

## ATK Z1 Series

# ATK Blazing Sky Z1 Series Wireless Gaming Mouse User Manual

Model: Z1 Series

## 1. INTRODUCTION

The ATK Blazing Sky Z1 Series Wireless Gaming Mouse is designed for high-performance gaming, offering precision, speed, and comfort. It features a PAW3950 optical sensor, Nordic nRF52840 MCU, and supports an 8K wireless polling rate for responsive, low-latency performance. This lightweight, ergonomic mouse includes ATK optical switches for durability and a premium ice-matte coating for enhanced grip.

This manual provides instructions for setting up, operating, maintaining, and troubleshooting your ATK Blazing Sky Z1 Series Wireless Gaming Mouse.

## 2. PACKAGE CONTENTS

Please verify that all items are present in your package:

- ATK Blazing Sky Z1 Series Wireless Gaming Mouse
- USB-C Paracord Cable (for wired use and charging)
- High-Speed 8K Wireless Receiver (Dongle)
- Interchangeable PTFE Skates

Image: The ATK Blazing Sky Z1 Series Wireless Gaming Mouse, black color variant.

### 3. SETUP

---

#### 3.1 Connecting the Mouse

1. **Wireless Connection (2.4GHz):**

Insert the high-speed 8K wireless receiver into an available USB port on your computer. The mouse should automatically connect.

2. **Wired Connection:**

Connect the USB-C paracord cable to the USB-C port on the front of the mouse and the other end to an available USB port on your computer. The mouse will function in wired mode and charge

