sunchers LBS22.0

SUNCHERS 20V Cordless Leaf Blower Instruction Manual

Model: LBS22.0

Introduction

Thank you for choosing the SUNCHERS 20V Cordless Leaf Blower. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new tool. Please read it thoroughly before first use and keep it for future reference.

This electric cordless leaf blower is designed for effective and extensive work, offering 135 MPH wind speed and 175 CFM air volume. Its cordless design allows for easy maneuverability across various surfaces, making it suitable for lawn care, garden, yard, depot, car, and house cleaning tasks.

Safety Information

Always observe basic safety precautions to reduce the risk of fire, electric shock, and personal injury when using this product.

- **Read all instructions:** Familiarize yourself with the controls and proper use of the appliance.
- **Wear appropriate personal protective equipment (PPE):** Always wear safety glasses or goggles, long pants, and sturdy footwear. Hearing protection is recommended during extended use.
- **Keep bystanders away:** Do not allow children or untrained individuals to operate the blower. Keep pets and other people at a safe distance.
- **Inspect the work area:** Before starting, clear the area of objects that could be thrown by the air stream, such as rocks, broken glass, or wire.
- **Avoid operating in wet conditions:** Do not use the blower in rain or on wet surfaces to prevent electric shock.

- **Battery safety:** Use only the specified battery pack and charger. Do not charge batteries in damp or wet locations. Do not incinerate the battery pack even if it is severely damaged.
- **Secure grip:** Always maintain a firm grip on the blower handle during operation.
- **Storage:** Store the blower and batteries in a dry, secure place, out of reach of children.

Package Contents

Verify that all items are present in the package:

- Leaf Blower Unit x 1
- 20V 2.0Ah Battery x 2
- Battery Charger x 1
- Blower Tubes x 2 (for adjustable length)
- User Manual x 1

Setup

1. Attaching the Blower Tubes

1. Align the desired blower tube(s) with the air outlet on the main blower unit.
2. Push the tube firmly onto the outlet until it clicks into place, ensuring a secure connection.
3. For extended reach, connect both tubes together before attaching them to the blower unit.

Image: Illustration of the two blower tubes and how they connect to the main unit for adjustable length.

2. Installing the Battery

1. Ensure the battery is fully charged before first use.
2. Slide the charged battery pack into the battery slot on the blower handle until it locks securely into place.
3. To remove the battery, press the release button and slide the battery out.

3. Charging the Battery

1. Connect the charger to a standard power outlet.
2. Slide the battery pack into the charger. The indicator light on the charger will show the charging status.
3. Allow the battery to cool down before charging if it has just been used.

Operating Instructions

1. Starting and Stopping the Blower

- To start the blower, press and hold the trigger switch.
- To stop the blower, release the trigger switch.

2. General Operation Tips

- Hold the blower firmly with one hand, directing the nozzle towards the debris.
- Use a sweeping motion to move leaves and debris into piles.
- For stubborn debris, use the flat mouth design of the nozzle to concentrate the airflow.
- The two included tubes allow for comfortable use whether cleaning floors without bending over or reaching tabletops and railings.

Maintenance

1. Cleaning the Blower

- Always remove the battery pack before cleaning.
- Wipe the exterior of the blower with a clean, damp cloth. Do not use strong detergents or solvents.
- Ensure the air intake and outlet are free from debris to maintain optimal airflow.

2. Battery Care and Storage

- Store batteries in a cool, dry place away from direct sunlight and extreme temperatures.
- For long-term storage, charge batteries to approximately 50% capacity.
- Do not store batteries in a discharged state.

Troubleshooting

Problem	Possible Cause	Solution
Blower does not start	Battery not installed correctly Battery discharged Trigger switch not fully pressed	Ensure battery is securely latched Charge the battery Press the trigger switch completely
Low airflow/power	Battery low Air intake/outlet blocked Tube not securely attached	Charge or replace battery Clear any obstructions Re-attach tube firmly
Battery not charging	Charger not plugged in Battery too hot/cold Faulty battery/charger	Check power connection Allow battery to reach room temperature Contact customer support

Specifications

Feature	Detail
Brand	sunchers
