Pool Pole Hook Instruction Manual

Model: SQC67J40K0K1LESCH | Brand: Generic

INTRODUCTION

Welcome to the instruction manual for your new Pool Pole Hook. This versatile tool is designed to simplify your pool maintenance tasks, providing an efficient way to manage robotic pool cleaners and other accessories. Please read this manual carefully to ensure proper assembly, operation, and maintenance of your product.

PRODUCT OVERVIEW

The Pool Pole Hook system is a robust and adjustable solution for various pool cleaning and organization needs. It features a durable hook attachment, multiple extension poles for customizable length, and a cleaning cloth for general maintenance. Its design focuses on ease of use and long-lasting performance in aquatic environments.

This image displays the complete set of the Pool Pole Hook system, including the main hook attachment, multiple extension poles, and a cleaning cloth.

PACKAGE CONTENTS

Please verify that all items listed below are present in your package:

- 1 x Pool Pole Hook Attachment (8-inch)
- 4 x Extension Pole Sections
- 1 x Cleaning Cloth

Hooks for Pool Robots

The components of the Pool Pole Hook kit are shown, featuring the black hook attachment, several silver extension poles, and a yellow and grey cleaning cloth.

SETUP

Follow these steps to assemble your Pool Pole Hook:

1. **Connect Extension Poles:** Take the individual extension pole sections and securely twist them together. Ensure each section is fully engaged and tightened to form a rigid pole.
2. **Attach Hook:** Once the desired pole length is achieved, attach the Pool Pole Hook attachment to the end of the assembled pole. Twist until it is firmly secured.
3. **Verify Stability:** Gently shake the assembled pole to ensure all connections are stable and there is no wobbling.

This image illustrates the assembled pool pole with the hook attachment, ready for use. It highlights the connection points of the extension poles.

OPERATING INSTRUCTIONS

The Pool Pole Hook is designed for various pool maintenance tasks, particularly for managing robotic pool cleaners and retrieving items from the water.

- **Robotic Cleaner Management:** Use the hook to guide your robotic cleaner to specific areas of the pool, or to gently retrieve it from the water without bending over. The hook's design allows for easy engagement with the cleaner's handle or body.
- **Item Retrieval:** The hook can be used to retrieve toys, debris, or other items that have fallen into the pool, preventing the need to enter the water.
- **General Pool Cleaning:** While primarily for hook-related tasks, the pole can also be used with other compatible attachments (not included) for brushing or netting.

Hooks for Pool Robots

A person is depicted using the assembled pool pole with the hook to maneuver or retrieve a robotic pool cleaner from the water, demonstrating its practical application.

MAINTENANCE

Proper maintenance will extend the life of your Pool Pole Hook:

- **Rinse After Use:** After each use, rinse the pole and hook thoroughly with fresh water to remove chlorine, salt, or other pool chemicals.
- **Dry and Store:** Allow all components to air dry completely before disassembling (if desired) and storing. Store in a cool, dry place away from direct sunlight to prevent material degradation.
- **Inspect Regularly:** Periodically inspect the pole sections and hook for any signs of wear, cracks, or damage. Ensure all connections remain secure.
- **Clean Cloth:** The cleaning cloth can be hand-washed with mild soap and water, then air-dried.

TROUBLESHOOTING

If you encounter any issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Pole sections feel loose or wobbly.	Sections not fully tightened.	Ensure each pole section is twisted firmly until fully engaged.
Hook does not attach securely.	Hook not twisted on completely.	Twist the hook attachment firmly onto the pole until it is snug.
Difficulty retrieving items.	Incorrect angle or technique.	Adjust the angle of the pole and hook. Practice gentle maneuvers to hook or guide items.

SPECIFICATIONS

Feature	Detail
Manufacturer	Generic
Model Number	SQC67J40K0K1LESCH
Product Dimensions	41 x 16.51 x 6.5 cm (assembled length varies with sections)
Weight	630.49 g
Hook Length	8 inches
Materials	ABS Construction, Stainless Steel Hook
Country of Origin	China

This image shows the approximate full length of the assembled pole, indicating its extended reach for pool maintenance.

WARRANTY AND SUPPORT

For any warranty claims, product support, or further inquiries, please contact the manufacturer directly. Retain your proof of purchase for warranty validation.
