SUNKTA EF15-C-US

SUNKTA EF15 Military Smart Watch User Manual

Model: EF15-C-US

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your SUNKTA EF15 Military Smart Watch. Please read this manual carefully before using the device to ensure optimal performance and longevity.

The SUNKTA EF15 Military Smart Watch, showcasing its robust design and key functionalities like the 1.75-inch HD display, 800mAh battery, and integrated LED flashlight.

WHAT'S IN THE BOX

- Smart Watch
- Metal Band
- Silicone Band
- Instruction Manual
- Charger

Included components: The smart watch, a metal strap, a silicone strap, and the magnetic charging cable.

GETTING STARTED: SETUP AND PAIRING

1. Charging the Device

Before initial use, fully charge your smart watch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer USB port. The watch display will indicate charging status.

2. Downloading the Companion App

To unlock all features and synchronize data, download the "FitCloudPro" app on your smartphone. You can scan the QR code provided in the watch's packaging or search for "FitCloudPro" in your device's app store (iOS App Store or Google Play Store).

Visual guide for connecting your smart watch to the FitCloudPro app. Ensure Bluetooth is enabled on your phone and scan the QR code to download the app.

Direct link to download the app: FitCloudPro App Download

3. Pairing the Watch with Your Phone

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the FitCloudPro app and follow the on-screen instructions to add a new device.

3. The app will search for available devices. Select "AK82 MAX" or "EF15" from the list to connect.

4. Confirm the pairing request on both your phone and the watch.

5. For call audio functionality, ensure "Call audio" is enabled in your phone's Bluetooth settings for the connected watch.

FEATURES OVERVIEW AND OPERATION

1.75-inch HD Large Screen

The watch features a 1.75-inch extra-large HD touchscreen with 390x390 pixels resolution and a 60Hz refresh rate. This provides clear and vibrant visuals for all your information. The sidebar split-screen design allows for efficient multitasking.

The high-definition display offers crisp visuals and a smooth user experience.

800mAh Long Battery Life

Equipped with an 800mAh super-sized battery, the watch offers extended usage. With intelligent power-saving mode and energy-efficient Bluetooth 5.2 technology, it provides days of use on a single charge and even longer standby time.

The 800mAh battery ensures prolonged usage, reducing the need for frequent charging.

Built-in LED Flashlight

The watch includes a convenient LED flashlight, accessible via a side button for instant illumination. This feature is useful for evening walks, finding items in the dark, or during power outages.

LED FLASHLIGHT ON WRIST

The flashlight has multiple lighting modes to brighten up your night.

Health Monitoring

The watch provides comprehensive health monitoring features, including scientific sleep monitoring (tracking sleep time, quality, light sleep, deep sleep, and REM), heart rate, and blood oxygen levels. It also offers hydration alerts and sedentary warnings to help maintain healthy habits.

How to Connect IT?

1. Turn on your phone's Bluetooth
2. Scan the QA Code Or Search on App Store
3. Download "FitCloudPro" App
4. Enter App, Click "Please connect device", Find and Add "AK82 MAX"
5. Select "PAir" in the pairing pop-up window.
6. You can turn on/off the call function on the watch
7. Turn on the "Connected to Call audio"
8. After successful connection, you can use it to make/ receive calls.

Monitor your sleep patterns and other vital health metrics for a healthier lifestyle.

Other Smart Features

The SUNKTA EF15 is your smart life manager, supporting features like phone/band tracking, remote camera control, music playback, stopwatch, countdown timer, calculator, and calendar. It also features customizable watch faces and a built-in password lock for security.

Explore a variety of smart functions and personalize your watch with diverse watch faces.

Military Style & IP68 Waterproof

The watch body features a high-strength metal middle frame structure, designed to be resistant to falls and wear. With an IP68 waterproof and dustproof rating, it can handle hand washing, rain, sweat, and short swimming. Avoid use in hot water or steamy environments.

Built to military standards, the watch offers robust durability and IP68 water resistance.

MAINTENANCE

Cleaning

Regularly clean your watch and strap to prevent skin irritation and maintain device hygiene. Use a soft, damp cloth to wipe the watch body and strap. For the metal strap, a soft brush can be used to clean crevices. Ensure the watch is dry before charging.

Water Resistance

The SUNKTA EF15 is IP68 rated, meaning it is protected against dust ingress and can withstand immersion in water up to 1.5 meters for up to 30 minutes. It is suitable for hand washing, rain, and shallow swimming. However, it is not recommended for diving, hot showers, saunas, or exposure to hot steam, as this can compromise the waterproof seals.

Storage

When not in use for extended periods, store the watch in a cool, dry place. Avoid extreme temperatures and direct sunlight.

TROUBLESHOOTING

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on.
- **Cannot pair with phone:**
    - Ensure Bluetooth is enabled on your phone.
    - Make sure the watch is within the Bluetooth range (typically 10 meters).
    - Restart both your phone and the watch.
    - Clear the Bluetooth cache on your phone (if applicable) and try again.
    - Ensure the FitCloudPro app is updated to the latest version.
- **Notifications not received:**
    - Check app notification permissions on your phone.
    - Ensure the watch is connected via Bluetooth.
    - Verify that "Do Not Disturb" mode is not active on the watch or phone.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch regularly.

If you encounter persistent issues, please refer to the customer service section for support.
