

ANRAN C3, Q01

ANRAN 2K Solar Security Camera User Manual

Models: C3 & Q01

1. INTRODUCTION

Thank you for choosing the ANRAN 2K Solar Security Camera. This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your C3 and Q01 wireless outdoor security cameras. Please read this manual thoroughly before use to ensure proper installation and optimal performance. Keep this manual for future reference.

2. WHAT'S IN THE BOX

Verify that all components are present in your package. If any items are missing or damaged, please contact ANRAN customer support.

Image: Overview of the ANRAN C3 and Q01 solar security cameras along with their included accessories.

Package Contents:

- ANRAN C3 Solar Security Camera (Quantity as per pack)
- ANRAN Q01 Solar Security Camera (Quantity as per pack)
- Solar Panel (Integrated for C3, separate for Q01)
- Mounting Brackets and Screws
- USB Charging Cable
- User Manual

3. PRODUCT OVERVIEW

3.1 ANRAN C3 Camera Features

The ANRAN C3 camera is a compact, wire-free security camera with an integrated solar panel for continuous power. It offers 2K resolution and color night vision.

Super 2K HD Clarity

Image: A close-up view of the ANRAN C3 camera, emphasizing its 2K HD clarity capabilities.

- **Integrated Solar Panel:** Efficiently converts solar energy to power the camera.
- **2K Resolution:** Provides clear and detailed video footage (2048 x 1536 pixels).
- **PIR Motion Detection:** Detects human movement accurately, reducing false alarms.
- **Color Night Vision:** Built-in spotlights enable full-color video even in low-light conditions.
- **Two-Way Audio:** Allows communication through the camera.
- **Weatherproof Design:** Suitable for outdoor use in various weather conditions.

Rechargeable Battery & Solar Power

Uninterrupted Power Supply for Continuous Safety

Image: The ANRAN C3 camera shown operating effectively in both sunny and rainy outdoor environments, demonstrating its weather resistance.

Multi Alarm Modes

Intelligent Human Detection Reduce False Detection

Image: The ANRAN C3 camera demonstrating its PIR motion detection feature, accurately identifying a person while ignoring a pet, indicating high accuracy.

3.2 ANRAN Q01 Camera Features

The ANRAN Q01 camera is a PTZ (Pan-Tilt-Zoom) security camera designed for wider coverage, featuring a separate solar panel for flexible installation.