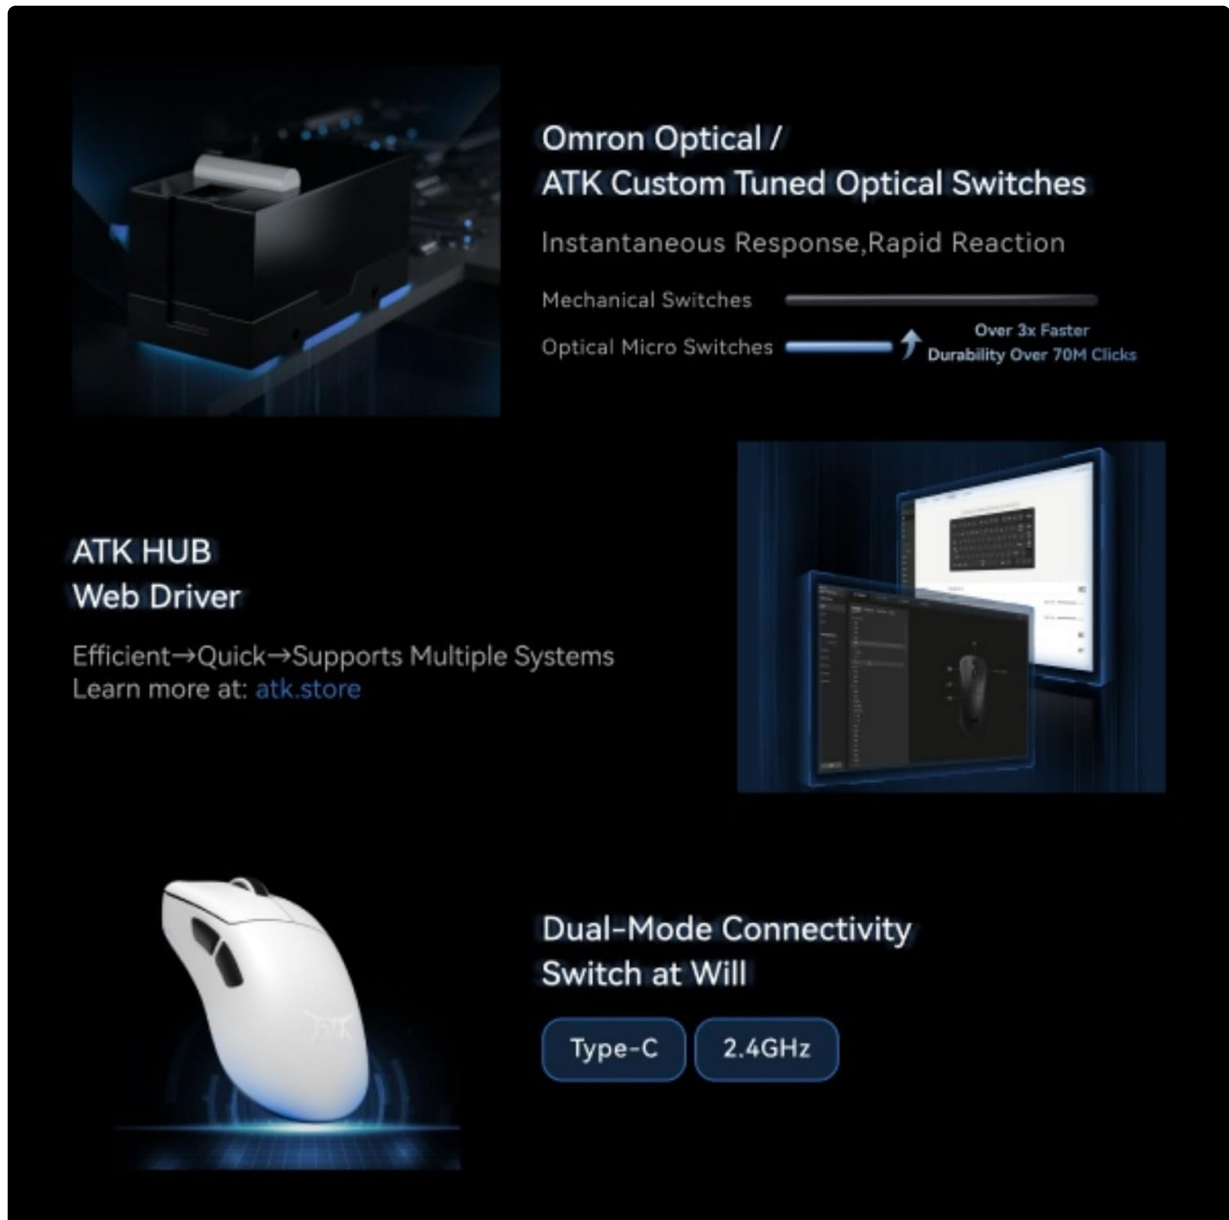

simultaneously.

### 3.2 Charging the Mouse

Connect the mouse to your computer using the provided USB-C paracord cable. The mouse will charge while connected. A full charge provides extended usage time.

### 3.3 Software Installation (ATK Hub)

For full customization and optimal performance, download and install the ATK Hub software from the official ATK website ([atk.store](https://atk.store)). This software allows you to adjust DPI, polling rate, button assignments, macros, and more.

**Omron Optical /  
ATK Custom Tuned Optical Switches**

**Dual-Mode Connectivity  
Switch at Will**

Type-C 2.4GHz

Image: Visual representation of ATK Hub software and the mouse's dual-mode connectivity (Type-C and 2.4GHz).

### 3.4 System Requirements for 8K Polling

To ensure the best experience with the ATK 8KHz mouse, your computer should meet the following minimum recommended specifications:

- **CPU:** Intel Core i7-9700K or higher, AMD Ryzen 7 3700X or higher
- **Monitor:** Refresh rate of 240Hz or higher
- **Graphics Card:** NVIDIA GTX 1080 or higher, AMD RX 5700 or higher

