

K-Mini

KeurigK K-Mini Mate Single-Serve KCup Pod Coffee Maker User Manual

Model: K-Mini | Brand: Generic

PRODUCT OVERVIEW

The KeurigK K-Mini Mate is a compact, single-serve coffee maker designed for convenience and efficiency. Its slim profile makes it ideal for small spaces, while its simple operation ensures a fresh cup of coffee with ease. This brewer is compatible with all K-Cup pods, offering a wide variety of beverage options.

SETUP AND FIRST USE

1. **Unpack:** Carefully remove all packaging materials from the coffee maker.
2. **Place:** Position the brewer on a stable, level surface.
3. **Plug In:** Connect the power cord to a grounded electrical outlet.
4. **Rinse Reservoir:** Before first use, rinse the removable water reservoir with fresh water.
5. **Fill Reservoir:** Fill the reservoir with fresh water up to the 12oz mark.

One-Cup Reservoir

Image: A hand pouring water into the side reservoir of the K-Mini Mate, highlighting its one-cup capacity for precise brewing.

6. **Cleansing Brew:** Lift the handle, insert a K-Cup pod (or simply close the handle without a pod for a hot water rinse), place a large mug on the drip tray, and press the brew button. Discard the hot water. This cleanses the internal components.

OPERATING INSTRUCTIONS

Brewing with the K-Mini Mate is simple and quick:

1. **Add Water:** Pour fresh water into the reservoir for each brew. The K-Mini Mate features a one-cup removable reservoir, allowing for precise brewing up to 12oz.
2. **Insert Pod:** Lift the handle and place a K-Cup pod into the pod holder. Close the handle firmly.
3. **Place Mug:** Place your mug on the drip tray. The brewer is designed to accommodate various cup sizes, including travel mugs up to 7.25 inches tall by removing the drip tray.

Fits 7.25" travel mug with drip tray removed

Image: The K-Mini Mate shown with a tall travel mug, illustrating how the removable drip tray allows for larger cups up to 7.25 inches.

4. **Brew:** Press the brew button. The light will illuminate, and brewing will begin. Once brewing is complete, the light will turn off.
5. **Enjoy:** Carefully remove your freshly brewed coffee.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and taste.

- **Drip Tray:** The drip tray can accumulate spills. Remove it and wash with warm, soapy water. Rinse thoroughly and dry.
- **Water Reservoir:** The removable water reservoir should be rinsed regularly with fresh water. For a deeper clean, wash with mild dish soap and rinse completely.
- **Pod Holder:** The K-Cup pod holder can be removed for cleaning. Wash with warm, soapy water and rinse. Ensure the exit needle is clear of any coffee grounds.
- **Exterior:** Wipe the exterior of the brewer with a damp, non-abrasive cloth. Do not immerse the brewer in water.

- **Descaling:** Over time, calcium deposits (scale) can build up in your brewer. Descale your brewer every 3-6 months, or more frequently if you have hard water. Refer to KeurigK's official descaling instructions for best results, typically involving a descaling solution or white vinegar.

TROUBLESHOOTING

If you encounter issues with your K-Mini Mate, refer to the following common solutions:

Problem	Possible Cause	Solution
Brewer not turning on.	Not plugged in; power outlet issue.	Ensure the brewer is securely plugged into a working electrical outlet. Try a different outlet.
No water dispensing / Partial brew.	Low water in reservoir; air bubble; clogged needle.	Fill reservoir to the max line. Perform a cleansing brew. Clean the exit needle of the pod holder. Descale the brewer.
Coffee grounds in cup.	Pod not seated correctly; punctured pod; clogged needle.	Ensure K-Cup pod is properly inserted. Try a new pod. Clean the exit needle.
Weak coffee.	Too much water for pod size; old pod.	Use less water for a stronger brew. Ensure pod is fresh.

For further assistance, please refer to the manufacturer's official support channels.
