3. Setup

3.1 Unpacking

Remove the TV from its packaging. It is recommended to retain the original packaging for future transport or service needs. Handle the screen with care to avoid damage.

3.2 Stand Installation

If using the table-top stand:

1. Place the TV screen-down on a soft, flat surface to prevent scratches.
2. Align each stand leg with the corresponding slots on the bottom of the TV.
3. Secure the stand legs using the provided screws.

3.3 Wall Mount Installation

If wall-mounting the TV, use the provided wall mount bracket. Professional installation is recommended to ensure proper and secure mounting.

3.4 Connecting Power

Connect the power cable to the TV's power input and then plug it into a suitable electrical outlet. Ensure the power supply matches the TV's voltage requirements.

3.5 Initial Setup

Upon first power-on, the TV will guide you through the initial setup process, including language selection, network connection, and channel scanning. Follow the on-screen instructions.

4. Operating Your TV

4.1 Remote Control

The TV comes with a smart remote control. Insert two AAA batteries (not included) into the remote. The remote uses infrared technology. Point the remote directly at the TV's IR sensor for optimal response.

4.4 Picture and Sound Settings

Access the TV's settings menu to adjust picture modes (e.g., Standard, Vivid, Movie), brightness, contrast, and color. Sound settings allow you to select sound modes (e.g., Standard, Music, Movie) and adjust bass/treble levels.

5. Maintenance

5.1 Cleaning the Screen

Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water or a specialized screen cleaner. Avoid using harsh chemicals, alcohol, or abrasive materials.

5.2 Cleaning the TV Body

Use a soft, dry cloth to clean the TV's frame and back panel. Do not allow liquids to enter the TV's vents or openings.

5.3 Safety Precautions

- Always unplug the TV before cleaning or performing any maintenance.
- Keep the TV away from direct sunlight, heat sources, and excessive dust.
- Ensure proper ventilation around the TV to prevent overheating.

6. Troubleshooting

If you encounter issues with your TV, refer to the following common problems and solutions:

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
No Power	Check if the power cable is securely connected to both the TV and the power outlet. Ensure the power outlet is functional. Try pressing the power button on the TV itself.
No Picture, but Sound is Present	Verify the correct input source is selected. Check cable connections from external devices. Adjust brightness and contrast settings.
No Sound, but Picture is Present	Check the volume level and ensure the TV is not muted. Verify audio cable connections. Check external audio device settings if applicable.
Cannot Connect to Wi-Fi	Ensure your Wi-Fi router is on and working. Re-enter the Wi-Fi password carefully. Try restarting both the TV and the router.
Remote Control Not Working	Check and replace the batteries in the remote control. Ensure there are no obstructions between the remote and the TV's IR sensor.
