Dyonery DYO-MS200-DYB14-Q

Dyonery Queen Adjustable Bed Frame and 14-inch Copper-Gel Memory Foam Mattress Instruction Manual

Model: DYO-MS200-DYB14-Q

Introduction

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your Dyonery Queen Adjustable Bed Frame and 14-inch Copper-Gel Memory Foam Mattress. Please read this manual thoroughly before use to ensure proper setup and to maximize the lifespan of your product.

The Dyonery adjustable bed system offers various health and comfort benefits, including support for reduced snoring, pain relief, improved circulation, and better digestion.

Setup Instructions

The Dyonery Adjustable Bed Frame is designed for quick and hassle-free assembly, typically requiring no tools and taking approximately 5 minutes to set up for immediate use.

Unpacking and Initial Placement

1. Carefully remove all components from the packaging. Ensure all parts are present before proceeding.
2. Place the folded bed frame in the desired location. Due to its weight, it is recommended to have two people for moving the frame.

Frame Assembly

1. Unfold the adjustable bed frame. Ensure it is fully extended and stable.

2. Attach the legs to the designated points on the frame. The system includes 5-inch and 7-inch leg sections, which can be combined for a total height of up to 12 inches, or used individually to customize bed height and allow for under-bed storage.
3. Secure any retaining bars or mattress stoppers at the foot of the bed to prevent the mattress from sliding during adjustments.

The adjustable bed frame is designed for quick installation, typically completed in 5 minutes without tools.

Mattress Placement

1. Carefully unroll and place the 14-inch Copper-Gel Memory Foam Mattress onto the assembled adjustable bed frame. Allow the mattress to fully expand for 24-48 hours before use.
2. Ensure the mattress is centered and aligned with the frame.

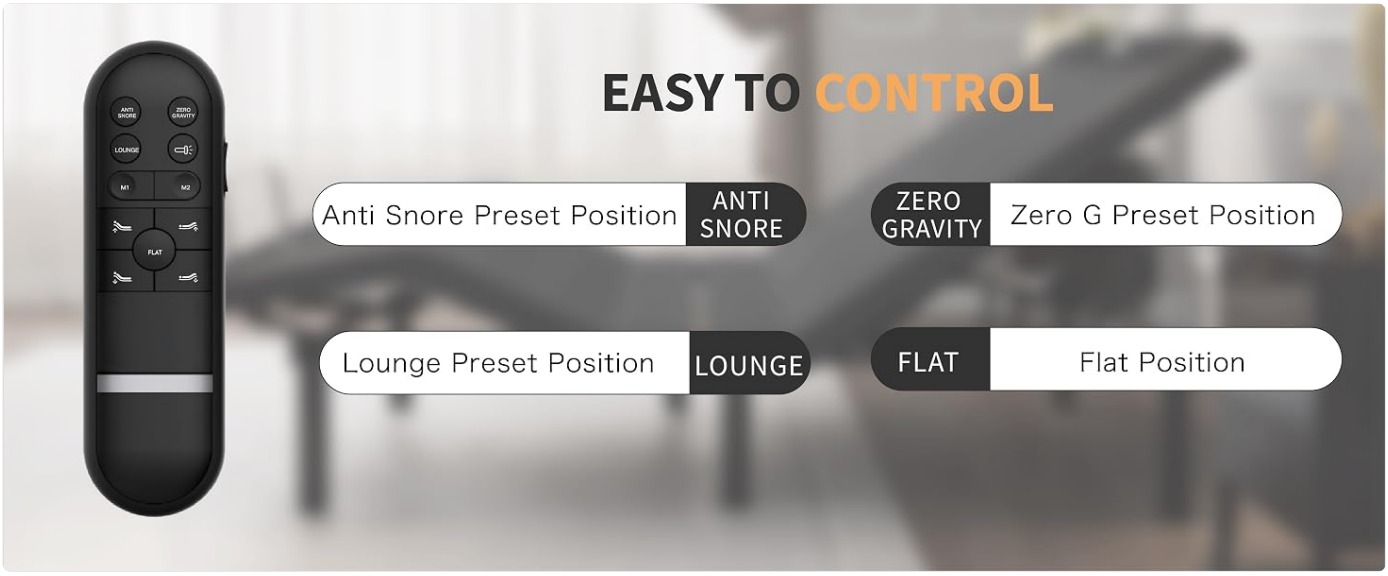

Operating Instructions

Your Dyonery adjustable bed frame features independent head and foot incline adjustments, controlled by a wireless

remote.

