FOHERE 1002

FOHERE Nugget Ice Maker

Model: 1002

Brand: FOHERE

INTRODUCTION

Thank you for choosing the FOHERE Nugget Ice Maker. This countertop appliance is designed to produce soft, chewable nugget ice, perfect for various beverages and uses. With a daily production capacity of up to 55 lbs and a rapid ice-making cycle, it's an ideal addition to your home, kitchen, or office. This manual provides essential information for the safe and efficient operation, maintenance, and care of your ice maker.

WHAT'S IN THE BOX

- Nugget Ice Maker Unit
- Ice Scoop
- Ice Basket
- Operation Guide (this manual)
- Maintenance Guide

KEY FEATURES

- **Efficient Ice Production:** Produces up to 55 lbs of fresh nugget ice per day. The upgraded compressor and brushless dual-fan cooling system ensure efficient operation. Your first batch of ice can be ready in as little as 10 minutes.

More Ice Output

FOHERE

-  55 lbs Per Day
-  3 lbs Ice Basket
-  2 Qt Water Reservoir

VS

Others

-  33 lbs Per Day
-  1.8 lbs Ice Basket
-  1 Qt Water Reservoir

SETUP INSTRUCTIONS

- Unpacking:** Carefully remove the ice maker from its packaging. Retain all packaging materials for future storage or transport.
- Placement:** Place the ice maker on a flat, stable, and level surface away from direct sunlight and heat sources. Ensure adequate ventilation around the unit.
- Initial Settling:** After transport, allow the ice maker to stand upright for at least 24 hours before plugging it in. This allows the refrigerant fluids to settle properly, ensuring optimal performance and preventing damage to the compressor.
- Adding Water:** Open the top lid and fill the water reservoir with clean, potable water up to the "MAX" fill line.

Do not overfill.

Video: A comprehensive demonstration of the FOHERE Nugget Ice Maker, including setup, operation, and features. This video shows how to add water and begin the ice-making process.

5. **Power Connection:** Plug the ice maker into a grounded electrical outlet.

OPERATING INSTRUCTIONS

1. **Power On:** Press the "ON/OFF" button to start the ice-making process. The indicator light will illuminate.
2. **Ice Production:** The machine will begin producing ice. The first batch of nugget ice typically takes about 6-10 minutes.

Time	Ice Production	Volume
15mins		304 ml
25mins		507 ml
24h		38 lbs

Video: This video highlights the chewable texture of the ice produced by the FOHERE Nugget Ice Maker, demonstrating its soft and crunchy quality.

- Ice Full Indicator:** The "Ice Full" indicator light will illuminate when the ice basket is full, and the machine will automatically pause ice production. Once ice is removed, production will resume.
- Add Water Indicator:** If the "Add Water" indicator light illuminates, the water reservoir is low. Refill the reservoir to continue ice production.
- Storing Ice:** The ice maker is not a refrigerator and does not keep ice frozen indefinitely. It is recommended to transfer the produced ice to a freezer for long-term storage.

MAINTENANCE

Regular cleaning is crucial for maintaining the performance and longevity of your FOHERE Nugget Ice Maker, especially if using hard water.

1. Self-Cleaning Function:

- Quick Clean (5 mins):** Press the "CLEAN" button for 1 second.
- Deep Clean (30 mins):** Press and hold the "CLEAN" button for about 3 seconds.

This function circulates water through the system to help remove mineral buildup. For best results, use a descaling solution or a mixture of water and vinegar during the deep clean cycle.

- Draining Water:** After cleaning or when storing the unit, ensure all water is drained from the reservoir. Locate the drain plug at the bottom of the unit and remove it to empty the water.

Video: This video demonstrates the self-cleaning function and how to properly drain the ice maker after use or cleaning.

- External Cleaning:** Wipe the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Frequency:** It is recommended to clean your ice maker every two weeks or more frequently, depending on water hardness and usage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Ice maker not producing ice or producing very slowly.	<ul style="list-style-type: none">Insufficient water in reservoir.Unit not properly primed (refrigerant not settled).Ambient temperature too high.Mineral buildup from hard water.	<ul style="list-style-type: none">Refill water reservoir.Ensure unit stood upright for 24 hours before first use. If not, unplug, let stand, then restart.Operate in a cooler environment.Perform a deep clean cycle. Use distilled or filtered water to minimize mineral buildup.

Problem	Possible Cause	Solution
"Add Water" indicator light stays on after refilling.	<ul style="list-style-type: none"> Water sensor malfunction or obstruction. Air lock in water pump. 	<ul style="list-style-type: none"> Ensure water level is above the sensor. Unplug the unit for a few minutes, then plug back in to reset. Try to force water into the internal tank's out tube (as per a user review, this can sometimes prime the pump).
Ice cubes are clumping together.	<ul style="list-style-type: none"> Ice is melting and refreezing in the basket. High humidity. 	<ul style="list-style-type: none"> Transfer ice to a freezer immediately after production. Ensure the lid is properly closed.
Unit is noisy or vibrating excessively.	<ul style="list-style-type: none"> Unit not on a level surface. Internal components vibrating. 	<ul style="list-style-type: none"> Ensure the ice maker is placed on a flat, stable, and level surface. Contact customer support if noise persists and is unusual.