- **Memory:** 16GB or higher

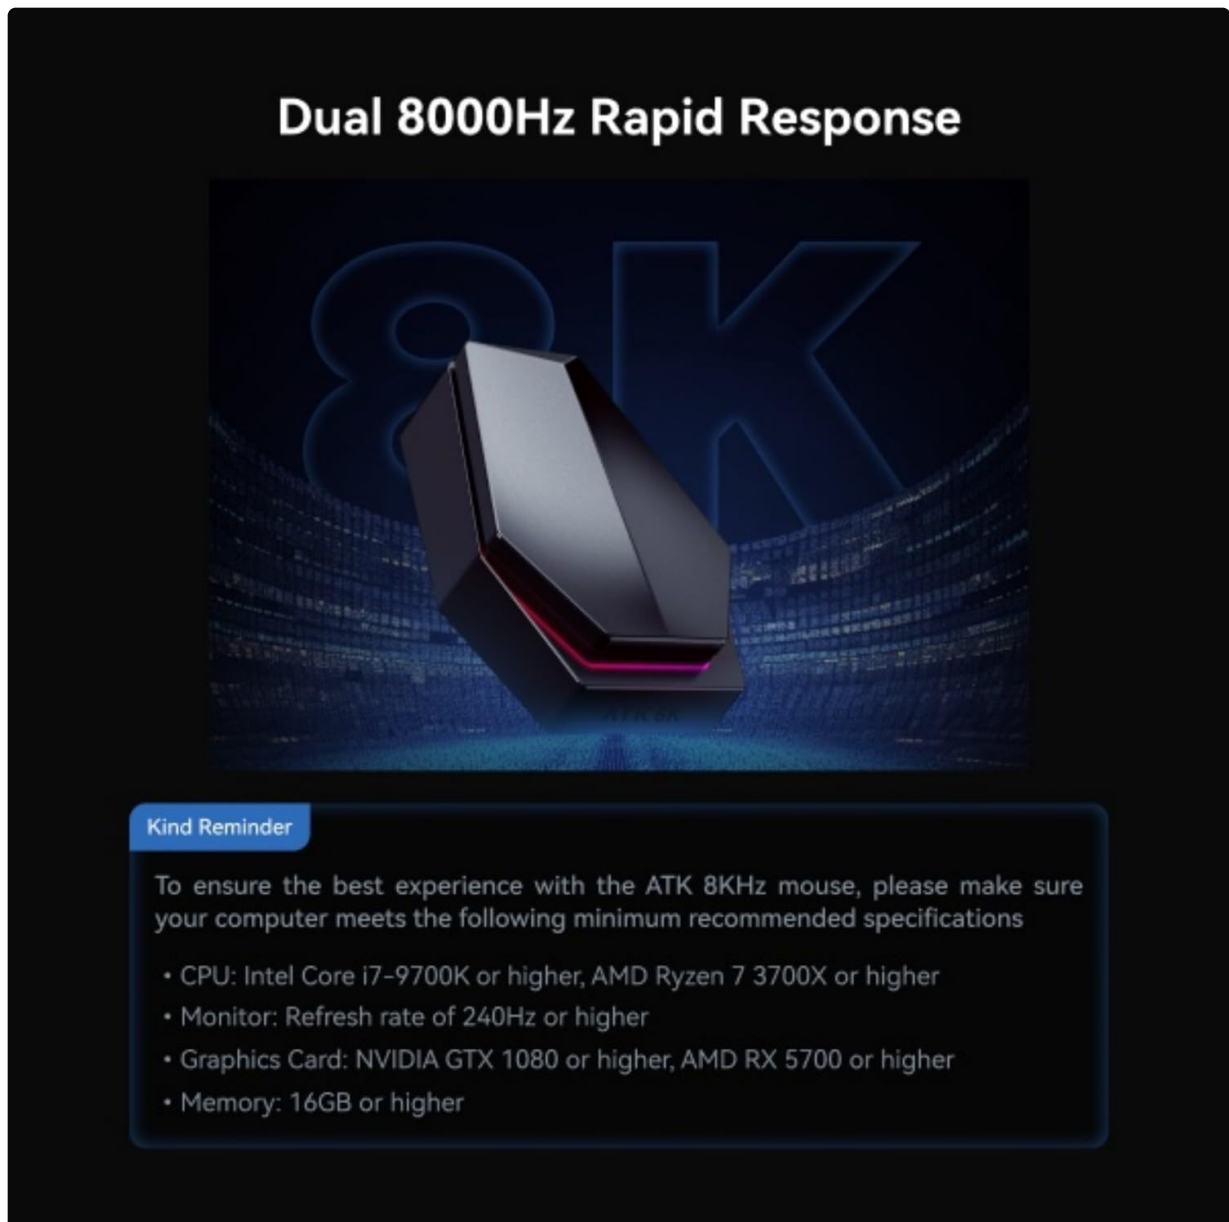

Image: The 8000Hz wireless receiver and a reminder of system requirements for optimal performance.

