ABCPOW USB C Wired Earbuds EASC07sKT Instruction Manual

Model: EASC07sKT

INTRODUCTION

Thank you for choosing ABCPOW USB C Wired Earbuds. These earbuds are designed to provide high-quality audio and convenient control for your USB-C compatible devices. This manual will guide you through the setup, operation, and maintenance of your new earbuds.

PACKAGE CONTENTS

- 1 Pack USB Type C Wired Headphones (White)
- 1 Pair of Eartips (S, M, L sizes included)
- 1 Cable Clip

COMPATIBILITY

These USB-C wired earbuds are compatible with most Type-C devices that do not have a 3.5mm audio jack. Please ensure your device has a USB-C port for audio output.

Compatible Models Include:

- **iPhone:** 17 Pro Max, 17 Pro, 17, Air, 16e, 16 Pro Max, 16 Pro, 16 Plus, 16, 15 Pro Max, 15 Pro, 15 Plus, 15
- **Samsung Galaxy:** A16 5G, A26, A36, A56, A35, A55, S25, S25+, S25 Ultra FE Edge, A54, A53, A33, Z Fold 6, Z Fold 5, Z Flip 6, Z Flip 5, S24, S23, S22, S21, S20 series
- Other USB-C devices without a 3.5mm audio jack.

Better Sound Quality

Immerse yourself in a realistic listening experience for music playback and voice calls

Image: USB-C compatibility diagram. Shows devices with a USB-C port are compatible, while devices with both USB-C and 3.5mm jack, or only a Lightning port, are not compatible for audio.

SETUP

1. **Select Eartips:** Choose the appropriate size (S, M, or L) silicone eartips for a comfortable and secure fit. Gently attach them to the earbuds.
2. **Connect to Device:** Insert the USB-C connector firmly into your device's USB-C port. Ensure there is no gap left between the connector and the device port.
3. **Secure Cable (Optional):** Use the included cable clip to secure the earbud cord to your clothing, preventing tangling and accidental dislodgement during activity.

OPERATING INSTRUCTIONS

The inline control unit allows for easy management of music playback and calls without needing to access your device.

Music Control:

- **Play/Pause:** Press the middle button once.
- **Next Track:** Triple-click the middle button.
- **Previous Track:** Double-click the middle button.

Call Control:

- **Answer Call:** Click the middle button once.
- **End Call:** Press the middle button again.
- **Reject Call:** Press and hold the middle button for 2 seconds.

Volume Control:

- **Increase Volume:** Use the **[+]** button.

- **Decrease Volume:** Use the [-] button.

COMFORT AND DESIGN

The earbuds feature an ergonomic in-ear design to minimize discomfort during extended listening sessions and ensure a secure fit. The 4-foot long cable provides ample length for various activities, and the included clip helps manage the cord to prevent tangling.

High-Quality Metal Drives

AUDIO FEATURES

Equipped with a state-of-the-art Digital-to-Analog Converter (DAC) chip and a 14.2MM dynamic driver, these earbuds deliver exceptional stereo audio performance. This technology ensures clearer mids, deeper bass, and superior lossless sound quality, providing an immersive listening experience with advanced noise-canceling capabilities.

Comfortable Wearing Experience

Perfect balance between quality and comfort, Fits your ears better, no easy to fall off, no sound leakage & clearer

IMPORTANT USAGE NOTES & TROUBLESHOOTING

- These are USB-C headphones. Ensure your phone has a USB-C port **without** a 3.5mm jack for proper audio output. Devices with a 3.5mm jack port may not produce sound or allow volume/microphone functionality.
- Ensure your phone case does not obstruct the USB-C charging port, as this may prevent the earbud's USB-C end from being fully inserted.
- Always ensure the USB-C end is fully inserted into your phone, with no gap remaining.
- Some devices (e.g., MacBook, iPad Pro, Samsung S8/S9/Note) may support music playback only, with phone call functionality not available.
- If you experience no sound, adjust the volume using the inline controls or try plugging the headphones into another compatible port.

SPECIFICATIONS

Feature	Detail
---------	--------

Model Name	EASC07sKT
Connectivity Technology	Wired
Headphones Jack	USB-C
Audio Driver Type	Dynamic Driver (14.2MM)
Special Features	Enhanced Audio Quality, Built-in Microphone & Volume Control, DAC Chip
