RUXINGX G62

RUXINGX Smart Watch User Manual

Model: G62

1. Setup Guide

1.1 Unboxing and Initial Inspection

Upon opening the package, ensure all components are present:

- Smartwatch (1 unit)
- Silicone Strap (1 unit)
- Additional Spring Bars (for strap replacement)

Inspect the smartwatch for any visible damage. If any components are missing or damaged, please contact customer support.

1.2 Charging the Smartwatch

Before first use, fully charge your RUXINGX Smart Watch. The device features a 1000mAh battery and typically charges in approximately 2.5 hours.

1. Connect the magnetic charging cable to the charging points on the back of the smartwatch.
2. Plug the USB end of the cable into a compatible USB power adapter (e.g., computer USB port, wall charger).
3. The watch display will indicate charging status. A full charge is indicated when the battery icon shows full.

1.3 App Installation and Pairing

The RUXINGX Smart Watch operates seamlessly with the**FitCloudPro** app, compatible with iOS 9.0+ and Android 6.0+ smartphones.

1. **Download the App:** Search for "FitCloudPro" in your smartphone's app store (App Store for iOS, Google Play Store for Android) and install it.
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Open FitCloudPro:** Launch the app and follow the on-screen instructions to create an account or log in.
4. **Add Device:** Within the app, navigate to the device section (usually indicated by a watch icon or "Add Device"). The app will search for nearby devices.

5. **Select Your Watch:** Choose "G62" or the corresponding device name from the list of found devices to initiate pairing.
6. **Confirm Pairing:** A pairing request may appear on your smartwatch. Confirm the pairing on both your watch and smartphone.

1.4 Ensuring Continuous Notifications and Data Sync

To ensure uninterrupted alerts and data synchronization, the FitCloudPro app must be allowed to run in the background.

- **For iPhone Users:** Go to **Settings** > **General** > **Select Background App Refresh** > Find **FitCloudPro** and **ENABLE**.
- **For Android Users:** Open **Settings** > **Apps** > **FitCloudPro** > **Select Battery** (or Power Management) > Choose **"Don't optimize"** or **"Unrestricted"** (This prevents the system from stopping the app).

2. Operating Instructions

2.1 Bluetooth Calls & Smart Notifications

The smartwatch allows you to manage calls and receive notifications directly from your wrist.

- **Answering Calls:** Answer phone calls directly from your wrist with crisp HD audio. Your phone is not required to be in hand.
- **Notifications:** Receive instant alerts for texts, emails, and social media applications such as WhatsApp, Facebook, Instagram, and Twitter.

Note: Enable call/SMS notifications within the FitCloudPro app after pairing. Text replies are not supported directly from

the watch.

2.2 24/7 Health Monitoring

The smartwatch functions as a personal wellness guardian, continuously tracking key health metrics.

- **Heart Rate Monitoring:** Track your heart rate around the clock.
- **Sleep Monitoring:** Monitor sleep stages, including deep sleep, light sleep, and REM sleep.
- **Stress Level Tracking:** Keep an eye on your stress levels throughout the day.
- **SpO2 Monitoring:** Measure your blood oxygen saturation levels.

Note: Sleep data is typically recorded between 9:30 PM and 12:00 PM. Irregular sleep times may affect the accuracy of the data.

2.3 120+ Sports Modes & 5ATM Waterproof

The smartwatch is designed to support a wide range of physical activities and withstand water exposure.

- **Sports Modes:** Supports over 120 activities, including running, swimming, yoga, and hiking. GPS tracking is available via your connected phone.
- **Activity Tracking:** Accurately measures steps, calories burned, distance covered, and duration of activities.
- **Waterproof Rating:** With a 5ATM waterproof rating, the watch is suitable for swimming, showering, and sweating without concern.

2.4 Customizable Dials

Personalize your smartwatch display to match your style.

- **Watch Faces:** Choose from over 300 dynamic watch faces available through the FitCloudPro app.
- **Custom Photos:** Upload your own photos to use as a watch face.
- **Display:** The 1.85" HD touchscreen offers an ultra-clear display, visible even in sunlight, with adjustable brightness.

2.5 Smart Assistant Features

The smartwatch includes various features to simplify your daily routine:

- **Music Control:** Control music playback on your smartphone.
- **Remote Photo Capture:** Take photos remotely using your phone's camera.
- **Reminders:** Set reminders for tasks and events.
- **Weather Updates:** Check current weather conditions.
- **Menstrual Cycle Tracking:** Track menstrual cycles (for women).
- **Sedentary Alerts:** Receive alerts to encourage movement during prolonged periods of inactivity.

3. Maintenance

Proper maintenance ensures the longevity and optimal performance of your RUXINGX Smart Watch.

- **Cleaning:** Regularly wipe the watch screen and strap with a soft, lint-free cloth. For stubborn dirt, dampen the cloth slightly with water. Avoid harsh chemicals or abrasive materials.
- **Water Exposure:** While 5ATM waterproof, avoid prolonged submersion in hot water (e.g., hot tubs, saunas) as steam can penetrate seals. Dry the watch thoroughly after water exposure.
- **Storage:** Store the smartwatch in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Strap Care:** Clean silicone straps with mild soap and water. For metal straps, use a soft brush to remove debris. Ensure straps are dry before reattaching.

4. Troubleshooting

This section addresses common issues you might encounter with your RUXINGX Smart Watch.

Issue	Possible Cause	Solution
Watch not turning on	Low battery; System crash	Charge the watch for at least 30 minutes. If still unresponsive, press and hold the power button for 10-15 seconds to force a restart.
Cannot pair with smartphone	Bluetooth off; App not running; Watch not discoverable; Interference	Ensure Bluetooth is on. Restart both watch and phone. Make sure FitCloudPro app is open and allowed background activity. Try pairing in a different location to avoid interference.
Notifications not received	App permissions; Background app settings; Do Not Disturb mode	Check app notification permissions on your phone. Verify FitCloudPro is allowed to run in the background (see Section 1.4). Disable Do Not Disturb mode on both watch and phone.
Inaccurate health data (HR, Sleep, Steps)	Improper fit; Movement artifacts; Software calibration	Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone. Keep the watch clean. Ensure app and watch firmware are updated. Note that sleep data accuracy can be affected by irregular sleep times.
Watch display is in a foreign language	Incorrect language setting	Access the watch settings (often a gear icon). Look for a language option (often indicated by a globe or 'A' icon). Select English. If difficult to navigate, try resetting the watch via the app or by holding the power button for an extended period (refer to app for specific reset instructions).

Issue	Possible Cause	Solution
Short battery life	Frequent use of features; High brightness; Constant notifications	Reduce screen brightness. Limit continuous heart rate monitoring or turn off unnecessary notifications. Ensure background app settings are optimized to prevent excessive battery drain from constant syncing.

5. Specifications

Feature	Detail
Brand	RUXINGX
Model Number	G62
Screen Size	1.85 inches HD Touchscreen
Shape	Square
Battery Capacity	1000 Milliamp Hours (mAh)