PIR Motion Detection

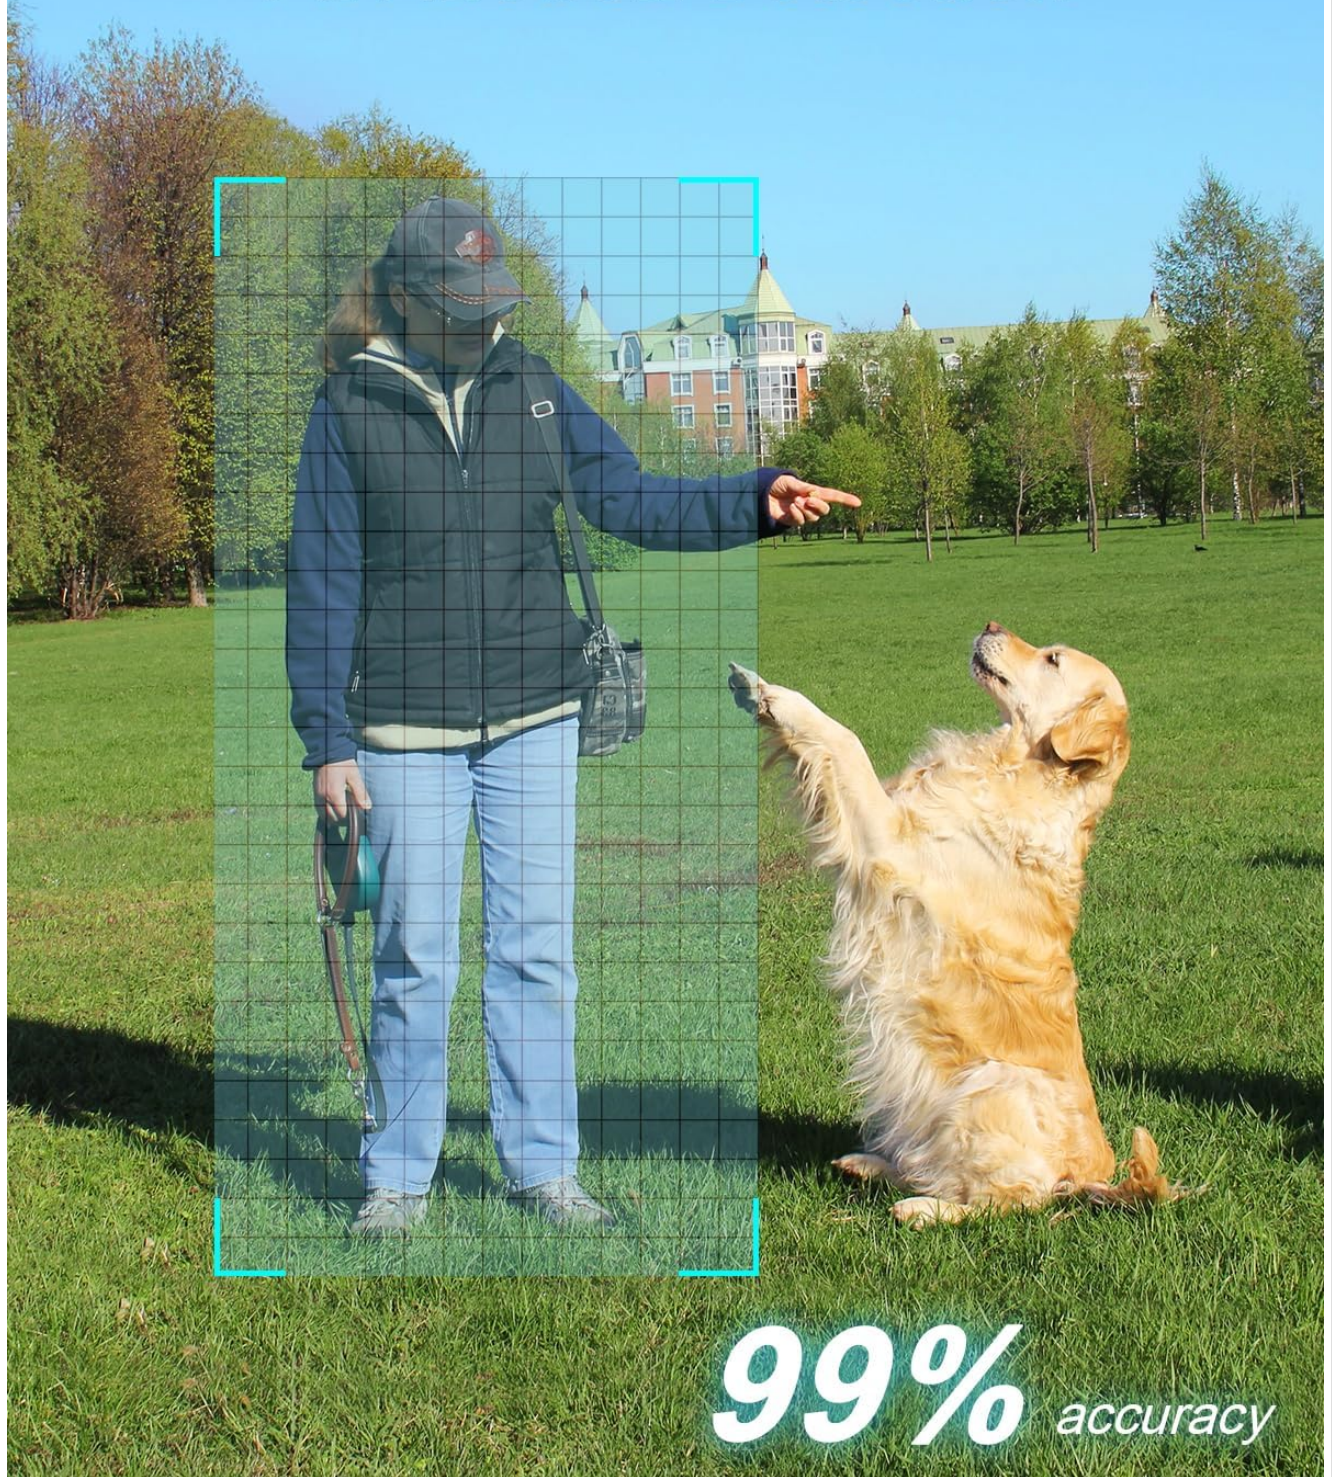

Image: The ANRAN Q01 2K PTZ solar camera showcasing its key features including 2K resolution, 2-way audio, motion alert, TF card/cloud storage, color night vision, IP65 waterproof rating, compatibility with Alexa/Google Home, and PIR/person detection.

