YITAHOME MAYIH9pOcn

YITAHOME Full Bed Frame User Manual

Model: MAYIH9pOcn | Brand: YITAHOME

1. INTRODUCTION

Thank you for choosing the YITAHOME Full Bed Frame. This platform bed frame is designed to provide a comfortable and stylish foundation for your mattress, featuring an adjustable vertical channel wingback headboard, integrated LED lighting, and robust solid wood slat support. This manual provides essential information for assembly, operation, maintenance, and troubleshooting to ensure optimal use and longevity of your product.

2. SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Keep all small parts away from children during assembly to prevent choking hazards.
- Ensure all bolts and screws are securely tightened before using the bed frame. Periodically check and re-tighten fasteners.
- Do not stand or jump on the bed frame.
- Distribute weight evenly across the bed frame. The maximum weight capacity is 1100 lbs.
- Use only the recommended mattress size (8-10 inches thick) to ensure proper fit and support.
- Avoid exposing the LED lights and electrical components to water or excessive moisture.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Headboard (Adjustable Vertical Channel Wingback)
- Side Rails
- Footboard
- Solid Wood Slats and Support Legs
- Hardware Pack (screws, bolts, washers, Allen wrench)
- LED Light Strip and Controller (Remote Control, APP Control module)
- Installation Manual

4. Setup and Assembly

Follow the step-by-step instructions provided in the included Installation Manual. The following points highlight key aspects of the assembly process:

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Refer to the parts list in your manual to identify each piece.

2. **Assemble the Frame:** Connect the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure but do not fully tighten until the entire frame is assembled.

3. **Install Slat Support:** Place the solid wood slats across the frame. The slats are designed for easy installation and provide robust support for your mattress without the need for a box spring. Ensure all slats are properly spaced and secured. The frame includes extra legs for enhanced stability.

4. **Attach LED Lights:** Follow the instructions in the manual to attach the LED light strip to the designated area, typically along the back of the headboard or under the side rails. Connect the controller module.

5. **Final Tightening:** Once all components are in place, fully tighten all bolts and screws.

OPTIMIZED 6.3" CLEARANCE

This graphic highlights key design elements for ease of use and durability: an easy-to-assemble structure for swift installation, extra support legs for enhanced stability, and robust slat support for a solid and reliable foundation.

5. Operating Instructions

5.1. LED Lighting System

The integrated RGB LED lights can be controlled via the included remote control or a dedicated smartphone application.

- **Remote Control:** Use the remote to power the lights on/off, change colors (over 60,000 options), adjust brightness, select dynamic modes, and set timing functions.

- **Smartphone Application:** Download the specified app (refer to the installation manual for QR code or app name). The app offers advanced control, including mic mode (lights react to sound), music modes, and more precise customization of lighting effects.
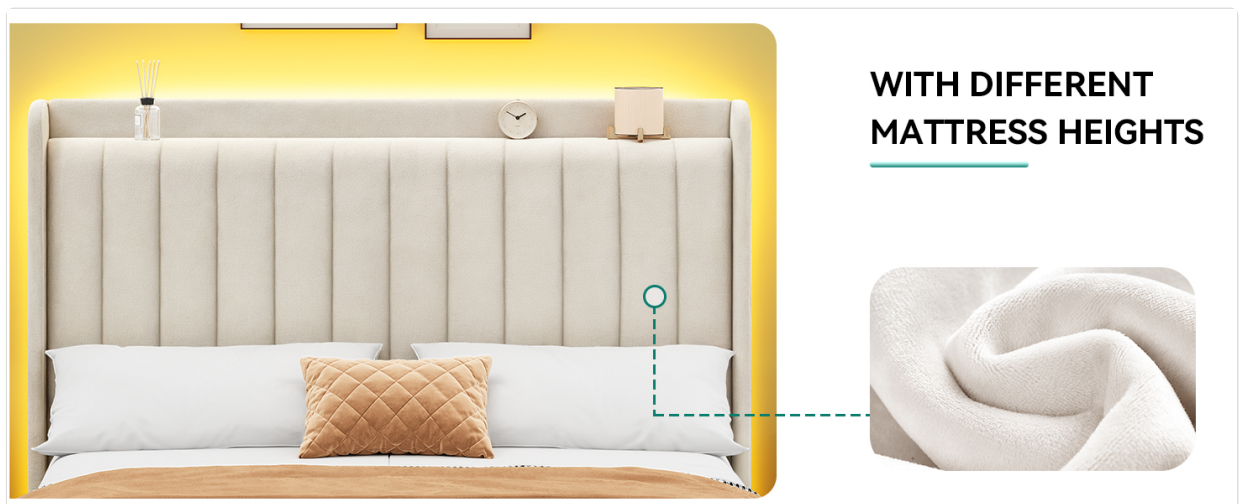

This image demonstrates the integrated RGB LED lighting system of the bed frame. The lights can be controlled via a remote or a smartphone application, offering over 60,000 colors, various dynamic modes, music synchronization, and timing functions to create different ambiance.

5.2. Adjustable Headboard

The wingback headboard features a 2-gear adjustable height mechanism to accommodate different mattress thicknesses.

- To adjust the headboard height, loosen the securing bolts on the headboard supports.
- Carefully slide the headboard to your desired height (43.3" or 47.2").
- Once positioned, securely tighten the bolts to lock the headboard in place.

The headboard features two adjustable height settings, allowing it to be positioned at either 43.3 inches or 47.2 inches from the floor. This adjustability ensures compatibility with various mattress thicknesses, including options for mattresses with or without a box spring.

6. MAINTENANCE

Regular maintenance helps preserve the appearance and functionality of your bed frame.

- **Cleaning:** Wipe the frame with a dry cloth to remove dust. For upholstered parts, gently spot clean with a mild fabric cleaner if necessary, and allow to air dry completely. Avoid harsh chemicals.
- **Fasteners:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as needed to prevent squeaking and maintain structural integrity.
- **LED Lights:** If an LED strip malfunctions, contact customer support for replacement or

troubleshooting. Do not attempt to repair electrical components yourself.

SOFT CORDUROY FABRIC

skin-friendly | soft | ventilate

The stunning yet subtle details of this comfortable & breathable headboard make it a piece that never goes out of style

A detailed view of the soft corduroy fabric upholstery, emphasizing its skin-friendly, soft, and breathable properties. This material contributes to both comfort and the stylish appearance of the bed frame.

7. TROUBLESHOOTING

If you encounter issues with your bed frame, refer to the following common problems and solutions:

- **Squeaking Noise:**
  Solution: Check all frame connections and ensure bolts are securely tightened. Squeaking often results from loose fasteners. Ensure slats are properly seated and not rubbing against the frame.

- **LED Lights Not Working:**
  Solution: Verify that the power adapter is correctly plugged into a working outlet and securely connected to the LED controller. Check the remote control battery. If using the app, ensure Bluetooth is enabled and the device is paired.

- **Headboard Not Adjusting:**
  Solution: Ensure the securing bolts on the headboard supports are sufficiently loosened before attempting to adjust the height. Do not force the adjustment.

- **Bed Frame Feels Unstable:**

Solution: Re-check all assembly steps, ensuring all components are correctly installed and all hardware is fully tightened. Verify that all support legs are making firm contact with the floor.
