## 1. INTRODUCTION

Thank you for choosing the XuanPad 1800 ANSI Smart Projector V18. This manual provides essential information for setting up, operating, and maintaining your projector. Please read it thoroughly before use to ensure optimal performance and safety.

## 2. SAFETY INFORMATION

To prevent fire, electric shock, or injury, always observe the following safety precautions:

- Do not block ventilation openings.
- Do not expose the projector to rain or moisture.
- Do not open the projector casing; refer all servicing to qualified personnel.
- Avoid direct eye exposure to the projector lens when the lamp is on.
- Use only attachments/accessories specified by the manufacturer.
- Ensure the power cord is not walked on or pinched.

## 3. PACKAGE CONTENTS

Verify that all items are present in your package:

- XuanPad 1080P Projector (V18)
- HDMI Cord
- Remote Control
- User Manual
- Power Cord

## 4. PRODUCT OVERVIEW

The XuanPad 1800 ANSI Smart Projector V18 is a compact and versatile home theater device designed for ease of use and high-quality projection. Key features include:

- **Native 1080P Resolution:** Delivers sharp and clear images.
- **4K Support:** Compatible with 4K content for enhanced viewing.
- **TOF Real-time Autofocus:** Ensures instant clarity without manual adjustments.
- **Automatic Keystone Correction:** Corrects distorted images for a perfect rectangular display.
- **210° Rotatable Stand:** Allows flexible projection angles, including ceiling projection.
- **Built-in Streaming Apps:** Preloaded with popular services like Netflix, YouTube, and Prime Video.
- **Dolby Audio:** Integrated for an immersive sound experience.
- **Ultra-Fast WiFi 6 & Bluetooth 5.2:** For seamless connectivity with networks and external audio devices.

### 4.1. Projector Components

## 4.2. Ports and Controls

The projector features various ports for connectivity:

- **HDMI Port:** For connecting external devices like laptops, gaming consoles, or Blu-ray players.
- **USB Port:** For playing media from USB drives.
- **3.5mm Audio Jack:** For connecting external headphones or speakers.
- **Power Input:** For connecting the power adapter.

# WIFI 6 & BLUETOOTH 5.2

Lag-Free Performance – Faster & Smoother Than Ever

Video: This video showcases the various features of the XuanPad V18, including its compact size, rotatable stand, and connectivity ports.

## 5. SETUP

### 5.1. Initial Placement

Place the projector on a stable, flat surface. The 210° rotatable stand allows for flexible positioning, including projecting onto walls or ceilings. Ensure there are no obstructions in front of the lens.

Image: The integrated 210° rotating stand of the XuanPad V18, illustrating its versatility for various projection angles.

## 5.2. Power Connection

Connect the provided power cord to the projector's power input and then to a power outlet.

## 5.3. First-Time Use

1. Power on the projector using the power button or remote control.
2. Follow the on-screen prompts to select your preferred language and region.
3. Connect to your Wi-Fi network by selecting your network and entering the password.
4. The projector will automatically perform TOF autofocus and keystone correction for a clear, rectangular image.

# 6. OPERATING INSTRUCTIONS

## 6.1. Navigation

Use the provided remote control to navigate the projector's interface. The directional buttons allow you to move between options, and the "OK" button confirms selections.

## 6.2. Built-in Streaming Apps

The XuanPad V18 comes preloaded with popular streaming applications. Access these directly from the home screen:

- Netflix
- YouTube
- Prime Video
- And more, accessible via the App Store or Open Browser.

Image: The projector's home screen displaying pre-installed streaming applications like Netflix, YouTube, and Prime Video.

### 6.3. External Device Playback

Connect external devices using the HDMI or USB ports. Select the appropriate input source from the projector's menu to display content.

## 7. CONNECTIVITY

### 7.1. Wi-Fi Connection

The projector supports Wi-Fi 6 for fast and stable internet access. To connect or change Wi-Fi networks:

1. Go to **Settings > Network & Internet**.
2. Select your desired Wi-Fi network.
3. Enter the password and confirm.

### 7.2. Bluetooth Connection

Utilize Bluetooth 5.2 to connect external audio devices such as speakers or headphones.

1. Go to **Settings > Bluetooth**.
2. Ensure Bluetooth is enabled on both the projector and your external device.
3. Select your device from the list to pair.

## 8. FOCUS AND KEYSTONE CORRECTION

The XuanPad V18 features advanced automatic adjustments for optimal image quality.

### 8.1. TOF Real-time Autofocus

The projector uses TOF (Time-of-Flight) technology to automatically focus the image in less than 1 second. This ensures a clear picture even if the projector is moved or repositioned.

## 8.2. Automatic Keystone Correction

The projector automatically corrects image distortion (trapezoid effect) when placed at an angle to the screen. This ensures a perfectly rectangular image without manual intervention.

For fine-tuning or specific scenarios, manual keystone correction options are available in the settings menu.

## 9. AUDIO SETTINGS

The projector is equipped with Dolby Audio for a rich and immersive sound experience. It features built-in Hi-Fi stereo speakers.

### 9.1. Built-in Speakers

The integrated speakers provide clear and powerful audio for most viewing environments. Adjust the volume using the remote control.

### 9.2. External Audio

For enhanced audio, connect external speakers or headphones via the 3.5mm audio jack or Bluetooth 5.2. Once connected, the projector's audio will output through the external device.

## 10. MAINTENANCE

### 10.1. Cleaning the Lens

Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Avoid using abrasive cleaners or excessive force.

### 10.2. Cleaning the Casing

Wipe the projector's exterior with a soft, dry cloth. Do not use liquid or aerosol cleaners directly on the unit.

### 10.3. Ventilation

Ensure the ventilation openings are clear of dust and debris to prevent overheating. Do not place the projector on soft surfaces that may block airflow.

## 11. TROUBLESHOOTING

Problem	Possible Solution
No image on screen	<ul style="list-style-type: none"> <li>Ensure the projector is powered on.</li> <li>Check power cable connection.</li> <li>Verify the correct input source is selected (e.g., HDMI, USB).</li> </ul>
Blurry image	<ul style="list-style-type: none"> <li>Allow TOF autofocus to complete.</li> <li>Manually adjust focus if needed via settings.</li> <li>Ensure the projection surface is flat and clean.</li> </ul>
Distorted image (trapezoid)	<ul style="list-style-type: none"> <li>Allow automatic keystone correction to activate.</li> <li>Adjust keystone manually in settings if necessary.</li> </ul>
No sound	<ul style="list-style-type: none"> <li>Increase volume on the projector and source device.</li> <li>Check if external speakers/headphones are properly connected and selected.</li> <li>Ensure audio is not muted.</li> </ul>

Problem	Possible Solution
Wi-Fi/Bluetooth connection issues	<ul style="list-style-type: none"> <li>- Restart the projector and your router/Bluetooth device.</li> <li>- Ensure the projector is within range of the network/device.</li> <li>- Re-enter Wi-Fi password or re-pair Bluetooth device.</li> </ul>

## 12. SPECIFICATIONS

---
