

VEGER V1202

VEGER 10000mAh Portable Charger V1202 User Manual

Model: V1202

1. INTRODUCTION

Welcome to the VEGER 10000mAh Portable Charger V1202. This device is designed to provide convenient and efficient power on the go for your electronic devices. It features a 10000mAh capacity, 22.5W Power Delivery (PD) fast charging, and integrated USB-C and iOS-compatible cables. Please read this manual carefully to ensure proper use and optimal performance.

2. IMPORTANT SAFETY INFORMATION

To prevent injury or damage to your device, please observe the following safety precautions:

- Do not expose the power bank to extreme temperatures (above 60°C/140°F) or direct sunlight.
- Avoid contact with water or other liquids.
- Do not disassemble, modify, or attempt to repair the device.
- Keep out of reach of children.
- Do not drop, puncture, or apply excessive force to the power bank.
- Dispose of the power bank according to local regulations. Do not dispose of it in household waste.
- Use only certified charging cables and adapters.

3. PRODUCT OVERVIEW

3.1 Package Contents

- 1 x VEGER 10000mAh Portable Charger V1202
- 1 x USB-A to USB-C Charging Cable (for recharging the power bank)
- 1 x User Manual
- 1 x Travel Pouch

3.2 Device Layout and Features

The VEGER V1202 portable charger is designed for convenience and efficiency. Below is an illustration of its key components and features.

Image: VEGER 10000mAh Portable Charger V1202 with built-in USB-C and Lightning cables extended, showcasing its compact design and digital display.

- **Built-in USB-C Cable:** For charging USB-C compatible devices.
- **Built-in iOS-compatible Cable:** For charging iOS devices.
- **USB-C Input/Output Port:** Functions as both an input for recharging the power bank and an output for charging devices.
- **USB-A Output Port:** For charging devices via a standard USB-A cable.
- **Digital LED Display:** Shows the exact remaining battery percentage and fast-charging indicator.
- **Power Button:** Activates the display and initiates charging.

4. SETUP: CHARGING THE POWER BANK

4.1 Initial Charge

Before first use, fully charge your VEGER V1202 power bank. This ensures optimal battery performance and longevity.

4.2 Recharging Methods

The power bank offers three input methods for recharging:

1. **Using the Built-in USB-C Cable:** Connect the built-in USB-C cable to a compatible USB power adapter (not included).
2. **Using the External USB-C Input Port:** Connect a USB-C to USB-C cable (not included) to the power bank's USB-C input port and a compatible USB power adapter.
3. **Using the iOS-compatible Input Port:** Connect an iOS-compatible cable (not included) to the power bank's iOS-compatible input port and a compatible USB power adapter.

The digital LED display will show the charging progress. When the display shows '100%', the power bank is fully charged.

5. OPERATING INSTRUCTIONS: CHARGING YOUR DEVICES

The VEGER V1202 allows you to charge various electronic devices using its built-in cables or external ports.

5.1 Using Built-in Cables

Simply pull out the integrated USB-C or iOS-compatible cable and connect it directly to your device. The power bank will automatically begin charging. The built-in cables eliminate the need to carry extra charging cords.

Image: The VEGER V1202 with its integrated USB-C and iOS-compatible cables, designed for clutter-free charging.

5.2 Using External Ports

For devices requiring a different cable or for additional charging, use the external USB-C (input/output) or USB-A (output) ports. Connect your device's charging cable to the appropriate port on the power bank, then connect the other end to your device.

5.3 Fast Charging (22.5W PD)

The power bank supports 22.5W Power Delivery (PD) fast charging via its USB-C output. When connected to a compatible device, it will deliver power at an optimized speed, significantly reducing charging time compared to standard chargers.

Image: Illustration of 22.5W PD fast charging capability, demonstrating faster charging speeds.

5.4 Charging Multiple Devices

The VEGER V1202 can charge up to four devices simultaneously using its two built-in cables and two external ports (USB-C and USB-A). Note that fast charging may not be available when charging four devices concurrently due to power distribution.

Image: The VEGER V1202 simultaneously charging four devices.

5.5 Battery Capacity Overview

With a 10000mAh capacity, the power bank provides multiple charges for various devices:

- Up to 1.7 charges for iPhone 16
- Over 1.5 charges for a Galaxy S25
- Approximately 1.2 charges for Sony Xperia 1 V
- Approximately 1.5 charges for AirPods Pro 2

Image: 10000mAh capacity and estimated charges for various devices.

6. DIGITAL LED DISPLAY

The integrated digital LED screen provides real-time information about the power bank's status:

- **Battery Percentage (0-100%):** Indicates the exact remaining power level.
- **Fast-Charging Indicator:** A lightning bolt icon will appear when fast charging is active.

Press the power button briefly to activate the display and check the battery level.

3 Ways of Recharging

7. SPECIFICATIONS

7.1 Technical Details

Feature	Detail
Model Number	V1202
Battery Capacity	10000mAh
Product Dimensions	4.57 x 2.83 x 0.66 inches
Item Weight	6.4 ounces (180g)
Input (USB-C)	5V=3A, 9V=2A, 12V=1.5A (Max 18W)
Input (iOS-compatible)	5V=2A
Output (Built-in USB-C Cable)	5V=3A, 9V=2.22A, 12V=1.67A (Max 20W PD)
Output (Built-in iOS-compatible Cable)	5V=2.4A
Output (USB-C Port)	5V=3A, 9V=2.22A, 12V=1.67A (Max 20W PD)
Output (USB-A Port)	5V=4.5A, 9V=2A, 12V=1.5A (Max 22.5W)
Total Output	Max 22.5W
Special Features	Built-in Cables, Digital Display, Fast Charging, Pocket Size, Short Circuit Protection

8. MAINTENANCE

8.1 Care and Storage

- Clean the power bank with a dry, soft cloth. Do not use harsh chemicals or abrasive materials.
- Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- If storing for an extended period, recharge the power bank every 3-6 months to maintain battery health.

- Avoid dropping or subjecting the power bank to strong impacts.

9. TROUBLESHOOTING

9.1 Common Issues and Solutions

- **Power bank not charging:**
 - Ensure the charging cable and adapter are properly connected and functional.
 - Try a different charging cable or adapter.
 - Check if the power bank's input port is clean and free of debris.
- **Device not charging from power bank:**
 - Press the power button on the power bank to activate charging.
 - Ensure the cable connecting the device to the power bank is securely connected.
 - Try a different cable or port on the power bank.
 - Check if the power bank has sufficient charge.
- **Slow charging:**
 - Ensure your device supports fast charging and that you are using a compatible cable and port (e.g., USB-C PD).
 - Charging multiple devices simultaneously may reduce individual charging speeds.
 - Environmental factors (e.g., extreme temperatures) can affect charging efficiency.
- **Digital display not working:**
 - Press the power button to activate the display.
 - If the issue persists, the power bank may require recharging.

10. WARRANTY AND CUSTOMER SUPPORT

10.1 Warranty Information

The VEGER 10000mAh Portable Charger V1202 comes with a 24-month warranty from the date of purchase, covering manufacturing defects. This warranty does not cover damage caused by misuse, accidents, unauthorized modifications, or normal wear and tear.

10.2 Contact Support

For technical support, warranty claims, or any questions regarding your VEGER product, please contact our customer service team. You can find contact information on the VEGER official website or through your purchase platform. Please have your model number (V1202) and proof of purchase ready when contacting support.

We offer reliable 7-day/24-hour friendly customer service and lifetime technical support.
