Anweller P7BF

Anweller Fingerprint Locker Lock with Code, Model P7BF - User Manual

Welcome to the Anweller P7BF User Manual. This guide provides detailed instructions for setting up, operating, and maintaining your smart padlock.

PRODUCT OVERVIEW

The Anweller P7BF is a versatile smart padlock offering multiple unlocking methods for enhanced security and convenience. It features fingerprint recognition, passcode entry, and mobile app control.

Key Features

- 4-in-1 Unlocking:** Fingerprint, Passcode, Mobile App, and iWatch.
- Fast Fingerprint Recognition:** Unlocks in 0.2 seconds. Supports up to 20 fingerprints.
- Multi-function Passwords:** Permanent, Guest (scheduled), and One-time codes.
- Smart App Control:** Bluetooth connectivity for user management, password generation, and unlock records.
- Durable Design:** IP65 waterproof and dustproof, withstands temperatures from -4°F to 113°F.
- Long Battery Life:** Up to 180 days standby time, Type-C charging.

This image displays the Anweller P7BF smart padlock from two angles, highlighting its keypad on one side and the fingerprint sensor on the other. A smartphone screen showing the accompanying mobile application is also visible, demonstrating the lock's smart features.

WHAT'S INCLUDED

- Anweller Smart Padlock
- Type-C Charging Cable
- User Manual

SETUP GUIDE

Initial Charging

Before first use, fully charge the padlock using the provided Type-C cable. The charging port is typically located at the bottom or side of the lock. A full charge ensures optimal performance.

Built for Greater Durability and Security

IP65 Waterproof & Dustproof

Withstands -4°F~113°F Temps

10,000 Lock/Unlock Cycle Lifespan

220lb Weight Capacity

This diagram illustrates the internal battery of the Anweller P7BF smart padlock and indicates the Type-C charging port, emphasizing the 180-day standby time and convenient charging.

App Installation and Connection

1. Download the "eSmartLock" app from your device's app store (Android or iOS).
2. Open the app and create an account.
3. Ensure your phone's Bluetooth is enabled.
4. In the app, select "Add Device" and follow the on-screen instructions to pair with your Anweller P7BF padlock. The lock's indicator light will typically flash during pairing.

**Fast Connection
Mode**

This image displays the "eSmartLock" mobile application interface, highlighting features such as user management, temporary password generation, sharing unlock permissions, and viewing unlock history.

Registering Fingerprints

1. Once connected via the app, navigate to "Fingerprint Management".
2. Select "Add Fingerprint" and follow the app's prompts to register your fingerprint. You will typically need to place your finger on the sensor multiple times from different angles.
3. Register all desired fingerprints (up to 20).

Encrypted Chip

This close-up image focuses on the fingerprint sensor of the Anweller P7BF smart padlock, showing a finger being placed on it. Text overlays indicate a 0.2-second unlock speed, self-learning AI, and AES-256 encrypted chip for enhanced security.

Setting Passcodes

1. In the app, go to "Password Management".
2. You can set permanent passcodes (up to 20), generate guest passwords with scheduled entry times, or create one-time passwords.
3. Follow the app's instructions to create and manage your desired passcodes.

Battery Indicator

This image depicts a person interacting with the Anweller P7BF padlock on a gate, accompanied by text explaining the multi-function password capabilities: 20 permanent passwords, guest passwords with scheduled entry times, and unlimited one-time passwords.

OPERATING INSTRUCTIONS

Unlocking with Fingerprint

Place your registered finger firmly on the fingerprint sensor. The lock will unlock in approximately 0.2 seconds if the fingerprint is recognized.

Unlocking with Passcode

Enter your registered passcode on the keypad and press the unlock button (often represented by a key or checkmark symbol).

Unlocking via Mobile App

Open the "eSmartLock" app on your smartphone. Ensure Bluetooth is active and you are within range of the padlock. Tap the "Unlock" button within the app interface.

Unlocking via iWatch

If configured, use the dedicated iWatch app to unlock the padlock.

This composite image illustrates the four primary ways to unlock the Anweller P7BF smart padlock: using a passcode on the keypad, fingerprint recognition, unlocking via a mobile application, and unlocking with an iWatch.

MAINTENANCE

Battery Management

The padlock is powered by a rechargeable Lithium-ion battery. When the battery is low, the indicator light may flash differently, or the app will notify you. Charge the lock using the provided Type-C cable. Avoid prolonged exposure to extreme temperatures to preserve battery life.

Cleaning

Wipe the lock body and fingerprint sensor with a soft, dry cloth. Do not use abrasive cleaners or solvents.

Environmental Conditions

The lock is IP65 rated for water and dust resistance, making it suitable for outdoor use. However, avoid

submerging it in water or exposing it to harsh chemicals.

Small in Size Big on Durability

This image showcases the robust construction of the Anweller P7BF padlock, detailing its IP65 waterproof and dustproof rating, ability to withstand temperatures from -4°F to 113°F, a 10,000 lock/unlock cycle lifespan, and a 220lb weight capacity.

TROUBLESHOOTING

Fingerprint Not Recognized

- Ensure your finger is clean and dry.
- Try placing your finger on the sensor from different angles.
- Re-register your fingerprint if the issue persists.
- Ensure the sensor is clean and free of debris.

Passcode Not Working

- Double-check that you are entering the correct passcode.
- Verify if the passcode is still active (for guest or one-time codes).
- Ensure the lock's battery is not critically low.

App Connectivity Issues

- Ensure Bluetooth is enabled on your smartphone.
- Make sure you are within Bluetooth range of the padlock.
- Restart the app or your smartphone.
- Check if the app requires an update.

Lock Not Responding

- The battery might be completely drained. Connect the lock to a Type-C charger.
- If the lock is completely unresponsive after charging, contact customer support.

SPECIFICATIONS

Property	Value
Brand	Anweller
Model Number	P7BF
Product Dimensions (L x W x H)	4.42 x 2.46 x 7.49 cm
Weight	240 grams
Material	Stainless Steel
Color	Black
Lock Type	Biometric
Special Features	Anti-drill, Cut-resistant
Battery Type	1 Lithium-ion (included)
Controller Type	Android, iOS
Waterproof Rating	IP65
Operating Temperature	-4°F to 113°F
Unlock Cycle Lifespan	10,000 cycles
Weight Capacity	220lb