- **2K Resolution:** Delivers high-definition video quality.
- **Pan & Tilt Functionality:** Offers 355° horizontal pan and 90° vertical tilt for comprehensive area monitoring.
- **Separate Solar Panel:** Allows for optimal placement of the solar panel to maximize sun exposure.
- **Color Night Vision:** Provides clear, full-color video at night.
- **PIR Motion Detection & Multi-Alarm Modes:** Advanced detection with various alert options.
- **Two-Way Audio:** Enables real-time communication.

- **Wi-Fi Connectivity:** Supports 2.4GHz Wi-Fi networks.

Ready For Anyweather, Anywhere

Image: The ANRAN Q01 camera illustrating its 355° pan and 90° tilt capabilities, designed to cover every corner of your house.

355° Pan & 90° Tilt

Cover Every Corner of Your House

Image: A comparison of the ANRAN Q01 camera's night vision, showing a black and white view without a spotlight and a clear color night vision view with a spotlight, both in 2K FHD resolution.

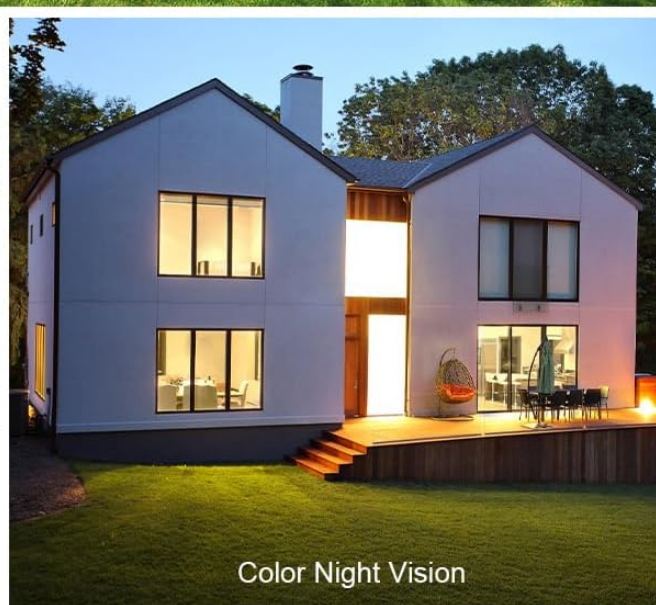

Image: The ANRAN Q01 camera demonstrating its multi-alarm modes, including motion alarm notifications, siren activation, and real-time notifications for intelligent human detection to reduce false alarms.

4. SETUP GUIDE

4.1 Initial Charging

Before first use, fully charge the camera's built-in battery using the provided USB cable and a 5V/2A power adapter (not included). A full charge typically takes 8-10 hours. The indicator light will change color (e.g., red to blue) when fully charged.

4.2 App Installation

1. Download the 'ANRAN' app from the App Store (iOS) or Google Play Store (Android).
2. Register a new account or log in if you already have one.

4.3 Wi-Fi Connection

Ensure your Wi-Fi network is 2.4GHz. These cameras do not support 5GHz Wi-Fi.

1. Open the ANRAN app and tap '+' to add a new device.
2. Follow the on-screen instructions to select your camera model.
3. Power on the camera. If the indicator light is not flashing blue, press and hold the reset button for 5 seconds until it flashes.
4. Enter your 2.4GHz Wi-Fi network name and password in the app.
5. Scan the QR code displayed on your phone with the camera lens. Hold the phone 15-20 cm (6-8 inches) away from the camera.
6. Once connected, the camera will emit a prompt sound, and the indicator light will turn solid blue.

4.4 Mounting Instructions

Choose a location with good Wi-Fi signal and direct sunlight exposure for the solar panel. Avoid placing the camera behind glass or in areas with frequent false triggers (e.g., busy streets).

1. **Mark Drilling Positions:** Use the mounting bracket as a template to mark screw holes on the wall.
2. **Drill Holes:** Drill holes at the marked positions and insert wall anchors if necessary.
3. **Attach Bracket:** Secure the mounting bracket to the wall with screws.
4. **Mount Camera:** Attach the camera to the bracket. For Q01, connect the solar panel cable to the camera after mounting.
5. **Adjust Angle:** Adjust the camera angle for optimal viewing and ensure the solar panel receives maximum sunlight.