## 4. OPERATING INSTRUCTIONS

### 4.1 Basic Mouse Functions

- **Left Click:** Primary action.
- **Right Click:** Secondary action/context menu.
- **Scroll Wheel:** Scroll up/down, middle click.
- **Side Buttons:** Typically for forward/backward navigation, customizable via ATK Hub.

### 4.2 Customization via ATK Hub

The ATK Hub software provides extensive customization options:

- **DPI Adjustment:** Set multiple DPI profiles and switch between them. The PAW3950 sensor offers a wide DPI range (50-30000, overclockable to 36000 for PAW3950 and 42000 for PAW3950Ultra).
- **Polling Rate:** Adjust the polling rate up to 8000Hz for maximum responsiveness.
- **Button Assignment:** Reassign any mouse button to perform specific functions, keyboard shortcuts,

or macros.

- **Macros:** Create and assign complex sequences of commands.
- **RGB Indicators:** Customize lighting effects (if applicable to your model).

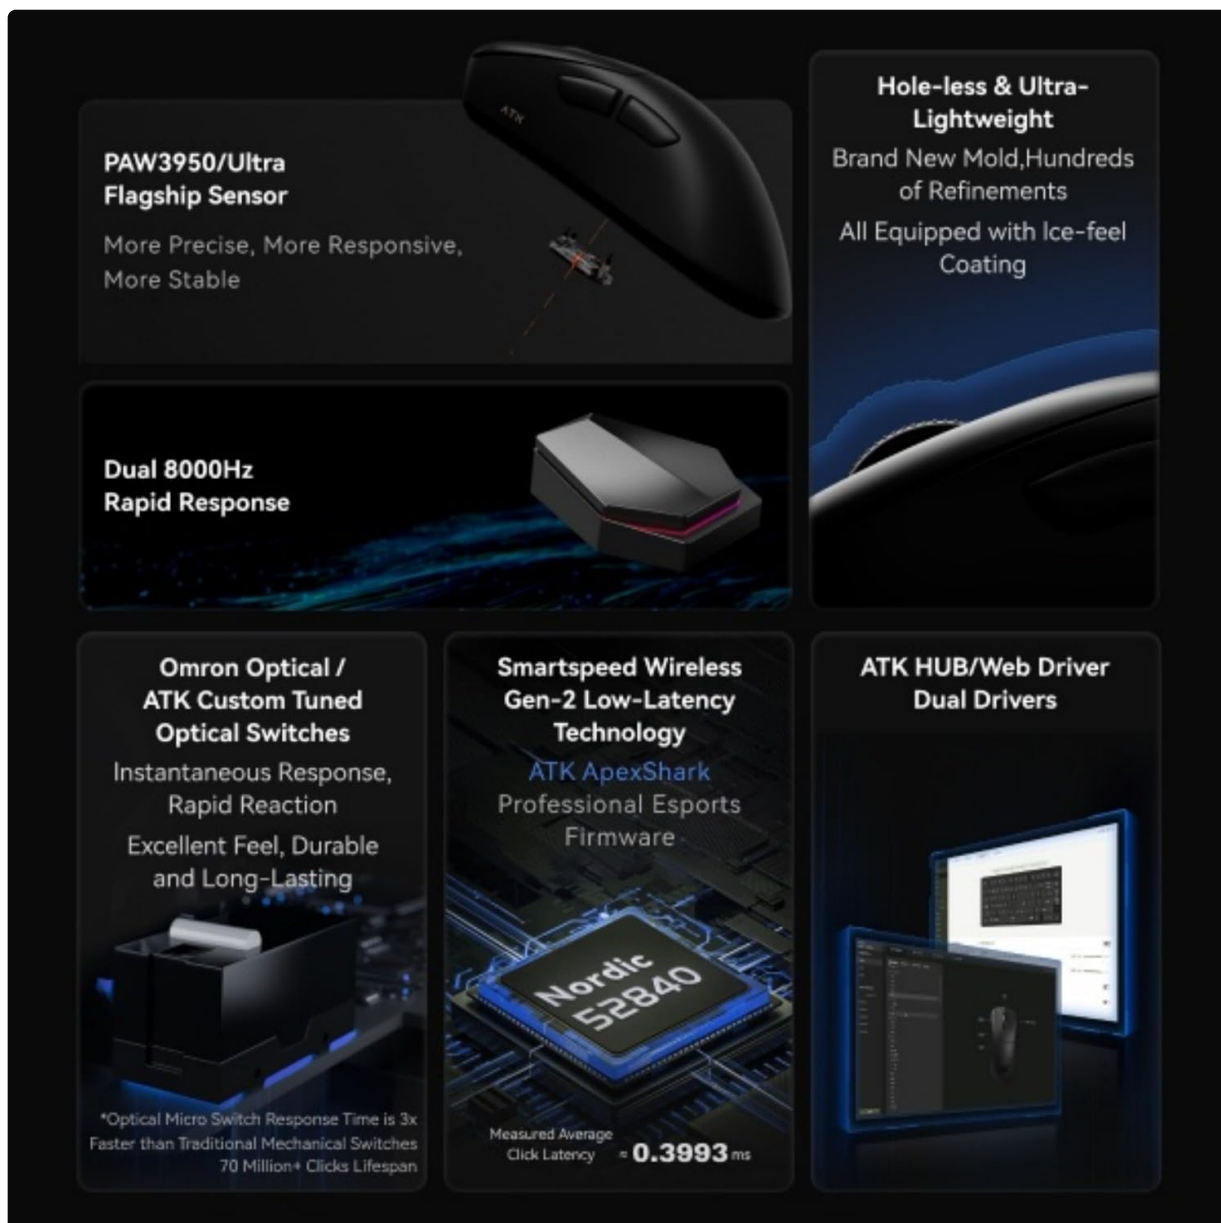

Image: An overview highlighting the PAW3950 sensor, 8000Hz rapid response, ATK optical switches, Smartspeed Wireless, and ATK Hub software.

## 5. MAINTENANCE

### 5.1 Cleaning the Mouse

To maintain optimal performance and hygiene:

- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution.
- Avoid harsh chemicals, abrasive materials, or excessive moisture.
- Clean the sensor area gently with a cotton swab to prevent tracking issues.

### 5.2 Replacing PTFE Skates

The mouse comes with interchangeable PTFE skates. If your skates show signs of wear or you prefer a different glide feel, you can replace them:

