Lamshaw 2.84mm charger

Lamshaw Smart Watch Charger User Manual

Magnetic Replacement Charging Cable for Mingtawn Smart Watches

Introduction Compatibility Setup Operation Maintenance Troubleshooting Specifications

1. Introduction

Thank you for choosing the Lamshaw Magnetic Replacement Charging Cable for your Mingtawn Smart Watch. This manual provides essential information on the product's features, compatibility, setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your charger.

Figure 1.1: The Lamshaw Magnetic Smart Watch Charger, featuring a coiled cable with a USB-A connector on one end and a magnetic 2-pin charging dock on the other.

2. Compatibility

This charger is designed to be compatible with specific Mingtawn Smart Watch models. Please verify your watch model and the corresponding charger size before use.

- **2.84mm charger:** Compatible with Mingtawn S666 Smart Watch.
- **2.84mm-1 charger:** Compatible with Mingtawn H76 and T17 Smart Watches.
- **7.62mm charger:** Compatible with Mingtawn AK75 and DA03 Smart Watches.

Figure 2.1: Visual guide detailing the compatibility of different charger sizes (2.84mm, 2.84mm-1, 7.62mm) with various Mingtawn Smart Watch models (S666, H76, T17, AK75, DA03).

3. Setup

Setting up your Lamshaw Smart Watch Charger is straightforward. Follow these steps to begin charging your device.

1. **Connect to Power Source:** Insert the USB-A end of the charging cable into a compatible USB power adapter (e.g., wall charger, computer USB port, power bank). Ensure the power source provides 5 Volts output.
2. **Position Smart Watch:** Place your Mingtawn Smart Watch onto the magnetic charging dock. The magnetic pins on the charger will automatically align with the charging contacts on your smartwatch.

3. **Verify Connection:** Once properly connected, your smartwatch should indicate that it is charging (e.g., a charging icon or battery percentage increase).

Figure 3.1: A detailed view of the charger's USB-A plug and the magnetic 2-pin charging head, highlighting the robust connection points.

4. Operation

The Lamshaw Smart Watch Charger is designed for simple and efficient operation.

4.1 Magnetic Charging

The charger features strong magnetic absorption, ensuring a secure and stable connection with your smartwatch. Charging begins immediately upon proper alignment.

Figure 4.1: An illustrative diagram demonstrating the strong magnetic connection and immediate charging capability when the smartwatch is placed on the charger.

4.2 Portability

The lightweight and compact design makes this charger easy to carry. It can be conveniently stored in your bag, making it ideal for travel, office, or car use.

5. Maintenance

Proper care and maintenance will extend the life of your Lamshaw Smart Watch Charger.

- **Cleaning:** Use a soft, dry cloth to wipe the charging contacts and cable. Avoid using liquid cleaners or abrasive materials.
- **Storage:** When not in use, coil the cable neatly. The flexible PVC cable is designed for easy rolling and convenient storage.
- **Avoid Damage:** Do not bend the cable excessively at sharp angles, although it features a reinforced design for durability. Avoid exposing the charger to extreme temperatures or moisture.

Figure 5.1: Illustration of the charger's reinforced design, highlighting its sturdy cord, safe charging capabilities, and resistance to bending (tested for over 6000 bends).

Figure 5.2: A detailed breakdown of the cable's construction, showcasing its multi-layer shielding for stable performance, flexible PVC outer layer for easy handling, and pure copper probe for rapid and stable conduction.

6. Troubleshooting

If you encounter issues with your charger, refer to the following common problems and solutions.

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Smartwatch not charging.	◦ Improper alignment of magnetic contacts. ◦ Faulty USB power source. ◦ Incompatible smartwatch model. ◦ Dirty charging contacts.	◦ Re-align the smartwatch on the magnetic dock until it clicks into place. ◦ Try a different USB port or power adapter. ◦ Verify your smartwatch model is listed in the compatibility section. ◦ Clean the charging contacts on both the charger and smartwatch with a dry cloth.
Slow charging.	◦ Low power output from USB source. ◦ Background apps on smartwatch.	◦ Ensure your USB power source provides sufficient current (e.g., 1A output). ◦ Close unnecessary applications on your smartwatch.

Problem	Possible Cause	Solution
Charger feels warm.	◦ Normal operation during charging. ◦ Overload or short circuit.	◦ Slight warmth is normal. If it becomes excessively hot, disconnect immediately. ◦ Disconnect the charger and smartwatch. Check for any visible damage or debris in the contacts. Do not use if damaged.

7. Specifications

Technical specifications for the Lamshaw Smart Watch Charger.

Feature	Detail
Brand	Lamshaw
Model (Current Variant)	2.84mm charger (Black)
Connectivity Technology	USB
Connector Type	2-Pin Magnetic
