SETUP

1. Initial Charging

1. Connect the provided charger to the laptop's DC 3.5 power input port.
2. Plug the charger into a power outlet.
3. Allow the laptop to charge for at least 30 minutes before initial use, or until the battery indicator shows a sufficient charge.

2. Powering On

1. Open the laptop lid.
2. Press the power button located on the keyboard.
3. Follow the on-screen instructions to complete the Windows 11 Pro initial setup, including language selection, network connection, and user account creation.

OPERATING INSTRUCTIONS

Using Windows 11 Pro

Your laptop comes pre-installed with Windows 11 Pro. Familiarize yourself with the operating system's interface and features. Microsoft provides extensive online documentation and tutorials for Windows 11.

Connecting to Wi-Fi

1. Click the Wi-Fi icon in the taskbar.
2. Select your desired network from the list.
3. Enter the network password if prompted and click 'Connect'.

Using Bluetooth Devices

1. Go to 'Settings' > 'Bluetooth & devices'.
2. Ensure Bluetooth is turned 'On'.
3. Select 'Add device' and follow the instructions to pair your Bluetooth device.

Fingerprint Reader

To set up fingerprint login:

1. Go to 'Settings' > 'Accounts' > 'Sign-in options'.
2. Under 'Windows Hello Fingerprint', click 'Set up' and follow the on-screen prompts to register your fingerprint.

Backlit Keyboard

The backlit keyboard can be toggled on or off, and its brightness adjusted, using specific function keys (refer to your keyboard layout for the exact key combination, often Fn + F key).

Connecting External Displays

Use the Mini HDMI port or the Full-Function Type-C port to connect an external monitor or projector. Press **Windows key + P** to select display modes (Duplicate, Extend, Second screen only).

MAINTENANCE

Cleaning

- Use a soft, lint-free cloth to clean the screen and exterior surfaces.
- For stubborn marks, slightly dampen the cloth with water or a screen cleaner. Avoid harsh chemicals.
- Ensure the laptop is powered off and unplugged before cleaning.

Battery Care

- Avoid fully discharging the battery frequently.
- Store the laptop in a cool, dry place if not used for extended periods, with the battery charged to about 50%.
- Use only the provided charger.

Software Updates

Regularly check for and install Windows updates to ensure system stability, security, and performance.

TROUBLESHOOTING

Laptop Does Not Power On

- Ensure the charger is securely connected to both the laptop and a working power outlet.
- Verify the power outlet is functional by plugging in another device.
- Allow the laptop to charge for some time before attempting to power it on again.

No Wi-Fi Connection

- Check if Wi-Fi is enabled in Windows settings.
- Restart your router and modem.
- Ensure you are selecting the correct network and entering the correct password.

Screen is Blank or Flickering

- Restart the laptop.
- If an external display is connected, try disconnecting it.
- Update your display drivers through Windows Update or the manufacturer's website.

Slow Performance

- Close unnecessary applications running in the background.
- Check for and install any pending Windows updates.
- Run a disk cleanup and defragmentation (for HDD, not necessary for SSD).
- Scan for malware or viruses.
