VINGLI G52006866

VINGLI Adjustable Swivel Bar Stools (Model G52006866)

Instruction Manual

1. INTRODUCTION

Thank you for choosing VINGLI Adjustable Swivel Bar Stools. These versatile bar stools are designed to provide comfort and style to your kitchen island, breakfast bar, or home bar area. Featuring a smooth hydraulic lift system for height adjustment and a 360° swivel function, they offer flexible positioning and ease of use. The stools are upholstered in plush corduroy velvet and supported by a sturdy metal base, ensuring both elegance and durability.

2. SAFETY INFORMATION

- Do not exceed the maximum weight limit of **300 lbs (136 kg)**.
- Use caution when adjusting the height and swiveling to prevent tipping. Ensure the stool is stable before sitting or adjusting.
- Follow all assembly instructions carefully to ensure proper stability and safe operation.
- Keep children away from the assembly area. Small parts may pose a choking hazard.
- Regularly check all bolts and connections to ensure they remain tight.

3. PACKAGE CONTENTS

Before assembly, please verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- 2 x Bar Stool Seats (with backrest)
- 2 x Gas Lift Cylinders
- 2 x Footrests

- 2 x Base Plates
- 1 x Assembly Hardware Set (screws, washers, Allen wrench)
- 1 x Instruction Manual (this document)

4. SETUP AND ASSEMBLY

Assembly is quick and typically takes about 15 minutes per stool. Please follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Attach Footrest to Seat:** Secure the footrest ring to the underside of the seat using the provided screws and Allen wrench. Ensure it is firmly attached.
3. **Insert Gas Lift:** Place the gas lift cylinder into the center hole of the base plate.
4. **Connect Seat to Gas Lift:** Carefully align the hole on the underside of the assembled seat (with footrest) with the top of the gas lift cylinder. Press down firmly until the seat is securely seated on the gas lift.
5. **Test Stability:** Once assembled, gently test the stool's stability before full use.

5. OPERATING INSTRUCTIONS

Your VINGLI bar stools are designed for easy height adjustment and smooth swiveling.

5.1. Height Adjustment

To adjust the seat height (from 24" to 32"), locate the lever under the seat:

- **To Raise:** While standing, pull the lever upwards. The seat will automatically rise. Release the lever when the desired height is reached.
- **To Lower:** While seated, pull the lever upwards. The seat will lower under your weight. Release the lever when the desired height is reached.

5.2. Swivel Function

The seat can rotate 360° for easy movement and access without needing to reposition the entire stool. Simply turn the seat in the desired direction.

6. MAINTENANCE

Proper care will extend the life and appearance of your bar stools.

6.1. Upholstery Care (Corduroy Velvet)

- **Regular Cleaning:** Gently vacuum the velvet upholstery regularly using a soft brush attachment to remove dust and prevent dirt buildup.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain and damage the fabric pile. For stubborn stains, use a mild fabric cleaner specifically designed for velvet, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading.

6.2. Metal Base and Frame Care

- **Cleaning:** Wipe the metal parts with a soft, damp cloth. For tougher marks, a mild soap solution can be used, followed by drying thoroughly.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.

- **Check Connections:** Periodically check and tighten all screws and bolts to ensure the stool remains stable and secure.

7. TROUBLESHOOTING

If you encounter any issues with your bar stools, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Stool wobbles or is unstable	Loose screws or uneven floor.	Check and tighten all assembly screws. Ensure the stool is on a flat, even surface. Adjust floor glides if present.
Height adjustment not working	Gas lift cylinder is stuck or damaged; lever mechanism is faulty.	Ensure the lever is fully engaged. If the issue persists, the gas lift may need replacement. Contact support.

Problem	Possible Cause	Solution
Swivel function is stiff or noisy	Lack of lubrication; debris in swivel mechanism.	Clean any visible debris from the swivel mechanism. Apply a small amount of silicone-based lubricant if necessary.
Scratches on floor	Missing or damaged rubber foot pads.	Ensure the non-marking rubber foot pads are properly installed on the base. Replace if damaged.

8. SPECIFICATIONS

Brand	VINGLI
