ENUOSUMA White-Mini

Super Mini Projector User Manual

Model: White-Mini | Brand: ENUOSUMA

INTRODUCTION

This manual provides essential information for the operation and maintenance of your ENUOSUMA Super Mini Projector. This compact device offers 4K 1080P support, built-in Android 11 OS, WiFi 6, and Bluetooth connectivity, designed for versatile entertainment and presentation needs. Its auto keystone correction and portable design make it suitable for various environments.

WHAT'S IN THE BOX

- Super Mini Projector (White-Mini)
- Power Adapter
- Remote Control
- User Manual

SETUP

1. Placement and Power

Place the projector on a stable, flat surface. Ensure adequate ventilation around the device. Connect the power adapter to the projector's power input port and then to a power outlet. The projector is designed for portability, with dimensions of approximately 3.7 × 3.7 × 6.1 inches.

2. Initial Power On and Focus

Press the power button on the projector or the remote control to turn it on. The projector features automatic keystone correction and manual focus adjustment to quickly achieve a clear and properly shaped image. The 210° rotatable lens allows for flexible projection angles, including ceiling projection.

OPERATING INSTRUCTIONS

1. Navigating the Android TV 11 Interface

The projector runs on Android TV 11, providing access to over 4000 applications, including popular streaming services like Netflix, Prime Video, and YouTube. Use the provided remote control to navigate through the interface, select apps, and adjust settings.

2. Adjusting Projection Size and Distance

The projector can project a screen size from 40 to 130 inches. For optimal viewing, a distance of 5.2 feet is recommended for an 80-inch screen. Adjust the projector's distance from the projection surface to achieve your desired screen size.

Image: Visual guide for projecting different screen sizes based on distance from the projector to the wall.

3. Audio Output

The projector features a built-in 360-degree audio system for an immersive experience. For private listening or enhanced audio, connect Bluetooth headphones or external speakers via Bluetooth 5.2 or the audio output port.

MAINTENANCE

1. Cleaning the Lens and Vents

Regularly clean the projector lens with a soft, lint-free cloth designed for optical surfaces. Do not use abrasive cleaners. Ensure the ventilation grilles are free from dust and obstructions to maintain optimal airflow and prevent overheating. The projector features a high-performance cooling system designed to keep noise levels below 25dB.

2. Storage

When not in use, store the projector in a cool, dry place away from direct sunlight and extreme temperatures. Use the

original packaging or a protective case to prevent dust accumulation and physical damage.

TROUBLESHOOTING

Issue	Possible Cause	Solution
No image or blurry image	Incorrect focus, obstructed lens, incorrect input source.	Adjust manual focus. Clean the lens. Verify the input source (HDMI, USB). Ensure auto keystone correction is enabled.
No sound or low volume	Volume too low, external audio device not connected properly, internal speaker disabled.	Increase volume. Check Bluetooth connection for external speakers/headphones. Ensure internal speaker is enabled in settings.
Projector overheats and shuts off	Blocked ventilation, prolonged use in high temperatures.	Ensure vents are clear. Allow projector to cool down. Operate in a well-ventilated area.
Wi-Fi/Bluetooth connectivity issues	Out of range, interference, incorrect password.	Move closer to the router/device. Restart projector and router/device. Re-enter Wi-Fi password.

SPECIFICATIONS

| Feature	Detail
Brand	ENUOSUMA
Model	White-Mini
Item Weight	1.39 pounds
Package Dimensions	7.24 x 6.02 x 4.41 inches
