±5g

Image: A diagram highlighting the different buttons on the Redragon wireless mouse, including Left Button, Right Button, Scroll Wheel, DPI Button, Forward Button, and Backward Button.

- **Left Button:** Primary click function.
- **Right Button:** Secondary click function, typically opens context menus.
- **Scroll Wheel:** Scroll up or down through documents and web pages. Can also be clicked for middle-button functionality.
- **DPI Button:** Cycles through DPI settings (see "DPI Adjustment" section).
- **Forward Button:** Navigates forward in web browsers or file explorers. (Note: Not compatible with macOS).
- **Backward Button:** Navigates backward in web browsers or file explorers. (Note: Not compatible with macOS).

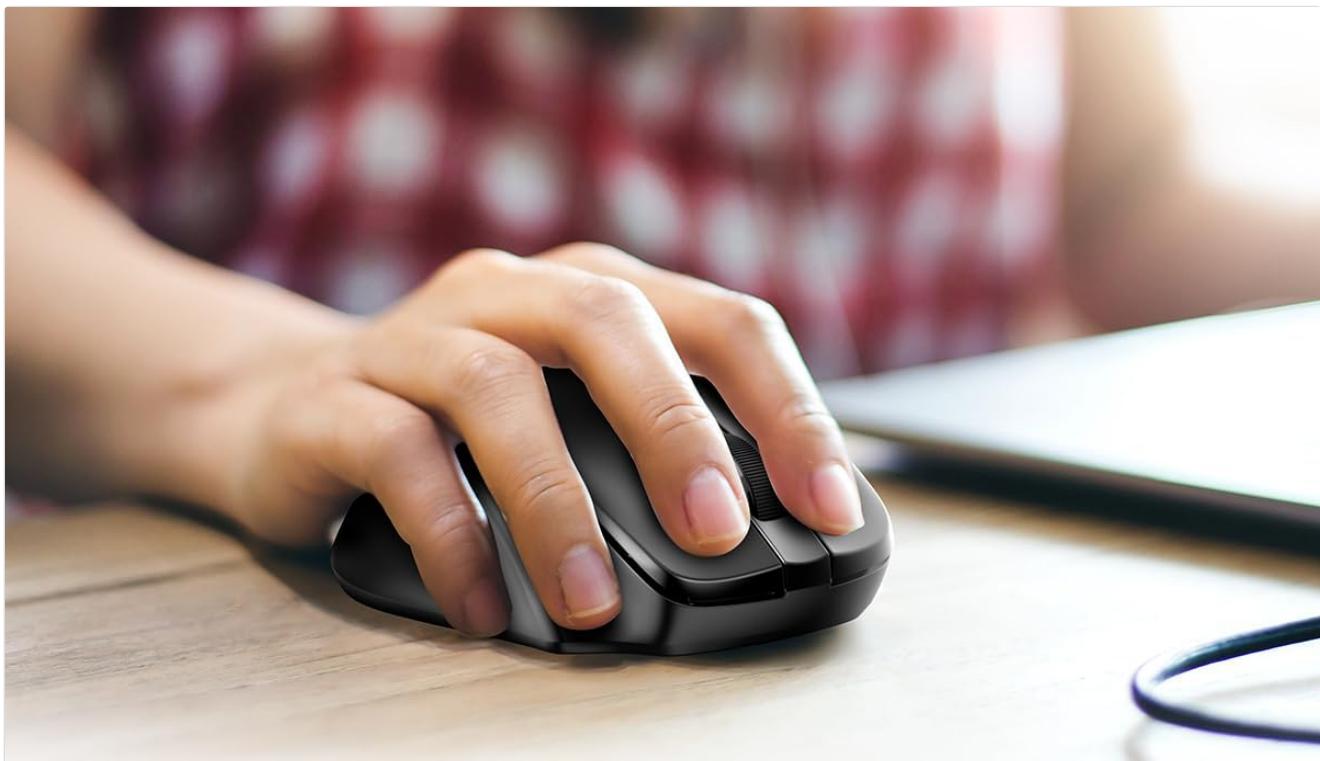

## DPI ADJUSTMENT

The mouse offers 5 adjustable DPI (Dots Per Inch) levels to suit different tasks and preferences. Press the DPI button located behind the scroll wheel to cycle through the settings:

- 800 DPI

- 1200 DPI
- 1600 DPI (Default)
- 2400 DPI
- 4000 DPI

Each press of the DPI button will switch to the next sensitivity level. This allows for quick adjustments between precise work and faster cursor movement.

## Suitable for S&M Hand Sizes

### BATTERY INFORMATION

- **Battery Type:** 1 x AA battery (not included).
- **Battery Life:** Up to 18 months, depending on usage.
- **Power Saving Mode:** The mouse enters sleep mode after 5 minutes of inactivity. To reactivate, simply click any button.
- **Battery Replacement:** When the mouse performance degrades or it stops responding, replace the AA battery.

## MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the mouse. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use for extended periods, remove the AA battery to prevent leakage. Store the mouse and USB receiver in a dry, cool place.
- **Handling:** Avoid dropping the mouse or exposing it to extreme temperatures or moisture.

## TROUBLESHOOTING

---

- **Mouse not responding:**
  - Ensure the AA battery is correctly inserted and has sufficient charge. Replace if necessary.
  - Verify the USB receiver is securely plugged into a working USB port on your computer. Try a different USB port.
  - Move the mouse closer to the USB receiver to rule out range issues.
  - Restart your computer.
- **Erratic cursor movement:**
  - Clean the optical sensor on the underside of the mouse with a soft cloth.
  - Ensure you are using the mouse on a suitable surface. Highly reflective or transparent surfaces may affect tracking.
  - Check for interference from other wireless devices.
- **Side buttons not working on macOS:**
  - This is a known compatibility limitation. The forward/backward buttons are not supported by macOS.
