SHPAVVER zks-C01

SHPAVVER Vacuum Beard Trimmer User Manual

Model: zks-C01

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the SHPAVVER Vacuum Beard Trimmer. Keep this manual for future reference.

- This appliance is designed for personal grooming only. Do not use for any other purpose.
- Keep the appliance dry when not in use. Although IPX7 waterproof, ensure charging port is dry before connecting charger.
- Do not immerse the charging cable or adapter in water or other liquids.
- Keep out of reach of children. This appliance is not intended for use by persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not disassemble the trimmer. For repairs, contact qualified service personnel.
- Use only the charging cable provided with the trimmer.
- Avoid dropping the trimmer or subjecting it to strong impacts.
- If the trimmer or charging cable appears damaged, discontinue use immediately.

PRODUCT OVERVIEW

Figure 1: SHPAVVER Vacuum Beard Trimmer and its retail packaging, showcasing the device, two comb attachments, and the built-in vacuum system.

Package Contents

Your SHPAVVER Vacuum Beard Trimmer package should include the following items:

- 1 x SHPAVVER Vacuum Beard Trimmer (Model: zks-C01)
- 1 x Short Positioning Comb (1mm to 10mm)
- 1 x Long Positioning Comb (1mm to 20mm)
- 1 x USB Charging Cable
- 1 x Cleaning Brush
- 1 x User Manual (this document)

Product Features

- **Vacuuming Design for Effortless Cleanup:** Features a built-in super suction vacuum that captures trimmed hair in an internal compartment, minimizing mess on sinks and floors.
- **Gentle on Skin with Ultra-Sharp Stainless Steel Blades:** Provides precise and accurate shaving while reducing nicks and cuts.
- **IPX7 Waterproof:** Allows for versatile dry or wet shaving and easy cleaning under running water.
- **Adjustable Length Combs:** Includes two hair combs for achieving 20 different trimming lengths (0.5mm to 20mm) via a knob calibration system.
- **Powerful Dual Motor:** Ensures consistent performance and precision.
- **Long-lasting Battery:** Offers over 90 minutes of continuous power on a single charge.
- **Convenient USB Charging:** Can be charged via a computer USB port or power adapter, ideal for travel.

SETUP

Before first use, ensure your trimmer is fully charged.

1. **Unpack:** Carefully remove all components from the packaging.
2. **Initial Charge:** Connect the USB charging cable to the trimmer and a suitable USB power source (e.g., computer, wall adapter). Allow the trimmer to charge fully. The digital display will indicate charging status. A full charge typically takes approximately 2 hours.
3. **Familiarize:** Take a moment to identify the different parts of your trimmer, including the power button, adjustment knob, and hair collection chamber.

OPERATING INSTRUCTIONS

Attaching and Changing Combs

The trimmer comes with two comb attachments to achieve various lengths.

1. Select the desired comb (short or long positioning comb).
2. Align the comb with the trimmer head and gently push it down until it clicks securely into place.
3. To remove, gently pull the comb upwards from the trimmer head.

Figure 3: A detailed view of the trimmer's stainless steel blades and the method for attaching or removing a comb attachment.

Adjusting Trim Length

The trimmer offers 20 cutting lengths from 0.5mm to 20mm.

1. Ensure a comb attachment is securely in place.

2. Rotate the green adjustment knob located on the side of the trimmer to select your desired trimming length. The numbers on the knob correspond to the length in millimeters.
3. For a closer trim (0.5mm), remove the comb attachment entirely.

BEST GIFT FOR MEN

Trimming Your Beard or Hair

Follow these steps for effective and mess-free trimming:

1. Ensure the trimmer is charged and the desired comb length is set.

2. Press the power button to turn on the trimmer.
3. Hold the trimmer with the blades facing your skin and move it against the direction of hair growth for best results.
4. The built-in vacuum system will automatically collect most of the trimmed hair into the internal chamber.
5. You can use the trimmer for dry or wet shaving, thanks to its IPX7 waterproof rating.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the life of your trimmer.

Emptying the Hair Collection Chamber

For best vacuum performance, empty the chamber after each use.

1. Ensure the trimmer is turned off.
2. Gently detach the hair collection chamber from the main body of the trimmer.
3. Discard the collected hair.
4. Reattach the chamber securely.

NO MORE MESS

Removable Beard Chamber, Easy to Clean

Figure 7: Instructions on how to remove the beard collection chamber for easy cleaning and maintenance.

Cleaning the Blades

- After removing the comb, use the provided cleaning brush to brush away any loose hairs from the blades and the inside of the trimmer head.
- For a more thorough clean, the trimmer head can be rinsed under running water due to its IPX7 waterproof rating. Ensure the trimmer is off before rinsing.
- Allow the blades and trimmer head to air dry completely before reattaching the comb or storing the device.

TROUBLESHOOTING

If you encounter any issues with your SHPAVVER Vacuum Beard Trimmer, please refer to the following table:

Problem	Possible Cause	Solution
Trimmer does not turn on.	Low battery; Power button not pressed correctly; Device malfunction.	Charge the trimmer fully. Press and hold the power button for a few seconds. If issue persists, contact customer support.
Poor trimming performance.	Blades are dull or clogged; Incorrect comb setting; Hair is too long.	Clean the blades and comb thoroughly. Adjust to a shorter length setting or pre-trim very long hair with scissors.
Vacuum system not collecting hair effectively.	Hair collection chamber is full; Suction vents are blocked; Chamber not properly attached.	Empty the hair collection chamber. Clean any blockages from the suction vents. Ensure the chamber is securely attached.
Trimmer not charging.	Charging cable or adapter faulty; Charging port is dirty or damaged.	Try a different USB port or adapter. Ensure the charging port is clean and free of debris. Contact customer support if the issue continues.
