BEAUTURAL 1200W Steam Iron - Instruction Manual

Model: 1-MR08US11

INTRODUCTION

Welcome to your new BEAUTURAL 1200W Steam Iron. This manual provides essential information for safe and efficient use, maintenance, and troubleshooting. Please read it thoroughly before operating your iron.

Key Features

- **Anti-Drip Technology:** Prevents water leaks when the iron is at a low temperature, ensuring no stain-causing water droplets fall on your clothes.
- **Trueglide Nonstick Soleplate:** The non-stick soleplate glides smoothly over all fabrics, preventing snags and burns for perfect results. Its lightweight design ensures easy handling and control.
- **Custom Ironing:** Adjustable settings provide total control for faster, easier ironing, whether you need a quick mist for delicate fabrics or a burst of steam for deep-set wrinkles.
- **Versatile Tool:** This iron is suitable for more than just clothes; it's ideal for quilting, sewing, appliquéd, patchwork, ragdoll making, and flower pressing.
- **Convenience Features:** A large 6.42 fl oz (190ml) water tank allows for longer ironing sessions without frequent refilling. Self-clean and anti-calc systems keep your iron in top condition.
- **Quality Assurance:** Every iron undergoes thorough testing by our QC team before leaving the factory, ensuring quality right out of the box.

PRODUCT OVERVIEW

Familiarize yourself with the main components of your BEAUTURAL Steam Iron.

Figure 1: Overall view of the BEAUTURAL 1200W Steam Iron, highlighting its ergonomic handle, water tank, and soleplate.

Figure 2: The temperature control dial allows selection of heat settings suitable for various fabric types.

Figure 3: The steam control slider adjusts the steam output from dry to maximum steam.

Figure 4: The water tank filling port is designed for easy and spill-free water replenishment using the provided measuring cup.

Figure 5: The Trueglide non-stick soleplate features multiple steam holes for even steam distribution and smooth gliding.

IMPORTANT SAFETY PRECAUTIONS

- Always ensure the iron is unplugged before filling or emptying the water tank.
- Do not leave the iron unattended when plugged in or hot.
- Keep the iron out of reach of children.
- The iron features a 3-way automatic shut-off system for enhanced safety:
 - If left standing vertically for more than 8 minutes, it will automatically turn off.

- If left flat or tipped over for more than 30 seconds, it will automatically turn off.
- Always set the steam control to the 'dry' position before plugging in or unplugging the iron.

INITIAL SETUP

1. Unpack the iron and all accessories from the packaging.
2. Ensure the iron is unplugged from the electrical outlet.
3. Open the water tank cover located on top of the iron.
4. Using the provided measuring cup, carefully fill the water tank with tap water up to the 'MAX' line (190ml). Do not overfill.
5. Close the water tank cover securely until it clicks into place.
6. Place the iron on a stable, heat-resistant ironing board or surface.
7. Plug the iron into a suitable electrical outlet (120 Volts).

Video: This video demonstrates how to fill the water tank of the BEAUTURAL Steam Iron and shows the iron heating up, indicated by the changing light.

OPERATING INSTRUCTIONS

Temperature Selection

Rotate the temperature control dial to select the appropriate heat setting for your fabric type (e.g., Synthetic, Silk, Wool, Cotton, Linen). The indicator light will illuminate while heating and turn off when the desired temperature is reached, signaling it's ready for use.

Dry Ironing

For dry ironing, ensure the steam control slider is set to the '0' (dry) position. Allow the iron to heat to the selected temperature. Iron garments as needed, without activating steam functions.

Steam Ironing

For steam ironing, ensure the water tank is filled. Set the temperature control dial to a steam-compatible setting (usually indicated on the dial, typically higher temperatures). Once the iron reaches temperature, slide the steam control to the desired steam level.

Burst of Steam

For stubborn wrinkles, press the 'Burst of Steam' button. This releases a powerful jet of steam. Wait a few seconds between bursts to allow the steam to regenerate.

Spray Mist

To lightly dampen fabrics, press the 'Spray Mist' button. This is useful for preparing fabrics for ironing or for delicate materials.

Video: This video provides a comprehensive review of the BEAUTURAL Steam Iron, including demonstrations of its various ironing and steam functions on different fabrics.

CARE AND MAINTENANCE

Self-Cleaning Function

To maintain optimal performance and prevent mineral buildup, use the self-cleaning function every two weeks or as needed. Fill the water tank, set the iron to maximum temperature, and once hot, hold it horizontally over a sink. Press and hold the 'Self-Clean' button until all water and steam are expelled. Allow the iron to cool completely before storing.

Anti-Calc System

The integrated anti-calc system helps reduce calcium buildup, extending the life of your iron. Regular use of the self-cleaning function further supports this.

Storage

After each use, unplug the iron and allow it to cool completely. Empty any remaining water from the tank. Store the iron upright in a safe, dry place, away from direct sunlight and moisture.

TROUBLESHOOTING GUIDE

- Iron not heating:** Check if the iron is properly plugged into a working electrical outlet. Ensure the temperature dial is not set to the 'OFF' position.
- No steam:** Verify that the water tank is filled. The temperature setting must be high enough for steam production (refer to the dial markings). The steam control slider must be in a steam position, not '0' (dry).
- Water leaking:** Ensure the anti-drip function is active (this is usually automatic at lower temperatures). Avoid overfilling the water tank.
- Iron not gliding smoothly:** Ensure the soleplate is clean and free from residue. Adjust the temperature setting to match the fabric type, as incorrect heat can cause sticking.

PRODUCT SPECIFICATIONS

- Brand:** BEAUTURAL
- Model Name:** Steam Iron
- Item Model Number:** 1-MR08US11
- Special Features:** Anti-Calc Function, Anti-Drip
- Color:** Blue
- Recommended Uses:** Residential
- Voltage:** 120 Volts
- Wattage:** 1200 Watts
- Item Weight:** 2.12 pounds
- Package Dimensions:** 11.06 x 6.3 x 4.72 inches
- Water Tank Capacity:** 6.42 fl oz (190ml)

WARRANTY AND CUSTOMER SUPPORT

For detailed warranty information or to receive technical assistance, please refer to the warranty card included in your product packaging. You may also visit the official BEAUTURAL website for further support and contact options.
