

WINAZ WIN-ARD32SD-WT

WINAZ Small Portable Treadmill Walking Pad Desk - 31.5 Inch White

Model: WIN-ARD32SD-WT | Brand: WINAZ

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, maintenance, and troubleshooting of your WINAZ Small Portable Treadmill Walking Pad Desk. Please read this manual thoroughly before use to ensure proper functionality and safety. Keep this manual for future reference.

PRODUCT FEATURES

- **Height Adjustable Design:** The desk offers adjustable height settings ranging from 30.7 inches to 41.9 inches. It includes a retainer with four fixed height settings to prevent slipping and ensure stable use.
- **Smooth Mobility:** Equipped with four ball-bearing swivel casters, the desk glides smoothly in any direction. Two wheels feature brakes for secure positioning.
- **Versatile Functionality:** Designed as a treadmill-compatible workstation, it can also serve as a classroom teacher podium, an adjustable wheeled standing desk, a rolling teacher lectern, or a compact laptop desk for various environments.
- **Durable Construction:** Constructed with high-quality particleboard for the desktop and a sturdy metal frame for the base, ensuring exceptional stability. The desktop features a scratch-resistant, anti-collision, and waterproof finish.
- **Easy Assembly:** Includes a detailed instruction manual and all necessary tools for quick and straightforward assembly.

SAFETY INFORMATION

- Always use the product on a stable, level surface to prevent tipping.
- Keep fingers and other body parts clear of moving parts when adjusting the height to avoid injury.

- Ensure the desk is properly secured and all locking mechanisms are engaged when in use, especially at higher settings.
- Do not overload the desktop beyond its recommended weight capacity.

PACKAGE CONTENTS

The package includes all necessary components for assembling the WINAZ Small Portable Treadmill Walking Pad Desk, along with a detailed instruction manual and the required assembly tools.

ASSEMBLY INSTRUCTIONS

The WINAZ Small Portable Treadmill Walking Pad Desk is designed for quick and easy assembly. Follow the step-by-step guide provided in the included instruction manual to ensure correct and secure setup. All necessary tools are provided.

Figure 1: Product Dimensions. A detailed diagram illustrating the key dimensions of the desk, such as its adjustable height range (30.7" to 41.9"), desktop width (31.5"), and depth (15.7"). It also indicates heavy-duty metal design and environmental protection.

Figure 2: Height Adjustment Mechanism. A detailed view of the desk's height adjustment system, highlighting the iron bolts and the four fixed height settings that ensure stability and prevent slipping.

OPERATING INSTRUCTIONS

Adjusting Height

1. Loosen the locking knobs on both vertical support poles.
2. Pull out the retainer pins from the desired height setting holes.
3. Carefully raise or lower the desktop to one of the four fixed height positions (between 30.7 and 41.9 inches).
4. Re-insert the retainer pins into the corresponding holes on both poles.
5. Tighten the locking knobs securely to fix the desk at the chosen height.

Moving the Desk

1. Ensure the wheel brakes on the casters are disengaged.
2. Gently push or pull the desk to its desired location. The 360-degree swivel casters allow for easy movement in any direction.
3. Once positioned, engage the wheel brakes on at least two casters to secure the desk and prevent unintended movement.

Using with a Walking Pad

The desk is designed to fit over most standard walking pads, creating an active workstation. Position the desk over your walking pad, adjust the height to a comfortable standing level, and ensure the wheels are locked for stability while in use.

Figure 3: Treadmill Workstation. This image shows the WINAZ portable desk positioned over a walking pad, allowing a user to work on a laptop while exercising. The desk is white and features a minimalist design.

Figure 4: Easy Movement and Locking. This image focuses on the desk's mobility, showcasing its 360-degree rotating ball-bearing swivel casters and the locking mechanism on two of the wheels for stability.

