LocoLee 10367

LocoLee LED Light Kit Instruction Manual

For LEGO 10367 Balrog Book Nook (Standard Version)

Brand: LocoLee | Model: 10367

1. PRODUCT OVERVIEW

This document provides instructions for installing and operating the LocoLee LED Light Kit, designed specifically for the LEGO 10367 Balrog Book Nook model. This kit enhances the visual appeal of your LEGO model with integrated lighting. **Please note: The LEGO model itself is not included with this light kit and must be purchased separately.**

No Lego Model !

Only Led Light, Blocks Need To Be Purchased Separately

NO LEGO's with light kit

Image 1.2: Important Notice: This product is a light kit only. The LEGO 10367 Balrog Book Nook model is not included and must be acquired separately.

2. SAFETY INFORMATION

To ensure safe operation and prevent accidental ingestion, keep all small components of the light kit out of reach of young children. This product contains small parts and is recommended for ages 16 and up.

- Do not pull wires too hard during installation to avoid damage.
- Ensure the power source is less than 5V DC.
- Always test each light component before final assembly.

3. PACKAGE CONTENTS

Verify that all components listed below are present in your package. If any parts are missing, please contact customer support.

Detailed Tutorial

Image 4.1: Guide to accessing online installation instructions. This image illustrates the steps to find detailed video and PDF guides using the provided website and model number.

1. **Access Online Instructions:** Locate the website address in the included booklet. Enter the model number (10367) or the code from the packing box to find the specific instructions for your kit.
2. **Prepare Your Model:** Carefully disassemble only the necessary bricks of your LEGO 10367 Balrog Book Nook model as indicated in the online guide.
3. **Install Light Fixtures:** Following the step-by-step numbered light bags and instructions, integrate the LED lights and wires into your LEGO model. Ensure wires are not pulled excessively to prevent damage.
4. **Connect Components:** Connect the various light components to the expansion boards and then to the touch dimming module.
5. **Power Connection:** Connect the touch dimming module to the AAA battery case (ensure batteries are inserted) or a USB power source (less than 5V).
6. **Test Lights:** Before fully reassembling your LEGO model, test all lights to ensure they are functioning correctly.

