SETUP AND ASSEMBLY

Follow the step-by-step instructions provided in the included manual. The set offers two distinct building styles. Choose your preferred style before beginning or follow the instructions to convert between them.

1. **Preparation:** Unpack all bags and organize pieces by type or color as suggested in the manual.
2. **Building Process:** Follow the numbered steps in the instruction booklet. Each step illustrates the pieces required and their placement.
3. **Lighting Installation:** Integrate the lighting components as indicated in the manual during the assembly process. Ensure wires are gently attached and routed to avoid damage.
4. **Sticker Application:** Apply stickers carefully to designated pieces. They can be readjusted if not applied correctly initially.

OPERATING THE LIGHTING SET

The Reobrix Izakaya Shop includes an integrated lighting set to illuminate the model.

- **Power Source:** The lighting set is powered manually. Connect the power source as instructed in the assembly manual.
- **Activation:** Once connected, the lights will illuminate, simulating the cozy atmosphere of an Izakaya at night.
- **Deactivation:** Disconnect the power source to turn off the lights.

MAINTENANCE

To ensure the longevity and appearance of your Reobrix building set:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the model in a cool, dry place away from direct sunlight to prevent discoloration or warping of plastic parts.
- **Handling:** Handle the assembled model with care to prevent pieces from detaching.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Missing pieces during assembly.	Packaging error or pieces misplaced.	Carefully re-check all packaging and sorting trays. If pieces are genuinely missing, contact Reobrix customer support.
Lights not working.	Incorrect wiring or power source issue.	Review the lighting installation steps in the manual to ensure all connections are secure and correctly oriented. Verify the power source is functional.
Model unstable or pieces detaching.	Incorrect assembly or loose connections.	Re-examine the assembly steps for the affected section. Ensure all blocks are firmly pressed together.
