SETUP GUIDE

1. Charging Your Smart Watch

Before first use, fully charge your smartwatch. Connect the magnetic charger to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. A full charge typically takes about 2 hours.

2. Downloading the GloryFit App

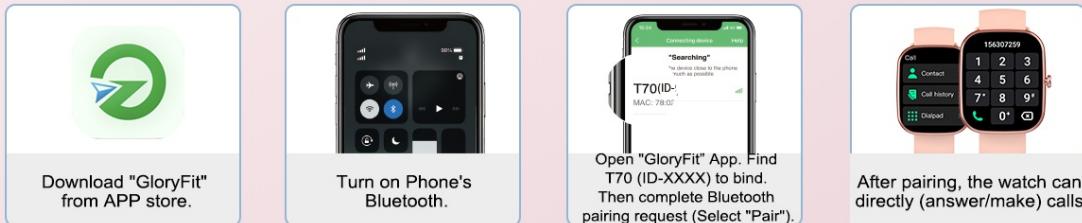

To unlock all features and synchronize data, download the "GloryFit" app from your smartphone's app store (compatible with Android 5.0+ and iOS 9.0+).

3. Pairing Your Smart Watch

Follow these steps to pair your watch with your smartphone:

1. Ensure your phone's Bluetooth is turned on.
2. Open the "GloryFit" app.
3. In the app, find and select your device (e.g., T70 (ID-XXXX)) to bind.
4. Confirm the pairing request on both your phone and watch.
5. For iOS 13.0 and below, after initial pairing, swipe right on the watch screen, turn on the "Phone" function switch, then go to your phone's Bluetooth settings, find T70 (ID-XXXX) and click connect to enable audio Bluetooth for calls.

A: For iOS 13.0 and above models and Android 5.0 and above phones only need one-time connection, please follow below steps:

Only for iOS 13.0 and below smartphone, after completing Step A continue to Step B to complete the audio Bluetooth connection (answer/make) function:

OPERATING YOUR SMART WATCH

1. 1.91-Inch HD Touch Screen

The smartwatch features a large, high-definition full touch display with adjustable brightness. You can easily wake the screen by raising your wrist. Customize your watch face with over 100 options available in the GloryFit app, including personal photos.

Answer/Make Bluetooth calls

Connect to your cell phone via Bluetooth, so your watch can also view recent calllogs and set frequent contacts

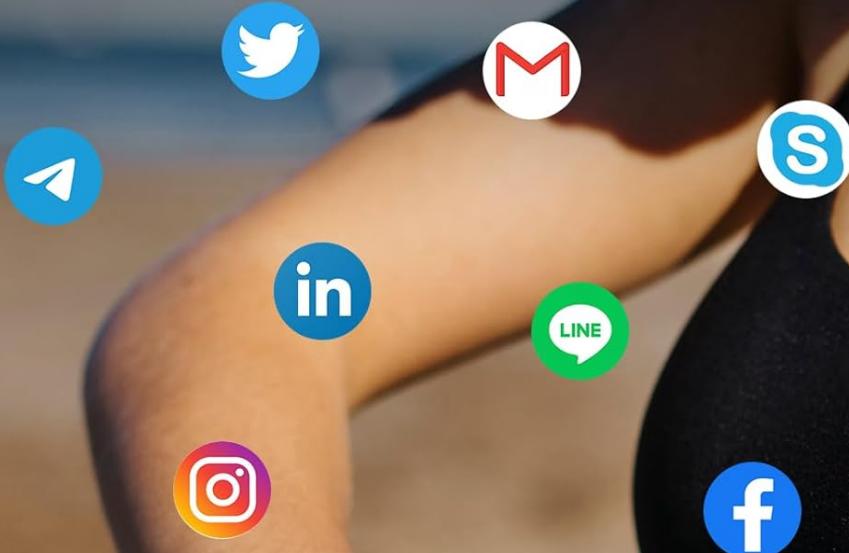

Image: The smartwatch display showing various customizable watch faces and the large screen size.

