## faroro PF21SB

# Faroro Automatic Cat Feeder (Model PF21SB) User Manual

4L Capacity with Portion Control, Voice Recording, and Dual Power Supply

## IMPORTANT SAFETY INFORMATION

---

Please read all instructions carefully before using the Faroro Automatic Cat Feeder. Keep this manual for future reference.

- This feeder is designed for indoor use only.
- Use only dry pet food with kibble sizes between 2mm and 15mm. Larger kibble may cause jams.
- Regular cleaning of the feeder components is essential to ensure your pet's health and prevent food blockages.
- The main unit contains electronic components and should never be submerged in water. Wipe clean with a damp cloth.
- Keep out of reach of children and pets when not in use or during cleaning.

## PACKAGE CONTENTS

---

Verify that all items are present in the package:

- 1 x Faroro Automatic Cat Feeder (4L)
- 1 x Charging Cable
- 1 x Power Adapter
- 1 x Stainless Steel Bowl
- 1 x User Manual

# Faroro Timer Pet Feeder

Thoughtful design to bring you closer to your beloved pet

Simple and natural White / Versatile Black  
to suit any room

Enjoy more comfortable and happy days  
with your pet

## SETUP

---

### 1. Assembly

1. Remove the cover and food tank from the main unit.
2. Take out all included internal accessories from the food tank.
3. Switch the lock on the main unit to the "up" position to unlock.
4. Install the food tank onto the main unit, ensuring it is securely seated.
5. Close the cover by turning it clockwise until it locks.
6. Place the main unit onto the bowl assembly with the stainless steel bowl inserted.

## Easy to Clean, Hassle-Free Maintenance

1 Remove the feeding bowl and stainless steel tray

2 Take off the cover

3 Remove the food tank

4 Pull out the auger for complete disassembly

### Four simple steps for disassembly and cleaning

All parts except the main unit are fully washable

Keep the feeder clean at all times to protect your pet's health

The main unit contains electronic components; do not wash with water

Image: Easy Assembly. This image illustrates the six steps for assembling the feeder, from removing the cover to placing the main unit on the bowl assembly.

## 2. Power Supply

The feeder supports dual power supply options:

- **USB Adapter:** Connect the provided USB cable to the feeder and the power adapter, then plug it into a wall outlet.
- **D-Cell Batteries:** For backup power during outages, insert 3 D-cell batteries (not included) into the battery compartment at the bottom of the feeder.

Using both power sources simultaneously ensures uninterrupted operation.

# Dual Power Supply

Ensure uninterrupted feeding, even during a power outage

Image: Dual Power Supply. This image shows the feeder powered by both a USB adapter plugged into a wall socket and D-cell batteries for reliable operation.

### 3. Fill Food Tank

Open the lid and pour dry pet food into the 4L food tank. Ensure the kibble size is between 2mm and 15mm to prevent clogging.

# Customizable Feeding for Your Pet

Recommended Pellet Size:  
2mm–15mm

2mm

10mm

15mm

Suitable Food Types:

Dry kibble

Freeze-dried  
food

Air-dried  
(naturally dried)  
food

※ This feeder supports pellet sizes from 2–15mm. Standard dry or semi-moist food can be used.

※ Do not use pellets larger than 15mm, as they may cause clogging.

- Daily Feeding Times: 1–6 meals
- Portion Counts per Meal: 1–30 servings
- Meal Size: Approximately 8–10g

By freely combining these settings, you can easily manage precise feeding for kittens and small dogs or provide ample portions for larger dogs.

Image: Automatic Feeding. A cat is shown eating from the feeder, illustrating the convenience of automated meal delivery.

## OPERATING INSTRUCTIONS

### 1. Setting Feeding Schedule

The feeder allows you to customize your pet's feeding routine with up to 6 meals per day and up to 30 portions per meal (approximately 10g per portion).

- Use the control panel buttons to set the current time.
- Program each mealtime and the desired number of portions.
- Refer to the detailed instructions in the included user manual for specific button functions and programming steps.

# Customized Feeding Schedule

Help your pets develop healthy eating habits

4L  
Capacity

1-6  
meals per day

1-30  
portions per meal

10g  
per portion

Image: Customized Feeding Schedule. This image highlights the feeder's ability to set a personalized feeding schedule, including capacity, meal frequency, and portion sizes.

## 2. Slow Feed Mode

To prevent fast eating, gulping, bloating, and digestive discomfort, activate the Slow Feed mode. This dispenses food gradually over a longer period. Consult the full user manual for instructions on enabling this feature.

## 3. Voice Recording Function

Record a 10-second voice message to call your pet at meal times. Your familiar voice can provide comfort and reduce separation anxiety.

1. Press and hold the record button (usually indicated by a microphone icon) until you hear a beep.
2. Speak your message clearly into the microphone.

3. Release the button when finished. The recording will play during scheduled meal times.

Image: Voice Recording for 10s. This image shows a cat responding to the feeder, illustrating the voice recording feature that calls pets to eat.

## MAINTENANCE

---

### 1. Cleaning Instructions

Regular cleaning ensures hygiene and proper functioning of the feeder.

- **Stainless Steel Bowl:** The stainless steel bowl is dishwasher safe for easy cleaning.
- **Food Hopper, Lid, Rotor, and Bowl Tray:** These components can be washed with water and mild detergent. Ensure they are completely dry before reassembly.

- **Main Unit Base:** The base contains electronic components. **Do not submerge in water.** Wipe it clean with a soft, damp cloth.

## Easy to Clean

Detachable structure for a hygienic feeding environment

Image: Easy to Clean. This image shows the feeder's detachable parts (lid, food tank, bowl tray, stainless steel bowl) being cleaned under running water, emphasizing its hygienic design.

## Easy Assembly

## Simple Setup, Ready to Use

Image: Easy to Clean, Hassle-Free Maintenance. This image provides a visual guide for disassembling the feeder for cleaning, clearly indicating washable parts and warning against submerging the electronic base.

## 2. Recommended Food Types

The feeder is suitable for dry kibble, freeze-dried food, and air-dried food. Ensure the pellet size is between 2mm and 15mm. Do not use pellets larger than 15mm, as they may cause clogging. Wet food is not compatible with this feeder.

Image: Customizable Feeding for Your Pet. This image details the recommended kibble size and types of dry food compatible with the feeder, along with a warning about larger pellets.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food tank is empty. Kibble size is too large, causing a jam. Power supply issue.	Refill the food tank. Check kibble size (2-15mm recommended). Clear any blockages. Ensure power adapter is securely plugged in or batteries are correctly installed and charged.
Voice recording not playing.	No message recorded or recording failed.	Re-record your 10-second message following the instructions in the 'Operating Instructions' section.
Feeder not turning on.	No power supply.	Check power adapter connection. If using batteries, ensure they are new and correctly inserted.
Food becoming stale or moist.	Lid not properly sealed. Desiccant bag needs replacement.	Ensure the lid is securely closed and twisted clockwise. Replace the desiccant bag regularly to maintain freshness.