Wireless Remote Control

The wireless remote control allows for convenient adjustment of the bed's position. It also includes a flashlight function for added convenience in low light conditions.

The wireless remote provides easy control over bed adjustments and includes preset positions.

Adjusting Head and Foot Incline

- **Head Incline:** Use the designated buttons on the remote to adjust the head section from 0 to 57 degrees.
- **Foot Incline:** Use the designated buttons on the remote to adjust the foot section from 0 to 38 degrees.

Explore various sleep positions including TV, Anti Snore, Zero Gravity, and Flat, with independent head and foot adjustments.

Preset Positions

The remote control includes several preset positions for quick access to common comfort settings:

- **Anti Snore:** Elevates the head slightly to help reduce snoring.
- **Zero Gravity:** Positions the body to minimize pressure on the spine and improve circulation.
- **Lounge:** A comfortable position for reading or watching TV.
- **Flat:** Returns the bed to a completely flat position.

14-inch Copper-Gel Memory Foam Mattress

The included 14-inch Copper-Gel Memory Foam Mattress is designed to complement the adjustable bed frame, offering enhanced comfort and support.

Mattress Structure and Benefits

The mattress features a multi-layer design for optimal sleep quality:

- **Cooling Knit Fabric Cover:** Regulates body temperature for a comfortable sleep environment.
- **Fiberglass-Free FR Inner Cover:** Provides fire resistance without skin irritation or breathing problems.
- **Ventilated Copper-Gel Aerofusion Memory Foam:** Regulates humidity, odor, and temperature, ensuring the mattress stays dry and breathable. This layer offers body support for a more restful and rejuvenating sleep experience.
- **Flex Support Base Foam:** Provides necessary support to keep the spine aligned.

The mattress features a layered structure for cooling, support, and breathability.

Maintenance

Adjustable Bed Frame Care

- **Cleaning:** Wipe the frame with a damp cloth and mild soap. Avoid harsh chemicals that may damage the finish.
- **Inspections:** Periodically check all bolts and connections to ensure they are secure. Tighten if necessary.
- **Motor Care:** Keep the motor and electrical components free from dust and debris. Do not attempt to open or service the motor yourself.

Mattress Care

- **Spot Cleaning:** For spills, gently blot the area with a clean cloth and a small amount of mild detergent diluted in water. Avoid saturating the mattress. Allow to air dry completely.
- **Protection:** Use a mattress protector to guard against spills, stains, and allergens.
- **Rotation:** Rotate the mattress every 3-6 months to promote even wear and extend its lifespan.
- **Ventilation:** Ensure adequate airflow around the mattress to prevent moisture buildup.

Troubleshooting

If you encounter any issues with your Dyonery adjustable bed system, please refer to the following common solutions before contacting customer support.

Problem	Possible Cause	Solution
Bed does not respond to remote control.	No power, remote batteries low, remote not paired.	Check power cord connection. Replace remote batteries. Refer to remote pairing instructions (if applicable, usually in a separate remote manual).
Motor makes noise but bed does not adjust.	Obstruction under bed, mechanism jammed.	Check for any objects obstructing the moving parts. Ensure the bed is not pressed against a wall.
Bed only adjusts partially.	Weight limit exceeded, mechanism obstruction.	Ensure the combined weight on the bed does not exceed 750 lbs. Check for obstructions.
Mattress slides on the frame.	Mattress retainer bar not installed or loose.	Ensure the mattress retainer bar at the foot of the bed is properly installed and secure.
