## Fossil Autocross Multifunction

# Fossil Men's Autocross Multifunction Stainless Steel Watch Instruction Manual

Model: Autocross Multifunction

## 1. PRODUCT OVERVIEW

The Fossil Autocross Multifunction watch features a quartz movement with a multi-eye display, providing dual time and day of the week functionality. This timepiece is designed for daily wear and offers a blend of classic and sporty aesthetics.

*Image 1.1: Front view of the Fossil Autocross Multifunction Stainless Steel Watch.*

Key features include a 42mm case, a scratch-resistant mineral crystal, and a durable stainless steel bracelet. It is water-resistant up to 50 meters (5 ATM).

## 2. SETUP

### 2.1 Setting the Time

1. Pull the crown (B) out to position 2.
2. Rotate the crown (B) clockwise or counter-clockwise to set the hour and minute hands to the correct time.
3. Push the crown (B) back into position 1 to start the watch.

### 2.2 Setting the Date and Day of the Week

1. Pull the crown (B) out to position 1 (first click).
2. Rotate the crown (B) clockwise to adjust the date display.
3. Rotate the crown (B) counter-clockwise to adjust the day of the week display.
4. Once the desired date and day are set, push the crown (B) back into the normal operating position.

*Image 2.1: Side view showing the crown (B) and pushers (A, C) for setting adjustments.*

### **2.3 Band Adjustment**

The stainless steel bracelet can be adjusted for a customized fit by removing or adding links. It is recommended to have this procedure performed by a professional jeweler or watch repair service to prevent damage to the band or watch.

*Image 2.2: Rear view of the watch, illustrating the bracelet and clasp mechanism.*

### 3. OPERATING THE MULTIFUNCTION DISPLAY

The Autocross Multifunction watch features three sub-dials that provide additional information:

- **Day of the Week Sub-dial:** Located at the 9 o'clock position, this sub-dial indicates the current day of the week.
- **24-Hour Dual Time Sub-dial:** Located at the 6 o'clock position, this sub-dial displays a second time zone in a 24-hour format. This can be adjusted independently using the pushers.
- **Date Sub-dial:** Located at the 3 o'clock position, this sub-dial indicates the current date.

#### 3.1 Adjusting the Dual Time Sub-dial

1. Press the upper pusher (A) to advance the 24-hour hand of the dual time sub-dial forward in 15-minute increments.
2. Press the lower pusher (C) to advance the 24-hour hand of the dual time sub-dial backward in 15-minute increments.
3. Adjust until the desired second time zone is displayed.

### 4. MAINTENANCE

#### 4.1 Cleaning Your Watch

To maintain the appearance of your watch, wipe the case and bracelet with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the finish.

#### 4.2 Water Resistance

This watch is water-resistant up to 50 meters (5 ATM). This means it is suitable for short periods of recreational swimming and showering. It is not suitable for diving, snorkeling, or high-impact water sports. Ensure the crown is fully pushed in before any contact with water.

## 4.3 Battery Replacement

The watch is powered by a 12V battery. When the battery needs replacement, it is recommended to take your watch to an authorized Fossil service center or a reputable jeweler to ensure proper battery installation and maintain water resistance.

## 5. TROUBLESHOOTING

- Watch Not Running:** Check if the crown is fully pushed in. If the watch still does not run, the battery may need replacement.
- Incorrect Time/Date:** Refer to Section 2.1 and 2.2 to reset the time, date, and day. Ensure the crown is fully pushed in after setting.
- Condensation Under Crystal:** This may indicate a breach in water resistance. Avoid further contact with water and seek professional service immediately.

## 6. SPECIFICATIONS

<b>Model Name</b>	Autocross Multifunction
<b>Case Size</b>	42mm
<b>Band Width</b>	22mm
<b>Case Thickness</b>	11.18mm (approx. 0.44 inches)
