ROJECO RWJ-30

ROJECO RWJ-30 Automatic Laser Cat Toy User Manual

Model: RWJ-30 | Brand: ROJECO

PRODUCT OVERVIEW

The ROJECO RWJ-30 Automatic Laser Cat Toy is designed to engage your cat's natural hunting instincts with its unpredictable laser patterns and adjustable settings. This rechargeable device offers multiple play modes and a quiet operation, making it an ideal interactive toy for indoor cats.

Key Features

- True Random Motion & 3-Stage Speed Auto Hunting Mode:** Engages cats' instincts with unpredictable laser paths. Features 3 adjustable laser modes (Fast, Slow, Mix) to mimic prey movements, triggering 10-minute hunting sessions.
- Adjustable Angle:** Features a magnetic design allowing horizontal 360° and vertical 60° adjustment for multi-angle play.
- Ultra-Quiet Design (<20dB) & Smart Sleep Cycle:** Operates silently to avoid disturbance. Includes an automatic sleep mode after 10 minutes, restarting every 2 hours for 4 cycles.
- Upgraded 1000mAh Battery & Eco-Friendly:** Offers extended playtime with a USB-rechargeable 1000mAh battery, providing approximately 30 days of standby on a 2.5-hour charge.
- Safe Laser & Durable ABS Housing:** Equipped with an eye-safe laser (650nm, <1mW) and constructed from chew-resistant ABS material for durability.

SETUP

- Unboxing:** Carefully remove the laser toy and its components from the packaging. Ensure all parts, including the magnetic base and USB-C charging cable, are present.
- Charging:** Before first use, fully charge the device. Connect the provided USB-C cable to the charging port located on the back of the toy (next to the power button) and plug the other end into a compatible USB power adapter (not included). A full charge takes approximately 2.5 hours. The indicator light will change to show charging status.
- Assembly:** Place the spherical laser unit onto its magnetic base. The magnetic connection allows for easy attachment and detachment.
- Placement:** Position the toy on a flat, stable surface in an open area where your cat has ample space to play and chase the laser. Avoid placing it near stairs or fragile objects.

OPERATING INSTRUCTIONS

- Power On/Off:** Press and hold the power button on the back of the device for 3 seconds to turn the toy on or off.
- Changing Speed Modes:** Once powered on, short press the power button to cycle through the three available speed modes:
 - Mixed Mode (M):** Combines slow and fast laser movements for unpredictable play.
 - Slow Mode (S):** Ideal for kittens or less active cats.
 - Fast Mode (F):** Suitable for active and energetic cats.
- Adjusting Laser Angle:** The magnetic base allows for flexible adjustment of the laser projection.
 - Horizontal Adjustment:** Rotate the spherical unit 360° on its base to direct the laser across different areas of the room.
 - Vertical Adjustment:** Tilt the spherical unit up or down by up to 60° to adjust the height and range of the laser path.
- Smart Sleep Cycle:** The toy operates in 10-minute play sessions. After each session, it automatically enters a 2-hour sleep mode. It will then reactivate for another 10-minute play session. This cycle repeats four times before the toy enters a longer standby period to conserve battery.

MAINTENANCE

- Cleaning:** Wipe the exterior of the toy with a soft, dry cloth. Do not use abrasive cleaners or immerse the device in water.
- Storage:** When not in use for extended periods, store the toy in a cool, dry place away from direct sunlight.
- Battery Care:** To prolong battery life, avoid completely draining the battery frequently. Recharge when the low battery indicator appears.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Laser not turning on.	Low battery or device is off.	Charge the toy fully. Press and hold the power button for 3 seconds to turn on.
Laser movement is erratic or stuck.	Obstruction in the laser path or internal mechanism issue.	Ensure no objects are blocking the laser output. Restart the device. If the issue persists, contact customer support.
Cat is not interested.	May be overstimulated or prefer a different mode.	Try switching to a different speed mode (Slow, Fast, Mixed). Allow the cat to rest and reintroduce the toy later. Ensure the play area is clear.
Battery drains quickly.	Frequent use or battery degradation.	Ensure the toy is fully charged. The smart sleep cycle helps conserve battery; allow it to function as designed. If battery life significantly decreases, contact customer support.

SPECIFICATIONS

Model Name	RWJ-30
Brand	ROJECO
Item Weight	7.1 ounces (200 Grams)

Product Dimensions (LxWxH)	3.9 x 3.9 x 4 inches
Material	Plastic (ABS Housing)
Battery	1000mAh Lithium Ion (included, rechargeable via USB-C)
Charging Time	Approx. 2.5 hours
Standby Time	Up to 30 days (after full charge)
Laser Wavelength	650nm
Laser Power	<1mW (Eye-safe)
Noise Level	<20dB (Ultra-Quiet)
Manufacturer	Nanchang YueLing Technology Co., Ltd.

WARRANTY AND SUPPORT
