SHISUO A5

SHISUO A5 3-in-1 Wireless Lavalier Microphone System User Manual

Model: A5 | Brand: SHISUO

1. PRODUCT OVERVIEW

The SHISUO A5 is a versatile 3-in-1 wireless lavalier microphone system designed for high-quality audio recording across multiple devices. It features a dual-receiver system, universal connectivity, real-time monitoring, extended range, long battery life, and advanced AI noise cancellation.

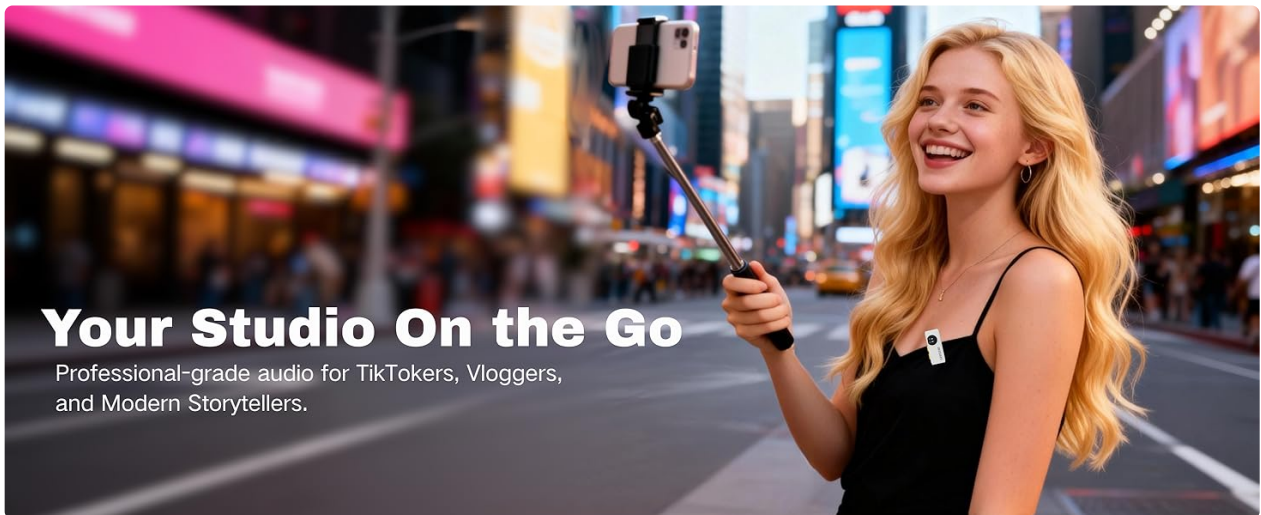

Image 1.1: The SHISUO A5 wireless lavalier microphone system, highlighting its 3-in-1 universal compatibility for various devices.

2. WHAT'S IN THE BOX

- 1 x Charging Case
- 2 x Wireless Transmitters (Microphones)
- 2 x 3-in-1 Universal Receivers (Lightning/USB-C/USB-A)

- 2 x Monitoring Earphones
- 2 x Pro Furry Windscreens
- 1 x USB-C Charging Cable
- 1 x User Manual

Information/product list

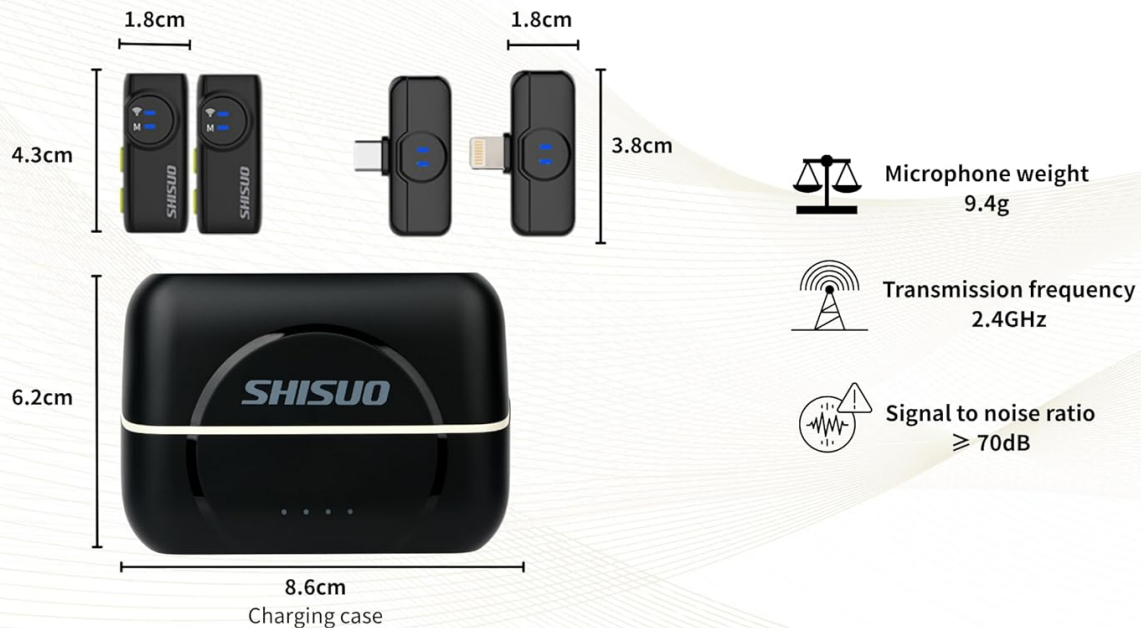

Image 2.1: All components included in the SHISUO A5 wireless microphone system package.

