue flashing light feature, ideal for roadside emergencies or to enhance visibility. Activate this mode via the rotary dial.

### Lock/Unlock Function

To prevent accidental activation, the flashlight features a lock/unlock button. With the light off, double-press the side button to lock or unlock the flashlight.

## MAINTENANCE

---

### Cleaning

Regularly clean the flashlight body and lens with a soft, damp cloth. Avoid using abrasive cleaners or solvents that could damage the finish or optical components. The UV light can be used to identify areas needing thorough cleaning.

### Battery Care

To prolong battery life, avoid fully discharging the flashlight frequently. Recharge the device when the battery indicator shows low power. Store the flashlight in a cool, dry place when not in use for extended periods.

## TROUBLESHOOTING

---

If the flashlight is not functioning as expected, consider the following:

- **No Light Output:** Ensure the battery is charged. Check if the device is in locked mode and unlock it if necessary.
- **Dim Light:** Recharge the battery. The brightness may decrease as the battery level gets low.
- **Mode Switching Issues:** Ensure the rotary dial is clean and free from debris. Rotate it firmly to engage different modes.

If problems persist, contact customer support for further assistance.
