Lamicall Magnetic Phone Ring Grip

Lamicall Magnetic Phone Ring Grip Instruction Manual

Model: Magnetic Phone Ring Grip

Brand: Lamicall

Introduction

Thank you for choosing the Lamicall Magnetic Phone Ring Grip. This versatile accessory is designed to enhance your mobile experience by providing a secure grip, a convenient kickstand, and compatibility with MagSafe technology. Its slim design and strong magnetic attachment ensure both functionality and portability. Please read this manual carefully to ensure proper setup and optimal use of your new device.

What's in the Box

- Magnetic Phone Ring Holder x1
- Metal Strengthen Plate x1
- User's manual x1
- Size: Φ2.32"(Outer Ring) * Φ1.2"(Inner Ring) * 0.17"(Thickness)
- Weight: 1.12 ounce

Setup

The Lamicall Magnetic Phone Ring Grip is designed for easy attachment and removal. Follow these instructions for optimal performance:

1. **For MagSafe Compatible Devices/Cases:** Simply snap the Magnetic Phone Ring Holder onto the back of your iPhone 12, 13, 14, 15, 16, 17 series, or any MagSafe-compatible phone case. The strong magnets will securely attach the grip.
2. **For Non-Magnetic Devices/Cases:** If your device or case is not MagSafe compatible, use the included Metal Strengthen Plate.
    - Ensure the back surface of your phone or case is hard and flat. This product is not suitable for soft silicone, TPU, PP, or TPE cases.

- Carefully peel off the adhesive backing from the Metal Strengthen Plate.
- Align the plate to the desired position on the back of your device/case. Press firmly for 2 minutes to ensure a strong bond.
- Once the Metal Strengthen Plate is securely attached, you can then snap the Magnetic Phone Ring Holder onto it. This will enhance the magnetic power for a secure hold of up to 9.9lbs.

Image: The Lamicall Magnetic Phone Ring Grip can directly attach to MagSafe iPhones and cases. For non-MagSafe devices, a metal ring is provided for enhanced magnetic power.

Operating Instructions

Your Lamicall Magnetic Phone Ring Grip offers multiple functionalities for enhanced phone usage:

1. **Secure Finger Grip:** Insert your finger through the ring for a secure hold, reducing the risk of accidental drops. The unique arc-shaped groove makes pulling the ring out effortless.
2. **360° Rotation and Multi-Angle Positioning:** The upgraded internal damping ring allows for steady 360° rotation and multi-angle positioning. You will feel a nice resistance when spinning the inner ring, ensuring it stays in your desired position. This is ideal for comfortable browsing and selfies.
3. **Desktop Kickstand:** Flip out the ring to use it as a desktop kickstand. It provides enhanced stability, preventing wobbling when your phone is placed horizontally or vertically for viewing content.
4. **Magnetic Car Mount Compatibility:** The magnetic phone ring can hold strongly onto your magnetic car mount while driving, eliminating the need to remove the ring.
5. **Removal for Wireless Charging:** When wireless charging is required, you need to remove the phone grip. The iron ring (Metal Strengthen Plate) itself does not affect wireless charging. To remove the grip, gently twist and lift it from the side.

Image: The phone ring grip features 360° rotation and a 90° flip, with an arc-shaped groove for easy pulling of the ring.

Image: The phone ring grip functions as a stable and adjustable multi-view phone stand, allowing users to choose their best viewing angle.