1. Carefully peel off the old PTFE skates.
2. Ensure the surface is clean and dry.
3. Apply the new PTFE skates, pressing firmly to ensure adhesion.

## 5.3 Battery Care

- Avoid fully discharging the battery frequently to prolong its lifespan.
- Store the mouse in a cool, dry place when not in use for extended periods.

# 6. TROUBLESHOOTING

---

## 6.1 Connectivity Issues

- **Mouse not responding:** Ensure the wireless receiver is securely plugged into a USB port. Try a different USB port.
- **Intermittent connection:** Ensure the mouse is within range of the receiver and there are no major obstructions. Check for interference from other wireless devices.
- **Wired connection not working:** Ensure the USB-C cable is properly connected to both the mouse and the computer. Try a different USB port or cable.

## 6.2 Performance Issues

- **Lag or stuttering:** Ensure your computer meets the recommended system requirements for 8K polling. Close unnecessary background applications.
- **Inaccurate tracking:** Clean the optical sensor on the underside of the mouse. Ensure you are using the mouse on a suitable mouse pad or surface.
- **Buttons not responding:** Check button assignments in the ATK Hub software.

## 6.3 Software Issues

- **ATK Hub not detecting mouse:** Ensure the mouse is connected and powered on. Restart the ATK Hub software and your computer.
- **Software crashes:** Ensure you have the latest version of ATK Hub installed. Reinstall the software if issues persist.

# 7. SPECIFICATIONS
