Operating Instructions

Follow these steps to create your friendship bracelets:

1. **Select a Design:** Choose one of the 10 knot styles provided in the instruction guide or create your own.
2. **Prepare Threads:** Cut the desired vibrant bracelet threads to the appropriate length as indicated in the instruction guide for your chosen knot style.
3. **Set Up on Loom:** Secure the starting ends of your threads onto the movable pegs of the portable loom. The pegs help hold the threads in place and maintain tension during braiding.
4. **Follow Knotting Steps:** Refer to the step-by-step instruction guide for visual and written directions on how to perform each knot.
5. **Add Embellishments:** Incorporate beads, buckles, or stickers as you braid or once the bracelet is complete, according to your design.

6. **Finish the Bracelet:** Once the desired length is achieved, follow the instructions to secure the ends of the bracelet, often using elastics or buckles for closure.

Maintenance

Proper care and storage will extend the life of your kit:

- **Storage:** After each use, store all threads, beads, pegs, and other small components in the designated compartments of the portable loom's storage box.
- **Cleaning:** Keep the loom and components clean by wiping them with a dry cloth. Avoid using harsh chemicals or abrasive materials.

- **Thread Care:** Keep threads neatly wound to prevent tangling. Store them away from direct sunlight or moisture to preserve their color and integrity.

Troubleshooting

If you encounter difficulties while using your kit, consider the following:

- **Difficulty Following Instructions:** If the written instructions are unclear, refer to the video guide provided in this manual or search for additional online tutorials for specific knot styles. Visual demonstrations can often clarify complex steps.
- **Bracelets Not Holding Shape:** Ensure that threads are secured tightly on the loom's pegs and that knots are pulled snug. Consistent tension is key for well-formed bracelets.
- **Finishing Issues:** Pay close attention to the final steps for securing the bracelet ends. Ensure all knots are tight and any elastic or buckle closures are properly attached to prevent unraveling.
