## 1. INTRODUCTION

---

Thank you for purchasing the Zebronics Heat Buster 200 Portable Hand Fan. This manual provides essential information for the safe and efficient use of your device. Please read these instructions carefully before use and retain them for future reference.

## 2. SAFETY INFORMATION

---

- Do not insert fingers or any objects into the fan grille when the fan is operating.
- Keep the fan away from water and other liquids to prevent electric shock.
- Do not expose the fan to extreme temperatures or direct sunlight for prolonged periods.
- Use only the specified charging cable (Type-C) and power adapter to charge the device.
- Do not attempt to disassemble, repair, or modify the fan. Contact authorized service personnel for assistance.
- Keep out of reach of children.

## 3. PRODUCT OVERVIEW

---

The Zebronics Heat Buster 200 is a compact and portable hand fan designed for personal cooling. It features a powerful brushless motor, a long-lasting rechargeable battery, and multiple speed settings.

### Key Features:

- **Battery Life:** Up to 12 hours of backup with a built-in 3600mAh rechargeable battery.

- **LED Display:** Shows remaining battery percentage and current speed mode.
- **Powerful Airflow:** High-speed motor (up to 5000 RPM) delivers airflow up to 5.9m/s.
- **5 Speed Modes:** Adjustable airflow from a light breeze to a strong gust.
- **Portability:** Compact and lightweight design for easy carrying.
- **Type-C Charging:** Convenient and fast charging.
- **Silent Operation:** Advanced brushless motor ensures quiet performance.

### Components:

- Fan Grille
- Fan Blades
- LED Display
- Power/Speed Button
- Handle
- Type-C Charging Port

Exploded view of Zebronics Heat Buster 200 fan showing internal brushless motor and fan blades, illustrating its high-speed capability up to 5000 RPM.

Front view of the grey Zebronics Heat Buster 200 portable hand fan, displaying the LED screen with speed '01' indicated.

## 4. SETUP

---

### Initial Charging:

1. Before first use, fully charge the fan.
2. Connect the provided Type-C charging cable to the fan's charging port.
3. Connect the other end of the cable to a compatible USB power adapter (not included) or a computer's USB port.
4. The LED display will show the charging status. A full charge is indicated when the display shows 100%.

## 5. OPERATING INSTRUCTIONS

---

### Power On/Off and Speed Adjustment:

1. To turn on the fan, press the Power/Speed button once. The fan will start at speed mode 1.
2. Each subsequent press of the Power/Speed button will cycle through the speed modes: 1 → 2 → 3

→ 4 → 5.

3. To turn off the fan, press the Power/Speed button after reaching speed mode 5. The fan will power off.

### LED Display:

The integrated LED display shows the current speed mode (1-5) and the remaining battery percentage. This allows for easy monitoring of the fan's status.

The fan's LED display showing speed mode '05' and detailing the battery life and RPM for each of the 5 speed settings.

**Powerful  
Airflow**  
Upto 5.9m/s

**LED Display with  
Battery Percentage Indicator**

Top image shows a child enjoying the powerful airflow of the fan. Bottom image shows the fan on a desk, with its LED display indicating 85% battery.

**Easy  
Cooling**

**Cool Breeze  
Anywhere**

Illustrations of the fan providing easy cooling outdoors and a cool breeze anywhere, including on public transport.

## 6. CHARGING

---

The Zebronics Heat Buster 200 is equipped with a 3600mAh rechargeable battery, offering extended usage times. The fan charges via a Type-C port.

- Connect the Type-C cable to the fan's charging port and a USB power source.
- The LED display will show the battery percentage increasing during charging.
- A full charge provides up to 12 hours of operation, depending on the speed mode used.

**Type C  
Chargeable**

**Built-In  
Rechargeable  
Battery**

A hand holding the Zebronic Heat Buster 200 fan with a Type-C cable plugged into the charging port, demonstrating its built-in rechargeable battery.

## 7. MAINTENANCE

---

### Cleaning:

- Ensure the fan is turned off and unplugged before cleaning.
- Use a soft, dry cloth to wipe the exterior of the fan.
- For dust accumulation on the fan grille, use a soft brush or compressed air. Do not use water or harsh cleaning agents.

### Storage:

- Store the fan in a cool, dry place away from direct sunlight and moisture.
- If storing for an extended period, charge the battery to approximately 50% every three months to prolong battery life.

## 8. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Fan does not turn on.	Battery is depleted.	Charge the fan using the Type-C cable.
Weak or no airflow.	Low battery or fan grille obstructed.	Charge the fan. Ensure the fan grille is clear of obstructions.
Fan does not charge.	Faulty cable or power adapter.	Try a different Type-C cable or USB power adapter. Ensure connections are secure.
Cannot turn off directly.	Operational design requires cycling through speeds.	Press the Power/Speed button repeatedly until it cycles past speed 5 to turn off the device.

## 9. SPECIFICATIONS

---