Teacher Desk A classroom teacher podium for instruction A rolling teacher lectern for flexible teaching

Figure 5: Teacher Desk Application. This image demonstrates the desk's versatility as a teacher's podium or lectern, with a user presenting from a laptop in a classroom environment.

Height Adjustable Computer Desk Effortless to adjust from sitting to standing

Figure 6: Adjustable Height for Sitting and Standing. Two users are shown with the desk; one is seated, and the other is standing, illustrating the desk's adjustable height feature for both sitting and standing work positions.

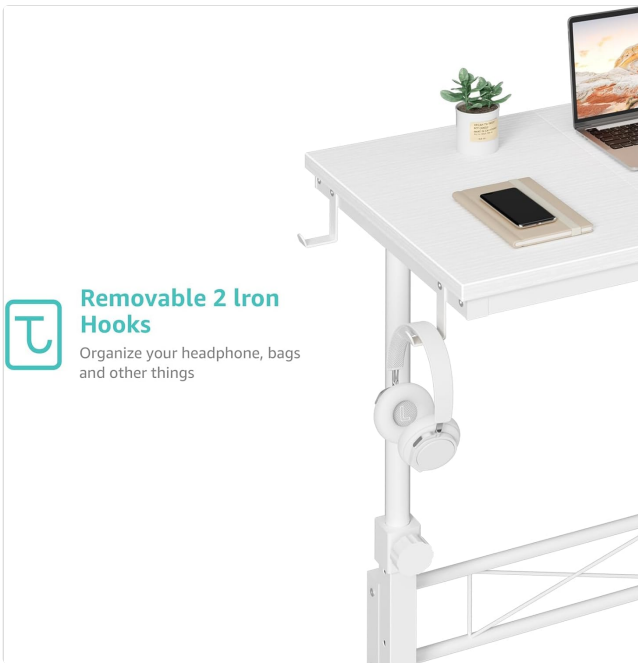

Figure 7: Removable Iron Hooks. This image displays the practical removable iron hooks located on the side of the desk, useful for organizing headphones, bags, or other accessories.

Figure 8: Durable and Stable Design. A composite image highlighting key features: the waterproof desktop surface, the highly stable double-support desktop design, and the smooth-gliding swivel casters.

MAINTENANCE

- **Cleaning:** Wipe the desktop surface with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these may damage the finish.
- **Caster Maintenance:** Periodically check the wheels for any debris or hair accumulation that might hinder smooth movement. Clean as necessary. If wheels become stiff, a small amount of lubricant can be applied to the swivel mechanism.
- **Structural Integrity:** Regularly inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten any loose fasteners to maintain the desk's stability.

TROUBLESHOOTING

- **Issue: Desk feels wobbly, especially at higher settings.**

Solution: Ensure all locking knobs and retainer pins are fully tightened and securely engaged in their respective height adjustment holes. Verify that the desk is placed on a flat, level surface. Distribute items on the desktop evenly to prevent imbalance.

- **Issue: Wheels do not completely stop movement when brakes are engaged.**

Solution: Confirm that the wheel brakes are fully pressed down and engaged. On certain floor types (e.g., very smooth or uneven surfaces), slight movement may still occur. Consider placing the desk on a non-slip mat for enhanced stability if critical.

- **Issue: Difficulty adjusting desk height.**

Solution: Ensure both locking knobs are sufficiently loosened and retainer pins are fully disengaged before attempting to adjust the height. Check for any obstructions in the adjustment holes or poles.

SPECIFICATIONS

Attribute	Specification
Brand	WINAZ
Model Number	WIN-ARD32SD-WT
Product Dimensions (D x W x H)	15.7"D x 31.5"W x 29.5"H
Minimum Height	30.7 Inches
Maximum Height	41.9 Inches
Color	White
Style	Modern
Base Material	Metal
Top Material Type	Engineered Wood
Special Feature	Adjustable Height, Wheel
Item Weight	15.5 Pounds
Required Assembly	Yes
Includes All Assembly Tools	Yes
