## 1. INTRODUCTION

Thank you for choosing the IRONDAY 1800W Steam Iron. This manual provides essential information for the safe and efficient operation of your new appliance. Please read it thoroughly before first use and keep it for future reference.

The IRONDAY 1800W Steam Iron, designed for efficient wrinkle removal.

## 2. IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury.

- Do not immerse the iron in water or other liquids.
- Always turn off the iron before plugging or unplugging it from the electrical outlet.
- Never pull on the power cord to disconnect the iron; grasp the plug and pull.
- Allow the iron to cool completely before storing.
- Keep the iron and its cord out of reach of children.

### Automatic Shutoff Feature

For your safety, the iron is equipped with a 3-way automatic shutoff function:

- The iron will automatically power off after **30 seconds** when placed horizontally on its soleplate or tipped over on its side.
- The iron will automatically power off after **8 minutes** when left propped upright on its heel.

## 5. SETUP

### Adding Water

1. Ensure the iron is unplugged and cool.
2. Set the steam control switch to the 'O' (OFF) position.
3. Open the water inlet cover located on the top of the iron.
4. Using the provided measuring cup, carefully pour clean tap water into the water tank up to the 'MAX' fill line. If your tap water is hard, you may mix 50% distilled or deionized water.
5. Close the water inlet cover securely.

## Note: Not A Used Item

Each IRONDAY IRON is WATER tested to ensure the quality.  
There may be water in the water tank, this is NORMAL.

Note: Small water droplets may be present in the tank due to factory testing, which is normal.

## 6. OPERATING INSTRUCTIONS

### Setting the Temperature

1. Plug the iron into a suitable 120V electrical outlet. The indicator light will turn red, indicating the iron is heating.
2. Rotate the temperature adjustment knob to select the desired heat setting based on your fabric type (e.g., Nylon, Silk, Wool, Cotton, Linen). Refer to the fabric care label on your garment.
3. The indicator light will turn green once the selected temperature is reached, signaling the iron is ready for use.

### Ironing Functions

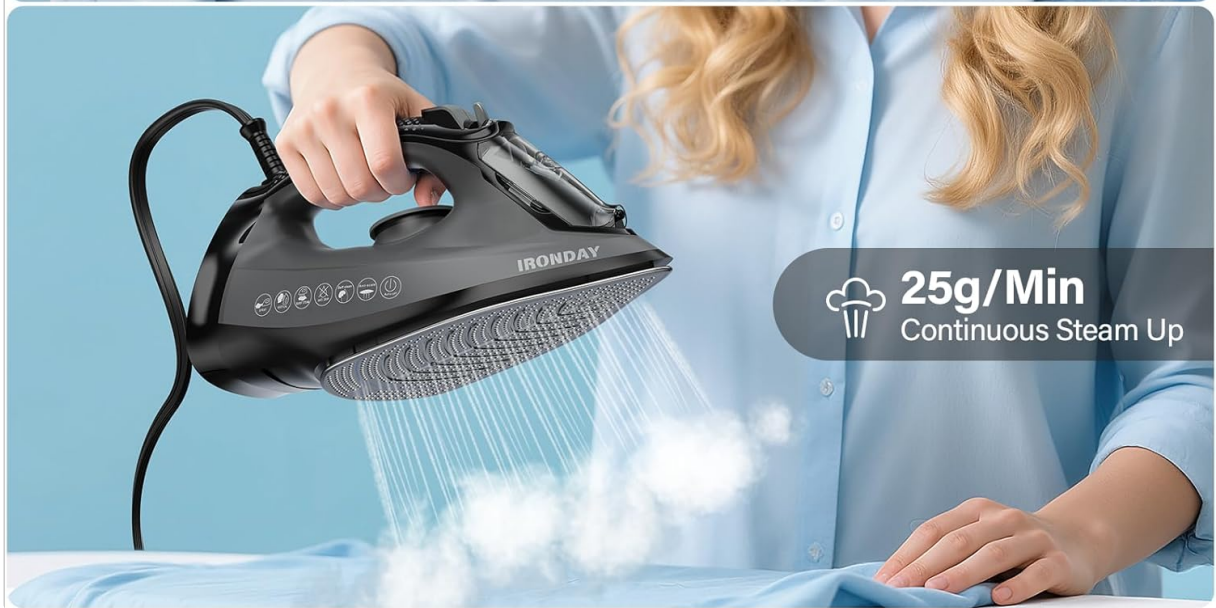

- **Dry Ironing:** For dry ironing, ensure the water tank is empty and the steam control is set to 'O' (OFF). Adjust the temperature knob as needed.
- **Steam Ironing:** For steam ironing, ensure the water tank is filled. Set the steam control switch to the

desired steam level (Min to Max). The iron will continuously release steam when held horizontally.

- **Burst of Steam:** Press the 'Burst of Steam' button (usually located near the handle) for an extra surge of steam to tackle stubborn wrinkles.
- **Spray Function:** Press the 'Spray' button (usually located near the handle) to release a fine mist of water, which helps to moisten fabrics for easier ironing.
- **Vertical Steaming:** The iron can be used vertically to steam hanging garments. Hold the iron a few inches away from the fabric and press the 'Burst of Steam' button.

The iron supports both traditional horizontal ironing and convenient vertical steaming.

## 7. MAINTENANCE

### Self-Cleaning Function

The self-cleaning function helps remove scale buildup and impurities from the steam vents, ensuring optimal performance and preventing stains on your clothes.

1. Fill the water tank to the 'MAX' line.
2. Plug in the iron and set the temperature to 'MAX'.
3. Once the indicator light turns green, unplug the iron.
4. Hold the iron horizontally over a sink.
5. Push and hold the self-clean button (or slide the steam control to 'SELF CLEAN'). Hot water and steam will flush out impurities.
6. Release the button when the water tank is empty.
7. Allow the iron to cool down before storing.

The self-cleaning function helps prevent scale buildup and keeps clothes clean.

### Anti-Calcification System

The built-in anti-calcification system reduces the formation of scale, which helps maintain consistent steam output and prolongs the life of your iron. Regular self-cleaning is still recommended.
