SEUNKWANG Q5

SEUNKWANG EWEADN Q5 Wireless Mouse User Manual

Model: Q5

[Introduction](#) [Features](#) [Package Contents](#) [Product Overview](#) [Setup Support](#) [Operation](#) [Maintenance](#)

1. INTRODUCTION

Thank you for choosing the SEUNKWANG EWEADN Q5 Wireless Mouse. This manual provides detailed instructions for setting up, operating, and maintaining your new mouse. Please read this manual thoroughly before use to ensure optimal performance and longevity of your device.

2. PRODUCT FEATURES

- **Dual Mode Connection:** Supports simultaneous connection to two devices via Bluetooth or 2.4G wireless technology. Seamless switching between devices for a smoother user experience.
- **Wide Compatibility:** Compatible with Windows 7/8/10/XP, Vista, Mac, and Linux. Works with laptops, desktops, PCs, and MacBooks.
- **Rechargeable Battery & Power Display:** Features a long-lasting rechargeable battery. A visible battery indicator light displays the remaining battery level, providing timely reminders for charging.
- **3 Levels Adjustable DPI & 6 Buttons:** Offers 3 adjustable DPI levels (800, 1200, 1600) for precision tracking. Includes a dedicated DPI button and 2 extra side buttons for enhanced productivity and gaming.
- **Portable & Silent Clicking:** Lightweight and portable design for easy transport. Responsive buttons provide soft, quiet clicks with significantly less noise. Features a hidden storage slot for the USB receiver.

3. PACKAGE CONTENTS

Ensure all items are present in the package:

- 1 x EWEADN Q5 Wireless Mouse

- 1 x USB Cable (for charging)
- 1 x User Manual
- 1 x 2.4G USB Receiver (stored inside the mouse)

4. PRODUCT OVERVIEW

Familiarize yourself with the components of your EWEADN Q5 Wireless Mouse:

Image: EWEADN Q5 Wireless Mouse showing mute button, 3 adjustable DPI, lightweight design, battery level display, dual-mode connection, and multi-device adaptation.

- **Left Click Button:** Standard left mouse button.
- **Right Click Button:** Standard right mouse button.
- **Scroll Wheel/Middle Button:** For scrolling and acts as a clickable middle button.
- **Forward Button (Side):** Navigates forward in web browsers or applications.
- **Back Button (Side):** Navigates backward in web browsers or applications.
- **DPI Switch Button:** Adjusts the mouse sensitivity (DPI).
- **Power Switch:** Turns the mouse ON/OFF and selects connection mode (2.4G/OFF/BT).
- **Battery Level Indicator:** Displays the current battery charge.
- **USB Receiver Slot:** Storage for the 2.4G USB receiver.
- **Charging Port:** USB-C port for recharging the mouse.

5. SETUP

5.1 Charging the Mouse

1. Connect the provided USB cable to the charging port on the front of the mouse.
2. Plug the other end of the USB cable into a USB power source (e.g., computer USB port, USB wall adapter).
3. The battery indicator lights will show charging status. A full charge typically takes approximately 2 hours.
4. When fully charged, the mouse can provide up to 60 days of usage (based on 2 hours/day usage).

Fast Charging Long-Lasting Battery Life

🕒 2 hours Fully Charged

🕒 60 Days Usage Time

500mAh

5.2 Connecting via 2.4G Wireless Mode

1. Locate the 2.4G USB receiver stored in the slot on the bottom of the mouse.
2. Plug the USB receiver into an available USB port on your computer.
3. Slide the power switch on the bottom of the mouse to the "2.4G" position. The indicator light will turn green.
4. Your computer should automatically detect and install the mouse. You are now ready to use the mouse in 2.4G mode.

Dual-Mode Connection

NOTE : Press and hold the scroll wheel button for more than three seconds until the indicator light turns blue to switch to BT mode

Image: EWEADN Q5 Wireless Mouse with the 2.4G USB receiver removed from its storage slot, demonstrating the 2.4G mode (green light) and Bluetooth mode (blue light) options.

5.3 Connecting via Bluetooth Mode

1. Slide the power switch on the bottom of the mouse to the "BT" position. The indicator light will turn blue.
2. On your computer or device, go to Bluetooth settings and enable Bluetooth.
3. Press and hold the scroll wheel button for more than three seconds until the indicator light turns blue and starts flashing, indicating pairing mode.
4. Select "EWEADN Q5" from the list of available Bluetooth devices on your computer to pair.
5. Once paired, the blue indicator light will stop flashing and remain solid.

6. OPERATING INSTRUCTIONS

6.1 Adjusting DPI Sensitivity

The EWEADN Q5 mouse offers three adjustable DPI levels (800, 1200, 1600) to suit different tasks and preferences. To change the DPI:

- Press the DPI switch button located on the top of the mouse, below the scroll wheel.
- Each press will cycle through the DPI settings. The indicator lights will briefly show the current DPI level.
- Choose the sensitivity that best fits your needs for precise control or faster cursor movement.

Image: EWEADN Q5 Wireless Mouse illustrating the 3 adjustable DPI levels: 800, 1200, and 1600, catering to different usage habits.

6.2 Using Side Buttons

The mouse includes two side buttons for quick navigation:

- The **Forward Button** (upper side button) typically moves forward in web browsers or file explorers.
- The **Back Button** (lower side button) typically moves backward in web browsers or file explorers.
- These buttons may have different functions depending on the application or operating system.

6.3 Battery Level Display

The battery indicator lights on the top of the mouse provide a quick visual of the remaining battery life:

- **Two lamps on:** Battery level is above 75%.
- **One lamp on:** Battery level is below 50%.
- **Flashing lamps:** Battery level is below 25%, indicating that charging is needed soon.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the mouse. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the USB receiver in its designated slot on the bottom of the mouse to prevent loss.
- **Battery Care:** To prolong battery life, avoid fully discharging the mouse frequently. Charge it when the indicator lights show low battery.
- **Environment:** Keep the mouse away from extreme temperatures, direct sunlight, and liquids.

8. TROUBLESHOOTING

8.1 Mouse Not Responding

- **Check Power:** Ensure the mouse is turned ON and has sufficient battery charge. Recharge if necessary.
- **Check Connection (2.4G):** Verify the USB receiver is securely plugged into a working USB port. Try a different USB port.
- **Check Connection (Bluetooth):** Ensure Bluetooth is enabled on your device and the mouse is correctly paired. Try re-pairing the mouse.
- **Switch Modes:** If using dual mode, ensure the mouse is set to the correct connection mode (2.4G or BT) for your device.
- **Restart:** Restart your computer or device.

8.2 Intermittent Connection

- **Distance:** Ensure the mouse is within the effective range of your device (typically up to 10 meters for wireless).
- **Interference:** Move the mouse away from other wireless devices or large metal objects that might cause interference.
- **Battery:** Low battery can cause connection issues. Recharge the mouse.

8.3 Cursor Movement is Erratic or Slow

- **Surface:** Use the mouse on a clean, non-reflective surface. A mouse pad is recommended.
- **DPI Setting:** Adjust the DPI setting to a higher value if the cursor is too slow, or a lower value if it's too fast.
- **Sensor:** Ensure the optical sensor on the bottom of the mouse is clean and free from obstructions.

9. SPECIFICATIONS

Feature	Detail
