PRODUCT OVERVIEW

The FREEFISH 7-in-1 Wireless Charging Station integrates multiple functions into a compact design:

- **3-in-1 Wireless Charging:** Supports simultaneous charging for compatible smartphones, Apple Watches, and AirPods.
- **Digital Alarm Clock:** Features dual alarms, snooze function, and 12/24-hour modes.
- **Dimmable Night Light:** 3-speed adjustable brightness for ambient lighting.
- **Bluetooth Speaker:** Connects wirelessly to your devices for audio playback.

- **FM Radio:** Built-in FM tuner for listening to radio stations.
- **Phone Stand:** Provides a stable stand for your smartphone during charging or media consumption.

SETUP INSTRUCTIONS

1. **Connect Power:** Insert the Type-C cable into the charging station's power input port and connect the other end to the 18W power adapter. Plug the adapter into a wall outlet.
2. **Initial Power-Up:** The device requires approximately 5 minutes to fully initialize and display the clock after being connected to power for the first time.
3. **Battery Indicator:** A flashing battery icon on the display indicates that the internal battery is charging. A solid icon means the battery is fully charged.

Your browser does not support the video tag.

Video: This video demonstrates the initial power connection, showing the charging station being plugged into a wall outlet and the Type-C cable connected to the device. It also illustrates the charging indicator on the display and how to charge a phone, Apple Watch, and AirPods Pro, emphasizing the need for a power source for normal operation. The video further shows how to adjust screen brightness and activate Bluetooth mode for automatic time synchronization and music playback.

OPERATING INSTRUCTIONS

Wireless Charging

The charging station supports wireless charging for compatible smartphones, Apple Watches, and AirPods Pro. Ensure your device is placed correctly on the designated charging areas.

- **Smartphone Charging:** Place your compatible smartphone vertically on the phone stand. The charging icon will appear on your phone's screen.
- **Apple Watch Charging:** Place your Apple Watch on the dedicated watch charging module.
- **AirPods Charging:** Place your AirPods Pro case on the base charging pad.
- *Note:* For optimal charging, ensure your phone case is $\leq 3\text{mm}$ thick and non-metal.

15W Fast

Wireless Charging Station

Universal Compatibility with the standard wireless charging devices

How to charging

- Step 1: Plug in an external charger (USB with an adapter)
- Step 2: Close to the charging Area (Gapless)

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not powering on.	Power adapter not connected or faulty; power outlet issue.	Ensure the power adapter is securely connected to both the device and a working power outlet. Try a different outlet.
Wireless charging not working.	Device not compatible; improper placement; phone case too thick/metal; foreign object on charging pad.	Verify device compatibility. Reposition the device on the charging area. Remove phone case or any foreign objects. Ensure the device is connected to a power source.
Bluetooth not connecting.	Device not in pairing mode; Bluetooth off on phone; too far from device.	Press the BT button to ensure the charging station is in Bluetooth pairing mode. Enable Bluetooth on your phone and search for "S09". Move closer to the device.
Alarm not sounding.	Alarm not set; alarm volume too low.	Check alarm settings and ensure the alarm is enabled. Increase the alarm volume.
Night light not working.	Light is off or set to 0% brightness.	Press the Light button to cycle through brightness levels.
