

## Cambridge Audio Evo 150 SE

# Cambridge Audio EVO 150 SE All-in-One Amplifier User Manual

## 1. INTRODUCTION

The Cambridge Audio EVO 150 SE is an integrated amplifier and network player designed to deliver high-fidelity audio from various sources. This unit combines a powerful 150W per channel amplifier with a high-resolution network streamer, offering connectivity options including Bluetooth aptX HD, AirPlay 2, Chromecast Built-in, HDMI ARC, and a Moving Magnet (MM) Phono Stage. This manual provides essential information for setting up, operating, and maintaining your EVO 150 SE.

## 2. WHAT'S IN THE BOX

Carefully unpack all items from the box. Ensure all components are present before proceeding with setup.

- Evo 150 SE Streaming Amplifier
- Quick Start Guide
- Safety Guide
- Mains Lead (Power Cable)

- Remote Control
- 2 x AAA Batteries
- Customisable Side Panels x 2 (pre-installed or separate)

### 3. SETUP

---

#### 3.1 Placement

Place the EVO 150 SE on a stable, level surface away from direct sunlight, heat sources, and excessive moisture. Ensure adequate ventilation around the unit.

#### 3.2 Connecting Speakers

Connect your passive speakers to the speaker terminals on the rear of the EVO 150 SE. Ensure correct polarity (+ to + and - to -) for each speaker. The EVO 150 SE supports dual speaker zones.

#### Hi-definition TV Sound

HDMI output for hi-definition home entertainment and add a sub for room shaking bass.

#### 3.3 Connecting Audio Sources

- **HDMI eARC:** Connect an HDMI cable from your TV's HDMI ARC/eARC port to the HDMI ARC input on the EVO 150 SE for TV audio.
- **Phono Stage:** Connect a turntable with a Moving Magnet (MM) cartridge to the dedicated Phono input.
- **Digital Inputs:** Use coaxial or optical cables for other digital audio sources.
- **Analog Inputs:** Use RCA cables for analog audio sources.

### 3.4 Network Connection

Connect the EVO 150 SE to your home network via Ethernet cable for a stable connection, or use the built-in Wi-Fi. For Wi-Fi setup, follow the instructions in the StreamMagic app.

### 3.5 Power Connection

Once all connections are made, connect the supplied mains lead to the EVO 150 SE and then to a suitable wall outlet. Power on the unit using the power button.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Power On/Off

Press the power button on the front panel or the remote control to turn the unit on or off. The display will illuminate upon power-up.

### 4.2 Front Panel Controls

The front panel features a high-resolution display and a dual-concentric dial. The outer ring controls volume, while the inner ring allows navigation through menus and input selection. Press the inner ring to confirm selections.

**Compact, award winning design**  
Timeless beauty with refined dual-concentric dial

### 4.3 Remote Control

Use the supplied remote control for convenient operation, including power, volume, input selection, and playback controls.

### 4.4 StreamMagic App

Download the StreamMagic app for iOS or Android to unlock the full potential of your EVO 150 SE. The app allows you to control streaming services, manage inputs, apply room compensation, and adjust the 7-band EQ for precise tonal control.

# Tailor your listening experience

## StreamMagic App

Room Compensation for optimised acoustics, alongside a 7-band EQ for precise tonal control—fully accessible via the custom control app on both iOS and Android.

## 4.5 Streaming Services & Connectivity

The EVO 150 SE supports a wide range of streaming options:

- **Built-in Streaming:** Access services like Spotify, Tidal, Amazon Music, Qobuz, Deezer, and Internet Radio directly through the StreamMagic platform.
- **Bluetooth aptX HD:** Pair your Bluetooth-enabled devices for high-quality wireless audio streaming.
- **AirPlay 2:** Stream audio from Apple devices.
- **Chromecast Built-in:** Cast audio from compatible apps on your smartphone or tablet.

Image: A visual representation of the EVO 150 SE's extensive connectivity, including Spotify, Tidal, Amazon Music, Qobuz, Deezer, Internet Radio, HDMI eARC, AirPlay, Chromecast, Wi-Fi, aptX HD Bluetooth, and Phono Stage.

#### 4.6 HDMI eARC Operation

When connected to a compatible TV via HDMI eARC, the EVO 150 SE will receive audio from your TV and can be controlled using your TV remote for volume. Ensure eARC/ARC is enabled in your TV's audio settings.

Image: A graphic illustrating the HDMI eARC connection for high-definition TV sound, indicating the ability to add a subwoofer for enhanced bass.

#### 4.7 Phono Stage Operation

Connect your turntable to the MM Phono input. Select the Phono input on the EVO 150 SE to listen to vinyl records. No external phono preamplifier is required for Moving Magnet cartridges.

## Great for record lovers

### Built-in phono stage with Bluetooth

#### 4.8 Dual Speaker Zones & Multiroom

The EVO 150 SE supports two independent speaker zones, allowing you to play different audio in separate rooms or the same audio simultaneously. Multiroom functionality can be managed via the StreamMagic app.

#### 4.9 Customisable Side Panels

The EVO 150 SE comes with customisable side panels. You can easily swap these panels to match your aesthetic preferences. Refer to the quick start guide for instructions on changing the panels.

## 5. MAINTENANCE

---

### 5.1 Cleaning

Wipe the unit with a soft, dry, lint-free cloth. Do not use abrasive cleaners, waxes, or solvents. Avoid spraying cleaning fluids directly onto the unit.

### 5.2 Software Updates

The EVO 150 SE's firmware can be updated via the StreamMagic app or through its network connection. Ensure your unit is connected to the internet to receive important updates that improve performance and add new features.

## 6. TROUBLESHOOTING

---

If you encounter issues with your EVO 150 SE, refer to the following common solutions:

- **No Power:** Check the mains lead connection and ensure the power outlet is active.
- **No Sound:** Verify speaker connections, input selection, and volume level. Check if mute is active.
- **Network Connection Issues:** Ensure your router is working correctly. For Wi-Fi, check signal strength. For Ethernet, ensure the cable is securely connected. Try restarting the unit and your router.
- **Bluetooth Pairing Problems:** Ensure the EVO 150 SE is in pairing mode and your device's Bluetooth is enabled and discoverable.
- **Remote Control Not Working:** Check and replace the AAA batteries. Ensure no obstructions are blocking the remote's signal to the unit.

For more detailed troubleshooting or persistent issues, please visit the Cambridge Audio support website or contact customer service.

## 7. SPECIFICATIONS

---

Feature	Specification
Output Power	150 Watts per channel

Feature	Specification
DAC	ESS SABRE ES9018k2m
Phono Stage	Moving Magnet (MM)
Amplifier Class	Hypex NCOREx Class D
Streaming Platform	StreamMagic Gen 4
Bluetooth	aptX HD
HDMI	eARC
Speaker Zones	Dual
Connectivity Technology	AirPlay 2, Bluetooth, Chromecast, Ethernet, Wi-Fi
