MAINTENANCE

Proper care will extend the life and appearance of your bed frame.

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. For the rattan, use a soft brush or cloth to gently remove dust. Avoid harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically check all bolts and connections to ensure they remain tight. Retighten if necessary.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the rattan to fade or become brittle.
- **Moisture:** Protect the bed frame from excessive moisture to prevent damage to the rattan and metal components.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:**

- Ensure all bolts and screws are fully tightened. Loose connections are a common cause of noise.
- Verify that all slats are properly seated and not rubbing against the frame.
- The bed frame features a noise-free design with silent pads; ensure these are correctly positioned.

- **Instability/Wobbling:**

- Check that the bed frame is assembled on a level surface.
