## USAGE AND MATTRESS RECOMMENDATIONS

This platform bed frame is designed to be used without a box spring. The integrated wooden slats provide ample support for your mattress.

### Mattress Compatibility

The 55.4-inch tall headboard accommodates various mattress thicknesses. You can use a mattress between 12-22 inches for optimal comfort and aesthetic. If you prefer a higher bed profile, a mattress and box spring combination (totaling 12-22 inches in height) can also be used.

## MAINTENANCE

---

To ensure the longevity and appearance of your upholstered bed frame, follow these maintenance guidelines:

- **Fabric Care:** The premium velvet fabric is designed for durability. For general cleaning, gently vacuum the upholstery to remove dust and debris.
- **Spot Cleaning:** For spills or stains, blot immediately with a clean, dry cloth. For tougher stains, use a mild fabric cleaner specifically designed for velvet, testing on an inconspicuous area first. Avoid harsh chemicals or excessive moisture.
- **Frame Inspection:** Periodically check all bolts and connections to ensure they remain tight. Retighten as necessary to maintain stability and prevent squeaks.

## TROUBLESHOOTING

---

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** The bed frame is equipped with rubber strips between the metal frame and wooden slats to reduce friction and noise. If squeaking occurs, check all assembly points and ensure bolts are

tightened. Verify that the rubber strips are correctly positioned.

- **Instability/Wobbling:** Ensure all connections, especially where the headboard, footboard, and side rails meet, are securely fastened. Re-check the tightness of all screws and bolts.
- **Mattress Slipping:** The embedded design should prevent mattress movement. If your mattress is slipping, ensure it is correctly seated within the frame.
