

Kratos K13

Kratos K13 AI Powered Auto Face Tracking Tripod User Manual

1. INTRODUCTION

The Kratos K13 is an AI-powered auto face tracking tripod designed for mobile phones. It features 360-degree rotation, gesture control, and operates without the need for a dedicated application. This device is suitable for hands-free video calls, live streaming, vlogging, and video recording, providing stable and dynamic camera movement.

3. PRODUCT OVERVIEW

Key Features:

- **AI Face Tracking:** Automatically tracks your face or body with 360-degree rotation.
- **No App Required:** Operates independently without the need for Bluetooth pairing or a mobile application.
- **360° Rotatable Phone Holder:** Allows for versatile camera mode selection, supporting both portrait and landscape orientations.
- **Standard 1/4" Interface:** Equipped with a 1/4-inch screw thread at the bottom for mounting on external tripods.
- **Wide Phone Compatibility:** The phone holder securely fits mobile phones ranging from 7 cm to 10.5

cm in width.

- **Built-in Rechargeable Battery:** Features a 2200 mAh battery with a Type-C charging port, providing 8-9 hours of operation on a full charge.
- **Smart Gesture Control:** Use specific hand gestures to initiate and pause tracking.
- **Detachable Remote:** Includes a remote control for convenient operation.

4. SETUP

4.1 Attaching Your Mobile Phone

1. Gently expand the phone holder clamps.
2. Insert your mobile phone into the holder, ensuring it is securely gripped. The holder accommodates phones between 7 cm and 10.5 cm wide.
3. Adjust the phone's position for optimal balance and camera alignment.

DETACHABLE CLIP

4.2 Mounting on an External Tripod (Optional)

The Kratos K13 features a standard 1/4-inch screw thread at its base. To mount it on an external tripod:

1. Align the 1/4-inch screw of your external tripod with the thread on the Kratos K13 base.
2. Rotate the Kratos K13 clockwise until it is securely fastened to the tripod.
3. Adjust the angle and height as needed using your external tripod's controls.

4.3 Remote Control Setup

The Kratos K13 includes a detachable remote control. To use the remote:

1. Ensure the remote control has a working CR1632 battery installed.
2. Press and hold the button on the remote to power it on.
3. The remote connects automatically to the Kratos K13.

5. OPERATING INSTRUCTIONS

5.1 Powering On/Off

Press and hold the power button on the Kratos K13 unit for a few seconds to turn it on or off. An indicator light will confirm the power status.

5.2 Activating Auto Face Tracking

Once powered on, the Kratos K13 automatically enters tracking mode. Position yourself in front of the device, and it will begin to track your face or body, rotating 360 degrees to keep you in frame.