5. OPERATING YOUR CAMERA

5.1 Live View

Open the ANRAN app and tap on the camera's thumbnail to access the live view. You can pinch to zoom, take screenshots, or record video manually.

5.2 Motion Detection Settings

The cameras use PIR (Passive Infrared) sensors to detect heat signatures from moving objects, primarily humans, to minimize false alarms.

- Navigate to 'Settings' > 'Motion Detection' in the app.
- Adjust sensitivity levels (Low, Medium, High) to suit your environment.
- Set detection zones or activity areas if available for your model (Q01).
- Enable or disable push notifications for motion events.

5.3 Two-Way Audio

From the live view screen, tap the microphone icon to speak through the camera's speaker. Tap the speaker icon to listen to audio from the camera's microphone.

5.4 Night Vision Modes

Both C3 and Q01 cameras offer color night vision. You can typically switch between modes in the app settings:

- **Black & White Night Vision:** Uses infrared LEDs for clear monochrome images in darkness.
- **Color Night Vision:** Activates built-in spotlights to provide full-color video at night.

5.5 Recording and Playback

Recordings are triggered by motion detection. You can access them via the app.

- **Cloud Storage:** Optional subscription service for storing video recordings securely online.
- **Local Storage:** Insert a Micro SD card (up to 128GB, not included) into the camera's SD card slot for local storage.
- To view recordings, go to 'Playback' or 'Event History' in the app.

5.6 Sharing Access

You can share camera access with family members or trusted individuals through the ANRAN app. Go to 'Settings' > 'Share Device' and follow the instructions to invite others.

6. MAINTENANCE

6.1 Cleaning

- Regularly clean the camera lens and solar panel with a soft, damp cloth to ensure optimal performance and charging efficiency.
- Do not use harsh chemicals or abrasive materials.

6.2 Battery Management

- Monitor the battery level in the ANRAN app.
- If the camera is in a shaded area or during prolonged cloudy weather, manual charging via USB may be required.
- Ensure the solar panel is free from obstructions (leaves, dirt) for efficient charging.

6.3 Firmware Updates

ANRAN may release firmware updates to improve performance or add new features. Check for updates in the app's settings menu and follow the instructions to install them.

7. TROUBLESHOOTING

Issue	Possible Cause	Solution
Camera fails to connect to Wi-Fi	Incorrect Wi-Fi password; 5GHz Wi-Fi network; weak signal; camera too far from router	Verify password; ensure 2.4GHz network; move camera closer to router; reset camera and try again
Poor image quality	Dirty lens; low light; network bandwidth issues	Clean lens; ensure adequate lighting or enable color night vision; check Wi-Fi signal strength
Motion detection not working or too many false alarms	Incorrect sensitivity settings; obstructions; environmental factors (e.g., swaying branches)	Adjust PIR sensitivity; clear obstructions; reposition camera to avoid unwanted triggers

Issue	Possible Cause	Solution
Battery not charging via solar panel	Insufficient sunlight; dirty solar panel; panel obstruction	Ensure direct sunlight exposure for several hours daily; clean solar panel; reposition panel if separate (Q01)
Two-way audio not working	Microphone/speaker disabled in app; volume too low; network delay	Check app settings for audio permissions and volume; ensure stable Wi-Fi connection

8. SPECIFICATIONS

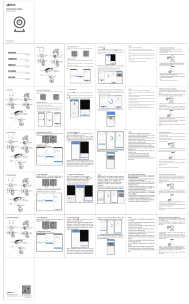

Feature	Specification
Video Resolution	2K (2048 x 1536 pixels)
Field of View (C3)	110°
Pan/Tilt Range (Q01)	355° Pan, 90° Tilt
Night Vision	Color Night Vision, IR Night Vision
Connectivity	2.4GHz Wi-Fi (IEEE 802.11b/g/n)
Power Source	Rechargeable Battery, Solar Panel
Storage Options	Micro SD Card (up to 128GB), Cloud Storage (optional)
Weather Resistance	IP65 Rated
Audio	Two-Way Audio (Built-in Microphone & Speaker)
Motion Detection	PIR (Passive Infrared) Sensor

9. WARRANTY AND SUPPORT

ANRAN products come with a limited warranty. For specific warranty details, please refer to the warranty card included with your product or visit the official ANRAN website. If you encounter any issues or have questions not covered in this manual, please contact ANRAN customer support:

- **Email:** support@anran.com (Example, please refer to actual contact information)
- **Website:** www.anran.com (Example, please refer to actual contact information)

Please have your product model and purchase information ready when contacting support.
