Pelican HHA25P203

Pelican Monaco Pedal Boat CYAN Angler

User Manual

Introduction

Welcome to the user manual for your new Pelican Monaco Pedal Boat CYAN Angler. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your pedal boat. Please read this manual thoroughly before operating the boat to ensure a safe and enjoyable experience.
The Pelican Monaco Pedal Boat is designed for recreational use, offering a comfortable and stable platform for up to 5 individuals. Key features include:

- **Durable Construction:** Made with patented Ram-X material for high-impact resistance and longevity.
- **Comfortable Seating:** Molded seats with adjustable backrests for enhanced comfort during use.
- **High Capacity:** Accommodates up to 5 individuals with a maximum weight capacity of 775 lb.
- **Integrated Storage:** Features 4 drink holders and a built-in cooler/storage compartment with solid covers.
- **Fishing Ready:** Equipped with 2 flush mount rod holders for angling enthusiasts.
- **Sun Protection:** Includes a foldable canopy to provide shade on sunny days.
- **Easy Transport:** Bow and stern carrying handles facilitate simple transportation to and from the water.

Setup

Upon receiving your Pelican Monaco Pedal Boat, please inspect the packaging and the boat for any signs of damage. If any damage is found, contact your retailer immediately.

1. **Unpacking:** Carefully remove the pedal boat and all included accessories from its packaging.
2. **Canopy Assembly:** Attach the foldable canopy to the designated mounting points on the boat. Ensure all connections are secure.
3. **Accessory Check:** Verify that the 2 flush mount rod holders are securely installed.
4. **Initial Inspection:** Before first use, visually inspect the hull, pedals, steering mechanism, and all moving parts for any loose components, cracks, or obstructions. Ensure the cooler/storage compartment covers are properly seated.

Operating Instructions

Operating your Pelican Monaco Pedal Boat is straightforward, but adherence to safety guidelines is crucial.

1. **Boarding:** Board the boat carefully, distributing weight evenly. Ensure all occupants are seated before departing.

2. **Pedaling:** The pedal system is located at the front of the boat. Simply place your feet on the pedals and rotate them in a circular motion to propel the boat forward.
3. **Steering:** The steering handle is typically located near the front seating position. Turn the handle left to steer left and right to steer right. Familiarize yourself with the steering response in calm water.
4. **Canopy Use:** The foldable canopy can be extended to provide shade or retracted when not needed. Ensure it is securely locked in place when extended or folded.
5. **Storage Compartment:** Utilize the built-in cooler/storage compartment for food, beverages, and essential gear. Ensure the solid covers are closed to protect contents from water.
6. **Rod Holders:** The 2 flush mount rod holders are designed to securely hold fishing rods while you are pedaling or waiting for a bite.
7. **Capacity:** Do not exceed the maximum weight capacity of 775 lb or the maximum occupancy of 5 individuals. Overloading can compromise stability and safety.

Maintenance

Proper maintenance will extend the life of your Pelican Monaco Pedal Boat and ensure continued performance.

- **Cleaning:** After each use, rinse the boat thoroughly with fresh water to remove dirt, salt, and debris. Use a mild soap and soft brush for stubborn stains. Avoid abrasive cleaners.
- **Material Care (RAM-X):** The Ram-X material is highly durable. However, avoid prolonged exposure to direct sunlight when not in use, as UV rays can degrade plastics over time. Consider using a boat cover for long-term storage.
- **Inspection:** Regularly inspect the hull for any cracks or punctures. Check the pedal system, rudder, and steering cables for wear, corrosion, or damage. Lubricate moving parts as needed with marine-grade lubricant.
- **Storage:** Store the pedal boat in a dry, covered area away from direct sunlight and extreme temperatures. If storing outdoors, use a protective cover. Ensure the boat is completely dry before storage to prevent mold and mildew.
- **Winterization:** If storing in freezing conditions, ensure all water is drained from the boat to prevent ice expansion damage.

Troubleshooting

This section addresses common issues you might encounter with your Pelican Monaco Pedal Boat.

Problem	Possible Cause	Solution
Pedals are stiff or difficult to turn.	Lack of lubrication, debris in mechanism, bent shaft.	Clean and lubricate the pedal shaft and bearings. Check for and remove any debris. If bent, contact support.
Steering is unresponsive or difficult.	Loose or damaged steering cables, obstructed rudder.	Inspect steering cables for tension and damage. Clear any debris around the rudder.
Water accumulating inside the hull.	Loose drain plug, crack in hull, damaged seals.	Ensure drain plug is securely tightened. Inspect hull for visible damage. Check seals around access points.
Canopy does not stay open/closed.	Damaged locking mechanism or frame.	Inspect the canopy frame and locking pins for damage. Ensure proper alignment.

If you encounter a problem not listed here or if the suggested solutions do not resolve the issue, please contact Pelican customer support for further assistance.