2. Wireless Calls and Message Push

Stay connected by answering and making calls directly from your wrist. The watch features clear speaker sound quality and allows you to sync multiple mobile contacts. It supports full-network message push from popular apps like Instagram, YouTube, Messenger, Gmail, Snapchat, Facebook, Twitter, and WhatsApp, ensuring you receive notifications without needing to check your phone. Note: The smartwatch cannot reply to messages.

Smart Notification

Get quick notice to all recent texts, messages and phone calls

Drink water reminder

Sedentary reminder

3. 110+ Sports Modes

The fitness tracker offers over 110 sports modes, including running, cycling, swimming, and various fitness activities. It tracks your steps, calories burned, and distance, helping you monitor your progress and stay motivated.

112+ Sports Modes

Stay on top of your health with 24/7 real-time monitoring

22531 Steps

1086Kcal

8.35 Km

IP68 Waterproof

Image: Various individuals engaged in different sports activities, illustrating the smartwatch's extensive range of sports tracking modes.

4. 24/7 Heart Rate and Sleep Monitoring

Equipped with a high-performance sensor, the watch continuously monitors your heart rate, providing real-time data to help you understand your physical condition. It also automatically tracks your sleep patterns, including awake, light, and deep sleep, to help you adjust your habits for better rest. Note: Health data is for reference only and should not be used for medical diagnosis.

Heart Rate Monitoring

24 hours real time monitoring of your physical conditions

Sleep Monitoring

Accurately record sleep status to escort your sleep quality

5. Music Control

Control your smartphone's music playback directly from your watch. You can play, pause, skip tracks, and adjust volume without needing to take out your phone, ideal for workouts or on-the-go listening.

Camera Remote Control

you can instead use your smartwatch to control your phone's camera shutter. Instead of scrambling to beat the timer for your next group photo or selfie

Image: A person listening to music while exercising, with the smartwatch displaying music control options.

6. Camera Remote Control

Use your smartwatch as a remote shutter for your phone's camera. This feature is convenient for group photos or selfies, allowing you to capture moments without rushing to beat a timer.

7. Other Multifunctions

The Csasan T70 Smart Watch includes many other useful functions such as:

- Weather forecast
- Sedentary reminder
- Stopwatch
- Alarm clock
- Timer
- Female cycle tracking
- Screen light time adjustment
- Find phone function

IP68

Waterproof Smartwatch

With IP68 waterproof, sweat proof and rain proof, it can be used in daily washing, shower (cold water) and other daily environments.

MAINTENANCE

1. IP68 Waterproof Rating

The Csasan T70 Smart Watch is IP68 waterproof, meaning it is resistant to sweat, rain, and can be used during daily activities like washing hands or showering with cold water. It is suitable for most daily needs. **Important Note:** Do not use the watch in hot water, saunas, or for prolonged soaking in water, as this may affect its waterproof integrity and lifespan.

2. Battery Life

The smartwatch offers excellent battery performance:

- **Standby Time:** Up to 30 days
- **Average Usage:** 5-7 days
- **Charging Time:** Approximately 2 hours

To maximize battery life, avoid extreme temperatures and ensure the charging contacts are clean.

TROUBLESHOOTING

If you encounter any issues with your Csasan T70 Smart Watch, please refer to the following common solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on.
- **Cannot pair with phone:**
 - Make sure Bluetooth is enabled on your phone.
 - Ensure the watch is within Bluetooth range (typically 10 meters).
 - Restart both your phone and the watch.
 - Check if the GloryFit app is updated to the latest version.
 - If previously paired, try unpairing the device from your phone's Bluetooth settings and re-pairing through the GloryFit app.

- **Notifications not appearing:**

- Ensure the watch is successfully connected to the GloryFit app.
- Check notification permissions for the GloryFit app in your phone's settings.
- Verify that app notifications are enabled within the GloryFit app settings.

- **Inaccurate health data:**

- Ensure the watch is worn snugly on your wrist, not too loose or too tight.
- Clean the sensor on the back of the watch regularly.
- Note that environmental factors and individual physiology can affect readings. Data is for reference only.

- **Screen unresponsive:** Try restarting the watch. If the issue persists, ensure the screen is clean and dry.

If these steps do not resolve your issue, please contact customer support for further assistance.