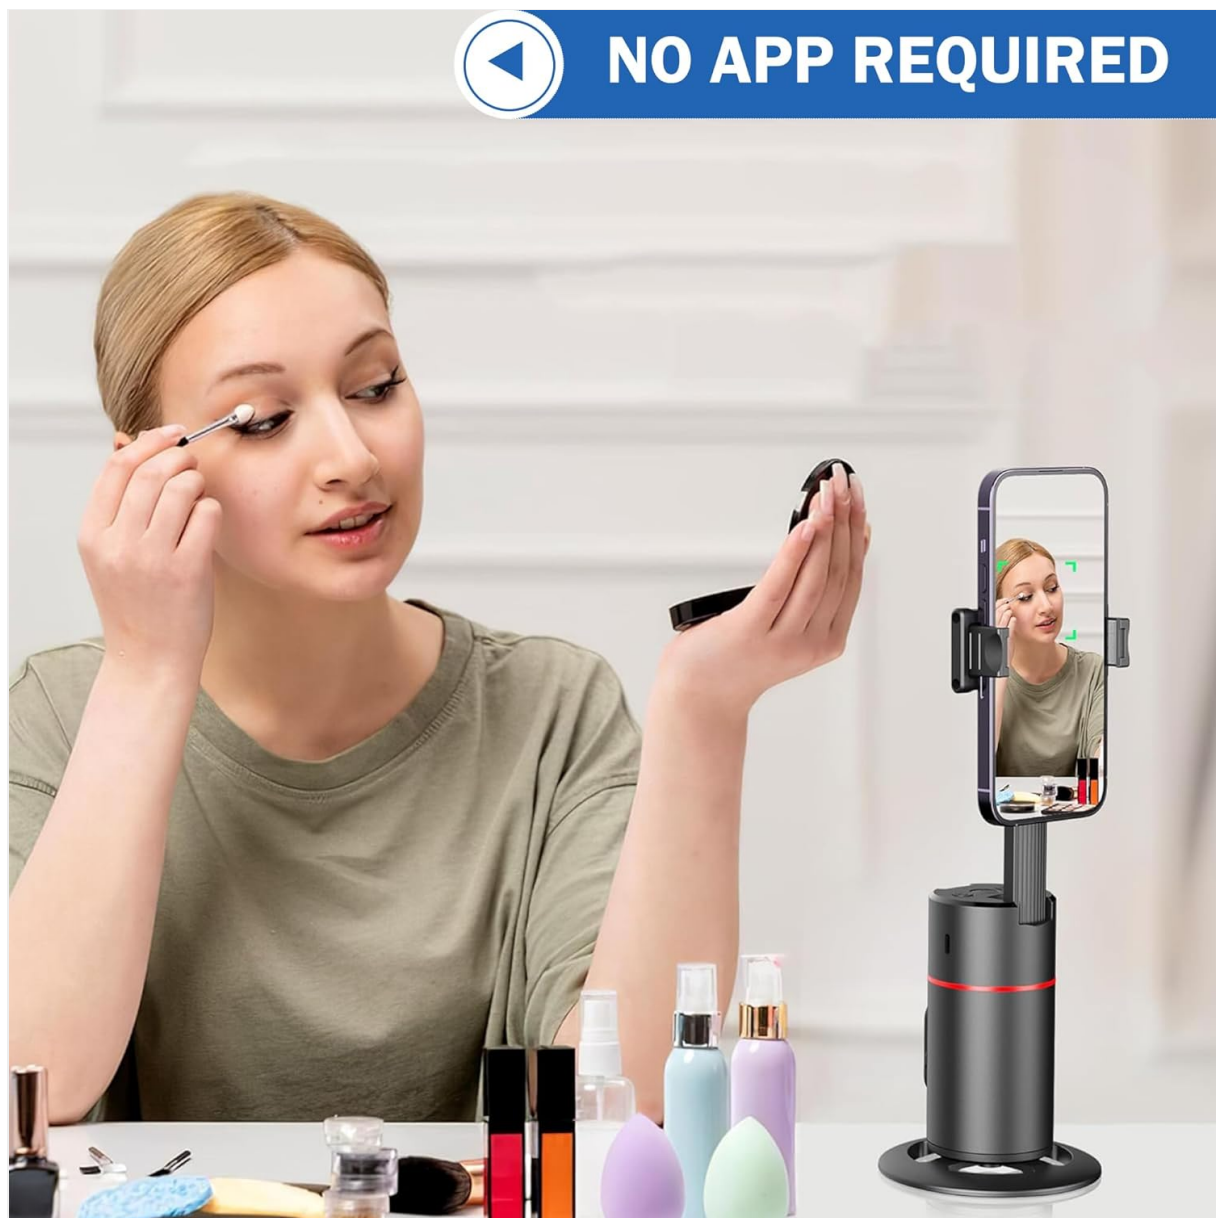

Figure 5: Auto tracking mode in action.

5.3 360-Degree Rotation

The Kratos K13 offers continuous 360-degree horizontal rotation. The phone holder can also be flipped 180 degrees to achieve various perspectives, including portrait and landscape orientations.

AUTO TRACKING MODE

Automatically Track Your Face or Body Wherever You Go

Figure 6: 360-degree rotation and holder adjustment.

5.4 Detachable Clip Functionality

The phone clip can be detached from the main unit, allowing for flexible use cases or easier storage.

DETACHABLE REMOTE

Figure 7: Detachable phone clip.

6. GESTURE CONTROL

The Kratos K13 supports smart gesture control for convenient operation:

- **"OK" Gesture:** Make an "OK" hand gesture in front of the camera to initiate tracking or recording.
- **Open Palm Gesture:** Present an open palm hand gesture to the camera to pause tracking or recording.

Figure 8: Gesture control for starting and stopping tracking.

7. CHARGING

The Kratos K13 is equipped with a built-in 2200 mAh rechargeable battery. To charge the device:

1. Connect the provided Type-C charging cable to the charging port on the Kratos K13.
2. Connect the other end of the cable to a suitable USB power adapter (not included).
3. The charging indicator light will illuminate during charging and turn off once the battery is fully charged.

A full charge typically provides 8-9 hours of continuous operation.

8. MAINTENANCE

To ensure the longevity and optimal performance of your Kratos K13:

- **Cleaning:** Wipe the device with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the tripod in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** For prolonged storage, charge the battery to approximately 50% every three months to maintain battery health.

- **Avoid Water:** The device is not waterproof. Keep it away from water and high humidity.

9. TROUBLESHOOTING

If you encounter issues with your Kratos K13, refer to the following common solutions:

- **Device Not Powering On:** Ensure the battery is charged. Connect the device to a power source using the Type-C cable.
- **Tracking Not Working:** Ensure you are within the optimal tracking range and lighting conditions. Make sure no obstructions are blocking the sensor. Re-attempt the gesture control.
- **Remote Control Not Responding:** Check if the remote control battery (CR1632) needs replacement. Ensure the remote is powered on.
- **Phone Not Fitting Securely:** Verify that your phone's width is between 7 cm and 10.5 cm. Adjust the phone carefully within the clamps.

If problems persist, please contact customer support.