3. SETUP

Follow these steps to set up your SHISUO A5 wireless microphone system:

1. **Charge the System:** Ensure the charging case and microphones are fully charged using the provided USB-C cable. The charging case provides up to 4 full recharges for the microphones.
2. **Connect the Receiver:** Select the appropriate 3-in-1 universal receiver (Lightning for iPhone/iPad, USB-C for Android/PC, or USB-A for PC) and plug it into your recording device's port. The receiver will automatically power on and indicate connection readiness.
3. **Power On Microphones:** Remove the wireless transmitters (microphones) from the charging case. They will automatically power on and attempt to pair with the receiver. A blue indicator light on the microphone signifies a successful connection.
4. **Attach Microphones:** Clip the microphones to your clothing, ensuring they are positioned to capture your voice clearly. For outdoor use or windy conditions, attach the furry windscreens over the microphone heads.
5. **Real-Time Monitoring (Optional):** Plug the monitoring earphones into the receiver to listen to your audio in real-time, ensuring optimal sound quality during recording.

Image 3.1: Connecting the receiver to a smartphone for immediate use.

One Connection. Endless Power.

Featuring a built-in 3-in-1 receiver (Lightning/USB-C/USB-A) and an ultra-long 40H battery life.

Seamlessly switch between iPhone 16, Android, or PC and record all day without ever hitting "low battery."

The image shows the SHISUO A5 system components on a dark surface. A black charging case with a white interior is open, with a black receiver device inside. To the right of the case, the text '30H = 40H' is displayed in white. Below this, there are two USB cables: one with a USB-A connector and another with a USB-C connector. A small black receiver device with the SHISUO logo and a blue light indicator is also shown. The text '10H+' is written in large white letters at the bottom left of the image.

Image 3.2: Universal 3-in-1 connectivity of the SHISUO A5 system with different device types.

4. OPERATING INSTRUCTIONS

4.1 Basic Operation

- **Power On/Off:** Microphones power on automatically when removed from the charging case and power off when returned.
- **Pairing:** The microphones automatically pair with the receiver upon power-on. A solid blue light indicates a successful connection.
- **Recording:** Once connected, open your device's recording application and begin recording. The system will capture audio from the wireless microphones.

4.2 Advanced Features

- **AI Noise Cancellation:** The upgraded AI chip actively suppresses background noise. For enhanced outdoor performance, attach the furry windscreens.
- **Real-Time Monitoring:** Use the provided earphones plugged into the receiver to monitor audio input during recording. This helps in adjusting microphone placement and ensuring clear sound.
- **Dual-Device Recording:** With two receivers, you can record audio simultaneously on two separate devices, ideal for multi-camera setups or audio backup.

Video 4.2: A demonstration comparing audio quality before and after using the SHISUO A5 lavalier microphone, showcasing its noise reduction capabilities.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the microphones and receivers. Avoid using liquids or abrasive cleaners.
- **Storage:** Store the system in its charging case when not in use to protect it from dust and damage, and to keep it charged.
- **Battery Care:** For optimal battery life, avoid fully discharging the devices frequently. Charge regularly, even if not in constant use.

6. TROUBLESHOOTING

- **No Audio/Poor Quality:**
 - Ensure microphones and receiver are fully charged and properly connected.
 - Check if the receiver is securely plugged into your device.

- Verify that your device's audio input settings recognize the external microphone (e.g., 'USB Audio 1.0' on iOS).
 - Confirm that the microphone is not muted.
 - If experiencing wind noise, ensure furry windscreens are properly installed.
- **Connection Issues:**
 - Ensure both microphones and receiver are within the 328ft (100m) operating range.
 - Restart both the microphones and your recording device.
 - Avoid obstructions or strong electromagnetic interference that may disrupt the 2.4GHz signal.
 - **Device Compatibility:** While designed for broad compatibility, some specific device models or operating system versions may have unique requirements. Ensure your device's software is up to date.

7. SPECIFICATIONS

Feature	Detail
Model Name	A5
Brand	SHISUO
Microphone Form Factor	Lavalier
Connectivity Technology	2.4GHz, USB
Connector Type	USB Type-C/USB/USB-C/Lightning
Compatible Devices	iPhone, iPad, Android, PC, MacBook
Special Feature	Noise Reduction
Polar Pattern	Omnidirectional
Number of Channels	2
Signal-to-Noise Ratio	58 dB
Frequency Response	20 KHz
Item Weight	3.2 Ounces
Item Dimensions (L x W x H)	3.66 x 1.5 x 1.5 inches
Power Source	Battery Powered
Battery Type	Lithium Polymer
Battery Life (per mic)	10 hours
Total Battery Life (with case)	40 hours