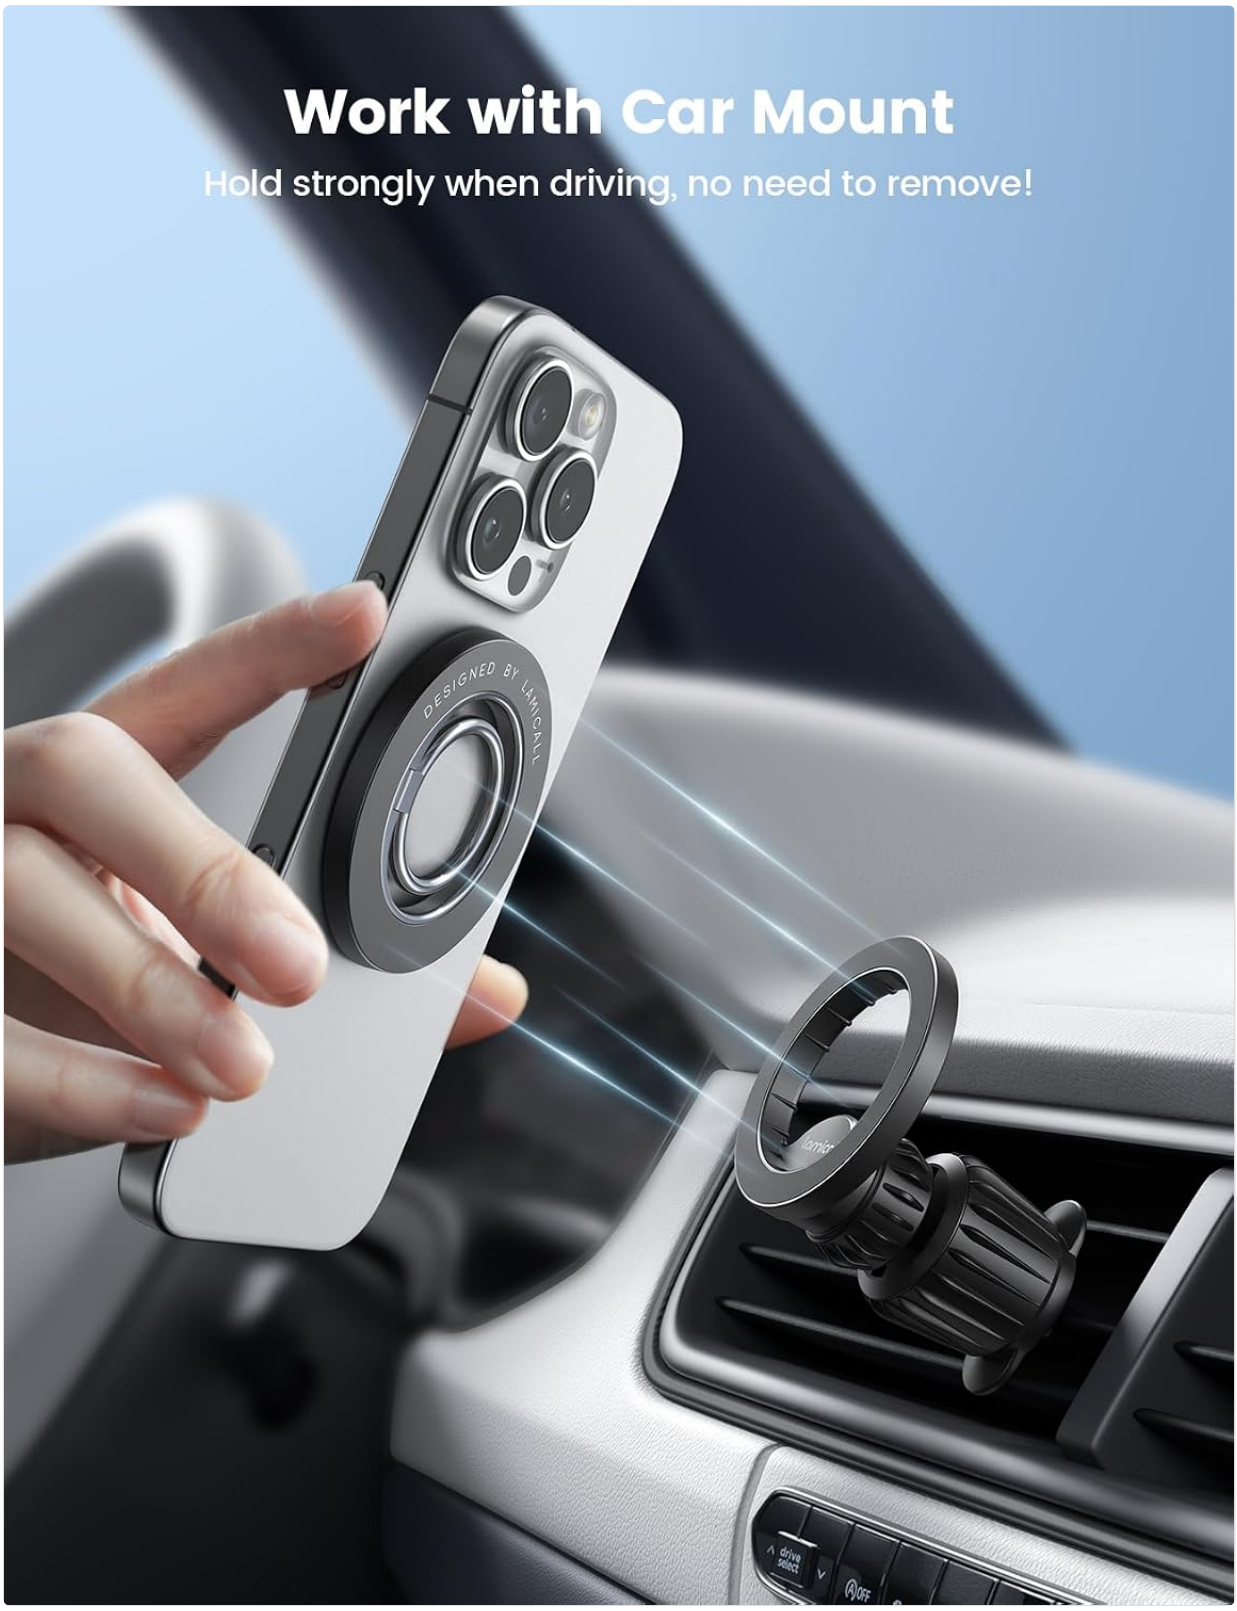

Image: The Lamicall Magnetic Phone Ring Grip is compatible with magnetic car mounts, providing a strong hold while driving without needing to remove the ring.

Maintenance

To ensure the longevity and optimal performance of your Lamicall Magnetic Phone Ring Grip, keep it clean and dry. Wipe with a soft, damp cloth as needed. Avoid harsh chemicals or abrasive materials that could damage the finish or magnetic properties.

Troubleshooting

- **Weak Magnetic Connection:** Ensure your device or case is MagSafe compatible. If not, verify that the Metal Strengthen Plate is correctly applied and firmly pressed for the recommended 2 minutes. Avoid soft or textured cases for direct magnetic attachment.
- **Ring Stiffness/Looseness:** The 360° rotational damping is designed to provide steady movement. If the ring feels too stiff or too loose over time, gentle manipulation may help, but excessive force should be avoided.
- **Difficulty Removing Grip:** To remove the grip for wireless charging or other purposes, gently twist and lift it from the side rather than pulling directly.

Specifications

Package Dimensions	6.26 x 3.62 x 0.35 inches
Item Weight	2.08 ounces
ASIN	B0FC6KPXXZ
Special Features	[4.4lbs Strong Magnet] [Work with Magnetic Car Mount] [One-Sided Magnetic Ring] [Inner 360° Rotating Ring] [Remove for Wireless Charging]