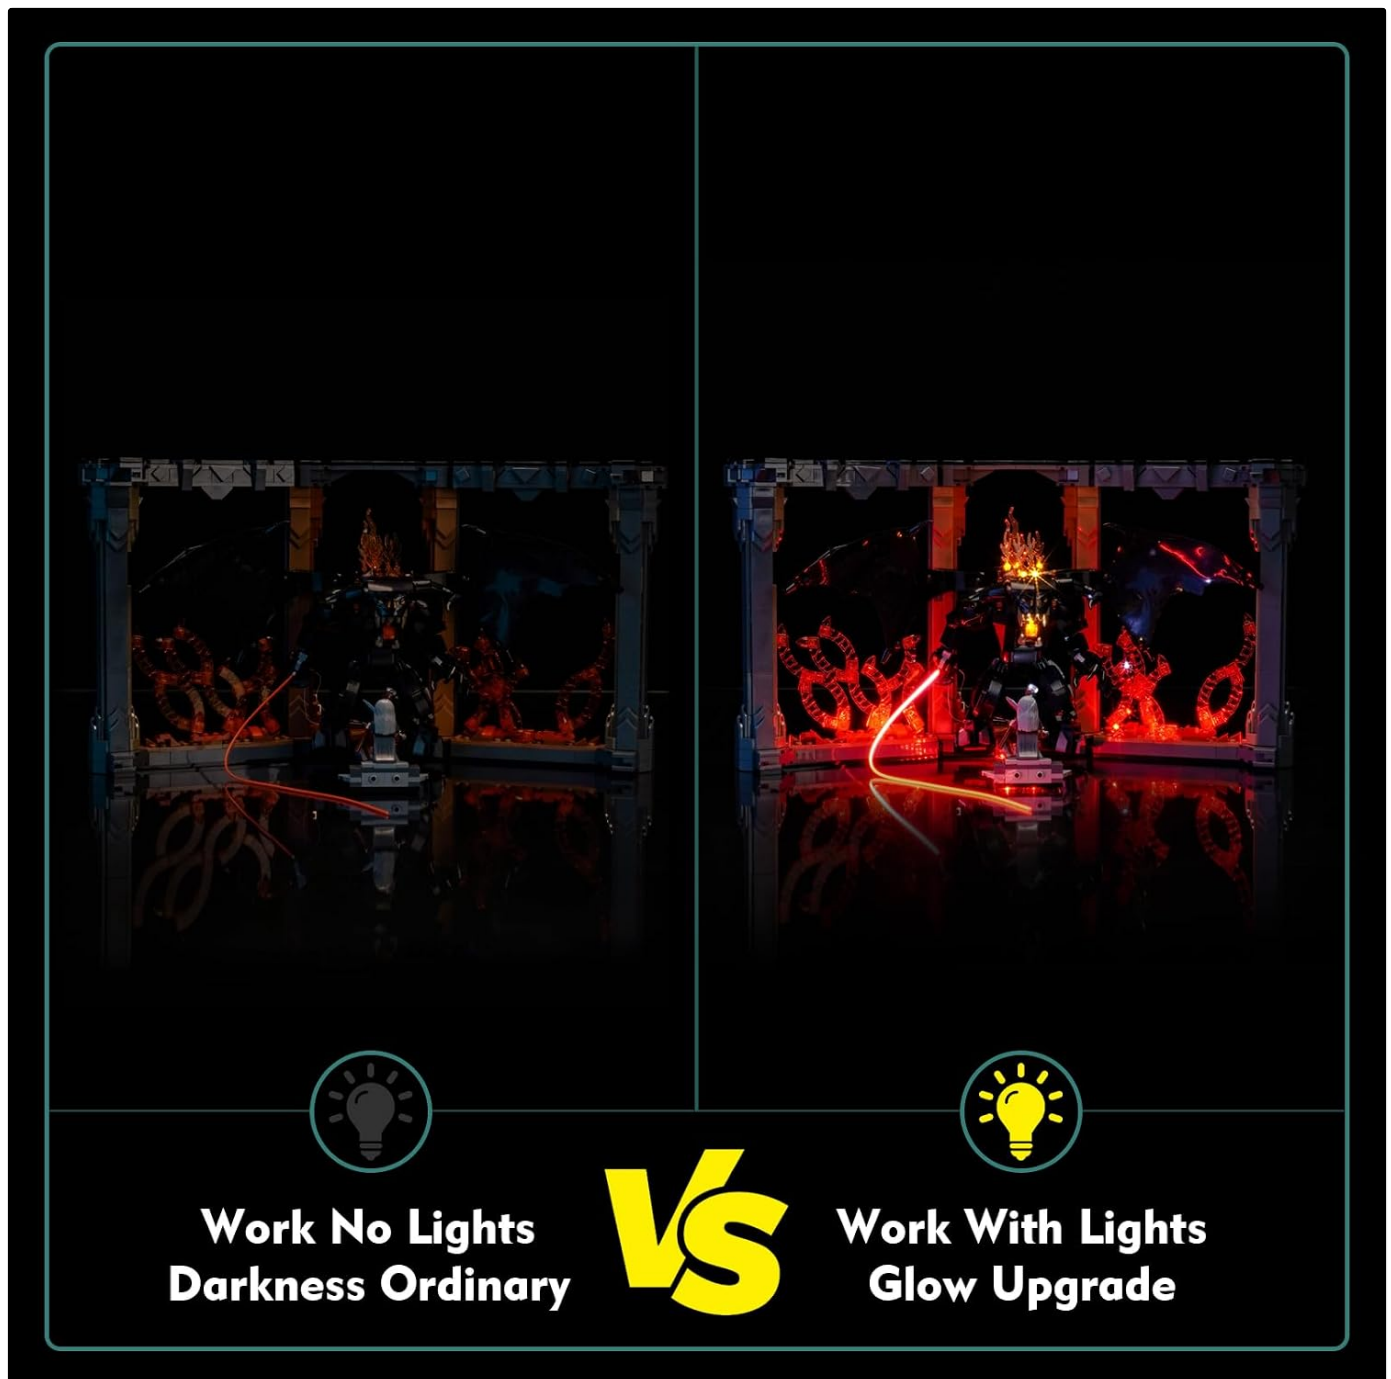

Image 4.2: Comparison of the LEGO model before and after the light kit installation, demonstrating the visual enhancement provided by the lighting.

5. OPERATING INSTRUCTIONS

Once installed, operating your LocoLee LED Light Kit is straightforward:

- **Power On/Off:** Use the power button on the touch dimming module to turn the lights on or off.
- **Brightness Adjustment:** The touch dimming module may allow for brightness adjustments. Refer to the online instructions for specific features of your module.
- **Power Source:** The kit can be powered by the included AAA battery case or a USB power source (less than 5V). Using a USB power source typically results in brighter illumination.

6. MAINTENANCE

To ensure the longevity and optimal performance of your light kit:

- **Cleaning:** Gently wipe the LED lights and wires with a dry, soft cloth if dust accumulates. Avoid using liquids or abrasive cleaners.
- **Wire Management:** Ensure all wires are neatly tucked away and not pinched or strained within the LEGO model.
- **Battery Replacement:** If using the battery case, replace AAA batteries when lights dim or cease to function.
- **Storage:** If disassembling the kit for storage, carefully disconnect components and store them in a dry, cool place.

7. TROUBLESHOOTING

If you encounter issues with your light kit, consider the following troubleshooting steps:

Problem	Possible Cause	Solution
Lights do not turn on.	No power, loose connection, faulty component.	Check power source (batteries or USB). Ensure all connections are secure. Test individual light parts as per installation instructions.
Lights are dim.	Low battery power, insufficient USB power.	Replace batteries or switch to a USB power source. Ensure USB power is stable.
Some lights are not working.	Damaged wire, faulty LED, loose connection.	Inspect wires for damage. Re-check connections to the expansion board. If a specific LED is faulty, contact customer support.

If these steps do not resolve the issue, please refer to the online installation guide or contact LocoLee customer support for further assistance.

8. SPECIFICATIONS

Feature	Detail
Brand	LocoLee
Model Number	10367
Compatible With	LEGO 10367 Balrog Book Nook
