## 1. INTRODUCTION

---

This instruction manual provides detailed guidance for the assembly, operation, and maintenance of your Magazoopet Extra Large Catio Outdoor Cat Enclosure. Designed to provide a safe and stimulating outdoor environment for multiple cats, this enclosure features ample space, multiple platforms, bridges, and resting boxes, all protected by a weatherproof cover. Please read this manual thoroughly before beginning assembly to ensure proper setup and long-term enjoyment for your pets.

## 2. SAFETY INFORMATION

---

Please observe the following safety precautions to prevent injury and damage to the product:

- **Two-Person Assembly:** Due to the large size and weight of the package components, it is strongly recommended that two people assist in carrying and assembling the catio. This will help prevent personal injury and damage to the wooden boards.
- **Inspect All Parts:** Before assembly, carefully inspect all components for any damage. Do not proceed with assembly if parts are damaged. Contact customer support for replacements.
- **Secure Placement:** Ensure the catio is placed on a level, stable surface to prevent tipping.
- **Pet Supervision:** While the enclosure is secure, always supervise your pets, especially during initial use, to ensure their safety and comfort.
- **Weather Conditions:** Although the catio features a weatherproof cover, extreme weather conditions (e.g., severe storms, heavy snow) may require additional precautions or temporary relocation of pets indoors.

- **Child Safety:** Keep children away from the assembly area. The catio is not a toy and should not be used for human play.

### 3. COMPONENTS AND PARTS LIST

---

Your Magazoopet Catio is shipped in two separate packages. Please verify that all components listed below are present before beginning assembly. Refer to the included hardware pack for specific fasteners and small parts.

**Table 3.1: Main Components Overview**

Component	Description	Quantity
Solid Wood Frame Panels	Pre-drilled wooden panels forming the main structure.	Various
Wire Mesh Panels	Galvanized steel mesh for enclosure walls.	Various
Asphalt Roof Panels	Waterproof roof sections for weather protection.	Various
Jumping Platforms	Internal shelves for climbing and resting.	8
Cat Bridges	Curved walkways connecting platforms.	2
Resting Boxes/Houses	Enclosed spaces for privacy and rest.	2
Main Entry Door	Large walk-in door with metal latch.	1
Window Connection Panel	Panel designed for integration with a house window.	1
Hardware Pack	Screws, bolts, hinges, latches, and assembly tools.	1

## 4. SETUP AND ASSEMBLY

Assembly of the Magazoopet Catio requires approximately 2-3 hours with two people. Follow these steps carefully:

1. **Unpack and Organize:** Open both packages and lay out all components on a clean, flat surface. Group similar parts together. Verify all parts against the components list.
2. **Assemble Base Frame:** Begin by connecting the base wooden frame panels according to the numbered instructions in the separate assembly guide (not included in this manual, but typically provided with the product). Ensure all connections are secure.
3. **Install Side Panels and Mesh:** Attach the side wooden frame panels and secure the wire mesh panels to them using the provided fasteners. Pay attention to the orientation of panels, especially those with pre-cut openings for doors or windows.
4. **Attach Main Entry Door:** Install the large walk-in entry door (56.7" height) using the provided hinges and secure the metal latch mechanism.

5. **Integrate Window Connection (Optional):** If connecting to a house window, install the dedicated window connection panel. This panel is designed to align with standard window sizes and allows cats to transition between indoors and the patio.
6. **Install Internal Platforms and Bridges:** Secure the 8 jumping platforms and 2 cat bridges at desired heights and locations within the enclosure. These are designed for climbing and exploration.
7. **Place Resting Boxes:** Position the 2 cozy resting boxes on designated platforms or secure them as per the assembly guide. These provide sheltered areas for your cats.
8. **Install Roof Panels:** Attach the asphalt roof panels to the top frame. Ensure they are securely fastened and provide complete waterproof and UV-resistant coverage.
9. **Final Inspection:** Once assembled, double-check all screws, bolts, and latches to ensure they are tight and secure. Confirm there are no gaps or sharp edges that could harm your pets.

## 5. OPERATION

Using your Magazoopet Catio is straightforward:

- **Access:** Use the large front door to enter and exit the catio. Ensure the metal latch is securely closed when pets are inside.
- **Pet Entry/Exit:** If connected to a window, your cats can freely move between your home and the catio. Otherwise, guide them through the main door.
- **Enrichment:** Encourage your cats to explore the various platforms, bridges, and resting boxes. You may add additional cat toys, scratching posts, or bedding to enhance their experience.
- **Weather Protection:** The full-cover Oxford roof provides protection from sun and rain. Ensure the roof is properly installed and secured to maximize its effectiveness.

## 6. MAINTENANCE

Regular maintenance will extend the lifespan of your catio and ensure a safe environment for your pets:

- **Cleaning:** Regularly clean the interior of the catio, including platforms and resting boxes, to maintain hygiene. Use pet-safe cleaning solutions.
- **Inspect Structure:** Periodically check all wooden components for signs of wear, rot, or damage. Tighten any loose screws or fasteners.
- **Check Mesh:** Inspect the wire mesh for any bends, breaks, or sharp points that could injure your pets or compromise security. Repair or replace as needed.
- **Roof Condition:** Ensure the Oxford roof remains intact and free of tears or holes. Clean off any accumulated debris (leaves, branches) to prevent water pooling.
- **Winter Care:** In areas with heavy snowfall, consider removing snow from the roof to prevent structural strain.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter:

Table 7.1: Common Issues and Solutions

Problem	Possible Cause	Solution
Missing Parts	Packaging error or lost during transit.	Carefully check both packages and all packing materials. If still missing, contact Magazoopet customer support immediately with your purchase details and the specific part number.
Difficulty Assembling	Incorrect orientation of parts, loose connections, or missing steps.	Refer to the detailed assembly guide provided with the product. Ensure all parts are correctly oriented before tightening. Double-check each step. Remember, two people are recommended for assembly.

Problem	Possible Cause	Solution
Catio Feels Unstable	Uneven ground, loose fasteners, or incorrect assembly.	Ensure the catio is placed on a completely level surface. Re-tighten all screws and bolts. Review assembly steps to confirm correct construction.
Water Leaks Inside	Improper roof installation or damage to roof material.	Verify that the asphalt roof panels are correctly overlapped and securely fastened. Inspect the roof for any tears or punctures and repair as necessary.

## 8. SPECIFICATIONS

---

Detailed specifications for the Magazoopet Extra Large Catio:

**Model Name:** PET12NEW

**Product Dimensions (L x W x H):** 70.0" x 94.4" x 70.7" (177.8 cm x 239.8 cm x 179.6 cm)

**Item Weight:** 59 Pounds (26.76 kg)

**Material:** Fire wood (Solid Wood), Wire Mesh (Steel), Roof (Asphalt/Oxford Fabric)
